The first Tuesday evening in May is the date for the regular meeting of the P. T. A. and is the time for the election of officers. Some have expressed the thought that there really is no active need of a P. T. A. organization. We will admit that in past years it has used its power more or less as a "sword of Damocles" over the heads of refractory boards or principals in this particular community, but there is much splendid work that can be done through the P. T. A. and it may become a potent factor in the community. There is play ground equipment needed, there is a need for more social affairs for the young people, in fact there are many things within the scope of the P. T. A. but if we cannot have concerted effort, it is best to let the organization lapse into unconsciousness. Let us have an expression of opinion at the regular meeting, first Tuesday in May.
