The click of mowers is again heard on the project and once more hay stacks are appearing in the fields. Some farmers are just through with their first cutting and others are putting up their second. This is due to the unusual season. The farmers who spring toothed their alfalfa and then irrigated late had comparatively clean fields.

Opposition to the completion of the school gymnasium failed to develop very materially at the recent budget meeting held Friday. L. G. Smith, probably the heaviest taxpayer on the project, owning 160 acres of land, made a motion that the school board be given a vote of thanks for their excellent work and that the budget be unanimously adopted by acclamation but since there were two opposing votes it was necessary to vote by

ballot which showed 34 yes to 3 no. C. H. Dillabough was elected chairman of the meeting. The gym was started last spring but funds were insufficient to complete it. Much donation labor was promised but weather conditions were such that construction was impossible and when work was begun the farmers were busy with their ranch work so could not help. Mr. Calkins mentioned Friday that those who promised to contribute labor could do so shortly but Mr. Dillabough said that he did not approve of that procedure since this building is to be paid for from tax money.
