Michigan, Civilized State. Mr. Mellon Housekeeping. The Ideal Child. Here-Real News.

The State of Michigan is still tryng to reach a decision on capital punshment. Certain legislators appear to think that to discourage murder the State must imitate the murder and inflict death.

It is proposed to restore capital punishment in Michigan, where it has long been unknown. Michigan is a civilized State, an

igan needs the help of a hangman, or a man to throw the switch on an electric chair.

What is the ideal child, in your opinion? Secretary Hoover, presi-dent of the American Child Health Association, says the normal child 'Is Association, says the normal child is not superflucusly happy or deeply discouraged, is robust, vociferous, not ruled by emotions." That is a good definition of a child destined to de-

idle. A good farmer keeps his horses and exen working, a good industrial-ist keeps his machines busy. Europe needs canals, roads, houses and it should be possible to find work for all. That would be easy if men could get away from the idea that the only sound reason for putting a man to work is to let somebody else make a profit on his labor.

#### SMITH-MILLER.

Coming as a surprise was the announcement made this week-end of the marriage of Miss Esta Miller, teacher in our high school, to Mr Austin Smith of this city. The wedding took place in Pendleton on Aprli 30, but the young people had been able to keep it in the dark until the close of school, when the announce-ment was made. Mrs. Smith has been teacher in history in the Heppner high school the past year and is engaged for the same position the com-ing year. Her home is at The Dalles, but where the young couple will re-side we did not learn. Mr. Smith is traveling salesman for the Miller Rubber company for the eastern Oregon territory.
