Fittingly Observed.

IT SHOULD be gratifying to every right thinking citizen to observe the growing respect for Memorial Day.

Memorial Day was fittingly observed in Heppner. All business houses were closed for the day and the services held in the forenoon were largely attended.

Frost Damage.

MANY sections of the Northwest suffered from the severe cold snap of several weeks ago.

Dr. Frank Crane Says

LET'S STOP THIS ENDLESS RACE

REPRESENTATIVE BUTLER, chairman of the House and Naval Affairs Committee, recently asserted that the United States ought to build practically a new navy to cost more than \$400,000,000.

We are lagging steadily behind other nations and from being along toward the front we have dropped to fourth place.

This he holds to be a great danger. Just where the competing nations in armament are to stop he does not suggest.

About the only way we can be made to stop it is for one nation that is undoubtedly strong to cease competing with the others.

The danger in this course is that the others will take advantage of it. It will be looked upon as a trusting and lamblike sucker.

This is a favorite idea among a certain class of people, the idea that our own nation is trusting, gentle and kind and harmless and all other nations are evil-minded and grasping.

There is no nation in the world in which this idea is not common.

The notion is not peculiar to nations. There are many individuals who have it. Many people in a family refuse to be kind and gentle because they think the other members of the family will take advantage of them.

It seems to be an absurd idea that was in the mind of Christ that the way to beget kind treatment on the part of others is to give them kind treatment first.

Many people believe that doing unto others as they would have others do unto them is all right, but they neglect to add the corollary that you must do it first.

It looks as if it would take some time yet to get the idea in the minds of people that the way to keep from being attacked by others is not to attack them and not to be able to attack them.

The idea of the United States arming itself to the teeth is quite a popular one among certain classes. They do not take into account the utter futility of this program as proved during the late war and the fact that preparation for war in the way of armament can easily become an intolerable burden.

The best way to get rid of war is deliberately to turn our back upon it and the only thing we should do in the way of armament is to so arrange our affairs that the forces of peace can be quickly mobilized in the event of national danger.

As to our damage that was actually done, and it is gratifying to know that injury to grain and fruit was not so serious as first reported.

As to our damage that was actually done, and it is gratifying to know that injury to grain and fruit was not so serious as first reported. In Umatilla county where both grain and fruit was injured, it now happens that the wheat is coming along from new growth, and while the usual yield will be cut there will not be anything like a general loss, and touching the fruit outlook in the east end of the county, the Milton Eagle has this to say:

The sum total of all reports and estimates on the fruit crop seems to indicate that this will not be so bad a year for the fruit industry in this valley after all. True some individual growers will be hard hit and face the prospect of a very short crop and a hard year, but taking the valley as a whole the indications that there will be a fair crop of most varieties of fruit with prospects of a good price prevailing.

However, it is apparent that there will be a considerably lessened demand for labor and materials necessary in picking and packing the crop and this will be a considerable loss to the community. A spirit of optimism and thankfulness prevails that the conditions are as good as they are in the face of the hard freeze that was experienced.

"Father" Clark.

REV. FRANCES E. CLARK, known affectionately as "Father" Clark by Christian Endeavorers the world around, has reached the end of a long and exceptionally fruitful life.

When forty-six years ago he founded in his little church at Wiliston, Maine, the young people's society of Christian Endeavor, he builded better than he knew.

Through the years of its amazing growth, he remained the active leader of the movement, and to the last as titular president, was its fatherly adviser.

It is pleasant to remember that his work for Christian Endeavor was always an unspoiled labor of love, that he accepted no salary or fees for his innumerable addresses, but supported himself entirely from his writings.

Not only the Christian Endeavor society, but similar organizations in many denominations which formed upon its model, have supplied the church with its active leaders, its ministers and missionaries.

Ten Dollars—and Life.

SIX hundred thousand Americans are homeless. Five hundred thousand are destitute and dependent upon charity for each succeeding meal in the Mississippi valley.

"There was never in our history such a calamity," says Herbert Hoover. Henry M. Baker, Red Cross National Director of Disaster Relief, calls it "the most staggering disaster the country has ever suffered."

Our people still do not appreciate its magnitude or significance, else they would DEMAND National action.

In the Urgent Deficiency Bill, which fell by the wayside in the recent Congress because of a partisan filibuster, was an appropriation for \$8,600,000 to buy seeds, fertilizer and forage for districts stricken by crop failure.

It was not a crisis item—the flood had not yet happened. It was a routine precaution, such as any prudent Congress would take.

The entire fund of \$5,000,000 at present in sight for the rehabilitation of the half million absolutely destitute victims of the greatest disaster in our history is only a little more than HALF of the emergency sum which Congress meant to appropriate as a matter of course.

This \$5,000,000, bear in mind, is not relief money. The Red Cross has nearly \$15,000,000 with which to feed, clothe and shelter the flood victims during the peak of their suffering. Private generosity has responded magnificently to the call upon its mercy.

Five millions for rehabilitation? Why, it is only \$10 apiece—ten dollars with which to start life anew from scratch and win to comfortable American citizenship in a land where the per capita wealth is THREE HUNDRED TIMES AS MUCH.

And this, while the Treasury at Washington is bursting with idle money. Give these pitiable flood victims a decent lift and the future protection to which they are entitled.

It is dangerous to drive in a fog—especially if it is mental.

For Married Men Only. It is better to have loved and been bossed, than never to have been bossed at all.

There may be "many a slip between the cup and the lip" as claimed—but there no longer are many 'twixt the flapper and public gaze."

"Young Eagle" Lindbergh went up 10,000 feet trying to get above the sleet storm in his record flight New York to Paris. Whereby the Minnesota boy busted another old saw—"that high flying does not pay."
