### Gardening—A Good Game

GARDENING is a family sport. Every member of the household can be interested in it. While affording instructive recreation it also pays you a wonderful profit in the form of fresh vegetables all summer and fall—even for winter if you will cold pack varieties, such as Corn, Beans, Beets, Carrots, etc.

A small garden is very much worth while. A space 20x25 feet will repay you if used for beans, radishes, beets, lettuce, carrots, spinach, etc.—the quick growers. A larger area permits growing sweet corn, peas, melons, tomatoes, and the root crops for winter storage.

To utilize your land to best advantage, plan your garden right away. Also plan to use seed that bears a reputation for producing good crops over a long period of years. Northrup, King & Co.'s seeds have given satisfaction for 42 years.

They are available now in packets and cartons
