

BOARDMAN

Mr. Cosby, poultry specialist of O. A. C., came Friday, July 28th, to hold a culling demonstration at the Walter Knauft poultry ranch. It was a very busy time of the year with men haying, irrigating or threshing, and women busy preparing epicurean delights for the gratification of the genus homo, so only a small crowd attended. Mr. Cosby stated that it was unnecessary to do any culling in the Knauft flock as they had been so carefully and thoroughly culled by the owner that only a very few remained.

Work on the gym is progressing fairly well. It has been a bit difficult to get men but it is expected that work will be completed by October 1st, the expiration of the contract date. C. G. Blayden was awarded the contract for the completion of the work at a recent meeting of the board.

Bobby Smith and wife have returned from a pleasant vacation trip to Seaside and other points. Bobby gave the auto manufacturers another boost when he purchased another new Oakland sedan.

Wilma Anderson left Saturday for her home in New Plymouth, Idaho, after a pleasant visit with her grandparents, Mr. and Mrs. C. G. Blayden and at the Gorham home. She came home with the Gorhams just after the Fourth.

Mr. and Mrs. Chas. Nickerson and family expect to leave this week for Shaniko where Mr. Nickerson is employed on the Ballenger fertilizing plant.

The Royal Rands family had two ripe watermelons Sunday, July 27. Did anyone beat this?

A. W. Cobb departed Saturday for Portland after spending a week visiting friends on the project. Mr. Cobb was much entertained during his stay here and was a guest at the Watson, Jenkins, Rand, Boardman and other homes. Mr. Cobb made his headquarters with M. Mulligan while here.

Miss Helena Fleck came Sunday for a short visit at the home of her sister, Mrs. Lee Mead. She was on her way home at the Dalles from La Grande where she has been attending Normal.

The Fair premium lists will be out this week. If you do not get one, ask for one at Churchill's store. Don't lose them but scan them carefully and make your plans now for a bigger and better North Morrow County Fair than ever before.

Dr. Johnston, county health officer, has very kindly consented to come to the Fair and will hold a baby clinic. The best baby will be the prize winner and there can be no ill feelings on the part of fond mothers when the babies are judged on a scientific basis. The baby show includes children under two years. An effort will be made to see if a clinic can be arranged for children of pre-school age.

Russell and Alvie Mefford and Ray Barlow were hosts at a pleasant party Saturday night at the Mefford home. About 20 of the younger set were present and had a pleasant time with various sorts of games. Refreshments were served late in the evening.

Mr. and Mrs. J. C. Ballenger and Maxene were called to Yakima Sunday because of the death of Mrs. Ballenger's uncle, Dell Andrews. Mr. and Mrs. W. A. Murchie came up from Wasco Sunday and also motored to Yakima. Mr. Andrews is a brother of Mrs. Murchie.

Truman Messenger and wife motored down from Athena Sunday and visited home folks.

Mr. and Mrs. B. F. Schisler left on Monday for their home in Los Angeles after a pleasant visit at the Messenger and Flickinger homes. Mr.

Gospel to Wall Street

Uldine Utley, 14 year old Evangelist, not content with preaching the gospel to Broadwayites invaded Wall Street this week for a noonday meeting where thousands heard her.

Schisler is a brother of Mrs. Messenger and Mrs. Flickinger.

Mr. and Mrs. Ed Barlow come Sunday from Palouse for a short visit with their parents. They returned Sunday night to Athena where Mr. Barlow will be employed.

Lillian Brice spent several days in Vancouver visiting relatives and friends, going down with her uncle, Fred Edmonds.

Leo Root was pleasantly surprised Monday evening, August 1, when he was asked to the Mefford home, to find an elaborate birthday dinner awaiting him.

Mrs. Chas. Dillon and daughter Clara Mae visited in Portland several days this week.

The Home Economics club met at the home of Mrs. Claude Myers last Wednesday. The usual delicious feast was enjoyed. The next meeting will be held at the home of Mrs. Chas. Nizer.

Mr. and Mrs. Nate Macomber and Sybil Grace motored to Pilot Rock Saturday night. Mrs. Macomber and daughter will remain for a week. Nate came home Sunday evening. Mr. and Mrs. Chas. Goodwin came home from Pendleton with him as did W. A. Goodwin.

Mr. and Mrs. Arthur Allen and baby spent Sunday with their parents. Wanda Gilbreth of The Dalles is here visiting friends.

Mr. and Mrs. W. A. Price and Nellie Messenger motored to Cove, Ore., on Sunday. Billie returned with them. He spent the past week with his grand parents.

Mrs. F. D. Cline of Sumner, Neb., is expected this week to visit her cousin, Mrs. W. H. Mefford. She, with some friends are motoring through.

Lee Mead was a Pendleton visitor last Friday.

Mr. and Mrs. Chas. Goodwin accompanied the Prices as far as Pendleton Sunday, where they visited W. A. Goodwin who is a patient at St. Anthony's hospital. He came home with them.

W. H. Mefford unloaded a car load of coal last week for the school district.

The Silver Tea was held Wednesday at the home of Mrs. W. H. Mefford with Mrs. Blayden's committee entertaining. Refreshments were served by the Mesdames Blayden, J. F. Barlow, Ramsier, Chaffee, Mefford, Gorham and Johnson.

Mr. and Mrs. Chester Taylor and son Russell of Los Angeles were guests a few days last week at the Frank Cramer home. Mrs. Taylor is a niece of Mr. Cramer. They visited Yellowstone Park and other places of interest on their way.

Practically all of the wheat on the project has been cut. Elmer Westfeldt has been busy threshing. The yield was not so good as was anticipated.

Lee Mead and family are planning a trip to Michigan shortly. They will visit at Lansing, Detroit and other places of interest. Paul will stay with his grandmother at The Dalles, since he made the trip with his father a few years ago. Bobby Smith will relieve Mr. Mead and Clarence Berger will take Smith's place at the telegraph key.

Mrs. Ralph Davis was given the contract for the transportation of pupils from Coyote to the Boardman school for the coming school year. There were three bidders.

Mr. and Mrs. J. H. Inus and daughter Ona spent Sunday at the Geo. Gross home. Mr. Inus is working in the harvest and Mrs. Inus is cooking at the Ed Rietmann ranch during harvest.

MORGAN

Mr. and Mrs. Glenn Farrens and W. Farrens of Hardman were the dinner guests of Mr. and Mrs. Martin Bauerfeldt Sunday.

Rupert McCarty, Walter Siren and Harry Rabbanan returned to their homes in "the valley" Thursday after working for a time in harvest.

Clarence Adams and Andy Dorn were the Sunday dinner guests of Mr. and Mrs. H. O. Ely.

Mr. and Mrs. Coey of Scio returned to their home Wednesday after visiting a few days with Mr. and Mrs. C. L. Rodgers.

Mr. and Mrs. Franklin Ely spent Sunday in the mountains.

Clell Holteen of Scio is working for R. S. Eckleberry.

Kenneth Hutchcroft is back in the country after being away for some time.

Quite a few of the farmers around here are having their wheat hauled with trucks.

Mrs. H. O. Ely and daughter Margaret spent Friday and Saturday in Hood River.

Mrs. George Mahoney was calling on Mrs. Jim Hardesty Monday.

Noel Streeter, Howard Hardesty and Hershall Townsend were visiting in Heppner Sunday evening.

Mr. and Mrs. S. Birk of Salem came Tuesday to visit a few days with Mr. and Mrs. C. L. Rodgers.

No one can relish food after a visitation by ants. Hours of painstaking labor are spoiled. Delicious dishes are tainted, made unpalatable. Fly-Tox kills ants. Spraying should be continued for several days because ants are always present in colonies. Insist on Fly-Tox. Fly-Tox is the scientific insecticide developed at Mellon Institute of Industrial Research by Rex Fellowship. Simple instructions on each bottle (blue label) for killing ALL household insects. Fly-Tox is safe, stainless, fragrant, sure. Every bottle guaranteed.

DON'T ALLOW THE 'SKEETERS' TO BITE

Mosquitoes are found in almost every locality where there is an opportunity for them to breed, and the opportunity depends simply upon the presence at some time during the year of standing water. Mosquitoes have been more prevalent this year in Oregon on account of the late high water. The sloughs and standing backwaters are excellent breeding places for mosquitoes. Although malaria is an uncommon disease in this state, if mosquito control is not given serious consideration it will undoubtedly become more prevalent.

The control and extermination of mosquitoes involves the application of many methods. There are, however, three principal methods for preventing the breeding of mosquitoes. They are the draining of all standing water or stagnant water, destroying the mosquito larvae with a larvicide, and the planting of top minnows to eat the larvae.

The mosquito can only be exterminated by destroying all breeding places draining all standing water and marshes, and oiling all of the breeding places every two or three weeks following high water. Three parts of kerosene to two parts of crude oil is a good mixture to use in a spray pump. One ounce of oil properly used will cover fifteen square feet. Prevent breeding places by clearing the ditches of grasses and weeds, and doing away with stagnant water. Waters which cannot be oiled should be treated with a larvicide. A good larvicide made from tobacco can be purchased. Paris green is also used as a larvicide in the proportion of one part of Paris green to three parts of hydrated lime, soap stone, or dust. This is blown on the surface of the breeding place. Bodies of water which can neither be oiled nor treated with a larvicide can be kept free of mosquito larvae by stocking with top minnows.

Male mosquitoes are vegetarians. Female mosquitoes are the biters. The females have developed a taste for blood, and indeed blood has become indispensable for the full development of their eggs. Remembering how all important the generative instinct is we can well understand why the mosquito will return again and again to obtain her full of this life-perpetuating fluid.

The most effective means are those which destroy the breeding places of the mosquito and prevent their multiplication. For the best results both community and individual efforts are necessary. The individual attacking the problem on his own premises can do much not only to rid his own immediate neighborhood of mosquitoes, but the example thus set will perhaps stimulate his less enterprising neighbor. Largely reducing the num-

ber of mosquitoes will make life more pleasant and eliminate the diseases which they may carry.

PIANO MUST BE SOLD.

Will sacrifice fine piano in storage near here. Will give easy terms to a responsible person. For full particulars and where piano can be seen address Portland Music Co., 277 6th St., Portland, Ore. 19-22

Having disposed of my interests in Lexington Service station, I desire to take this opportunity of thanking all those who favored me with their patronage and liberal support. Those knowing themselves indebted to me will please call and settle as early as convenient. 1tp.

L. H. FREDERICKSON.
