

Wool, Mohair Growers to Compete For Prizes

A new feature of the Pacific International Livestock Exposition to be held at Portland on October 29 to November 5, is the Pacific International Wool show. This exhibit will be held under the auspices of the Pacific Cooperative Wool Growers, with C. E. Grelle, member of that association and director of the Pacific International, in direct charge.

"This show is open to every wool and mohair grower, whether a member of the wool growers association or not. All growers will receive the same consideration," announces Mr. Grelle. "Rules and shipping tags may be secured by writing to the Pacific Cooperative Wool Growers, 461 Davis street, Portland. Fleeces may be sent to their warehouse at any time, where they will be taken care of and held for the show."

"This is a real opportunity for wool and mohair growers to have their clips judged by the leading experts of the west, and to carry home some prize money and valuable trophies."

Cash prizes, ribbons and—in some cases—silver trophies, will be awarded the best fleeces in the various classifications. The cash prizes will range from \$3.00 to \$15.00 for first place, depending upon the number of entries.

The Pacific Cooperative Wool Growers will give a silver trophy for the best Quarter-Blood fleece in the show. Charles J. Webb has offered a handsome silver platter for the best Fine Wool fleece, and the United States National bank of Portland has donated a silver cup as a perpetual trophy for the best Three-Eighths fleece exhibited. Some of the purebred sheep associations will give special prizes for fleeces from the particular breed of sheep they represent.

The best mohair buck fleece will be awarded a beautiful mohair davenport cushion by the Angora Journal of Portland and L. C. Chase & Co., Boston distributors of mohair. All of these trophies and special prizes will be given in addition to the regular cash prizes and ribbons, and other additions to this attractive lineup of awards have been promised.

From the large number of entries already received, the event promises to be the largest and most interesting wool show held in the West, according to those in charge.

Poor Court Attendance Cause of Injustice

Difficulty in obtaining justice for the victimized party or parties in automobile accident cases centers around the inability of official agencies to get witnesses to appear in court and, if some way could be devised to get around this obstacle, it would mark an important contribution to the cause of street and highway safety, in the opinion of O. B. Robertson, director of the Oregon State Motor association.

"That it is this factor which deters many of them is illustrated in the case of the Oregon State Motor association, which is affiliated with the American Automobile association. This club has had a wide experience in safety work. Recently when it was found that there were but few convictions in hundreds of auto fatalities each year, the club got busy."

"It offered a reward of \$50.00 to witnesses who would aid in convicting reckless or careless drivers. Since that time many convictions have been secured and the reward been claimed numerous times."

"This reward made it possible for witnesses to take time off from their work with the result that they contributed their bit to seeing that justice was done. Everyone has a responsibility when he sees an automobile accident. Rewarded or unrewarded, he should make an effort to lay his version of the incident before a court."

"In this way only will the careless and reckless driver be driven from the highway, which is an end that every law-abiding motorist devoutly wishes."

See the New Automa Circulator, a heater that burns either coal or wood. Has capacity for heating five or six connecting rooms. If contemplating putting in new heating for the house, come in and investigate the New Automa Circulator. Baldwin's Furniture and Household Exchange—new and second-hand goods. 26-1f.

Do you want a cheap knockabout car? We have a 1920 Dorr that runs good, all licensed and ready to go. Price \$55.00. HEPPNER GARAGE.

The LaFlorence beauty shop is again open, with Mrs. Davis in charge. Marceles during September, 75 cents.

Fr the Love o' Jack

Of course Estelle Taylor Dempsey, wife of the former champ, doesn't have to do this—but recovering in health—and being with Jack at his Chicago training quarters where he makes ready for Tunney, Sept. 22, Mrs. D felt the domestic urge and washed out a few things.

Which clothes are hardest to wash—

Shirts?

Here's the way the Maytag washes them---

Cuffs, collars and neckbands spotlessly clean—without hand-rubbing. Dress shirts become snowy white and work shirts look like new.

Silks?

Here's the way the Maytag washes them---

Clean and lustrous. Dirt-grimed colors become bright and flashing.

Rompers?

Here's the way the Maytag washes them---

Soiled spots and ingrained dirt completely removed—even at the knees, where "Johnny" rubbed them on the ground.

Woolens?

Here's the way the Maytag washes them---

Clean and soft like new, all the dirt flushed from the fabric by water action alone.

Towels?

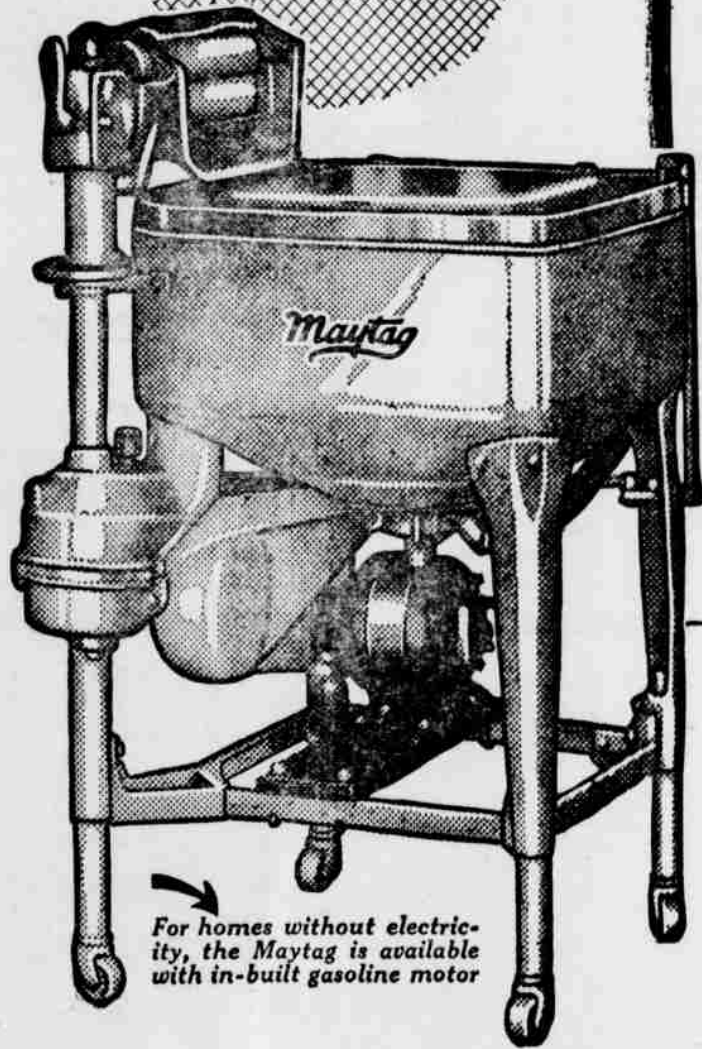

Here's the way the Maytag washes them---

Fresh, sweet-smelling and fluffy. All finger marks and soiled spots removed without hand-rubbing.

Blankets?

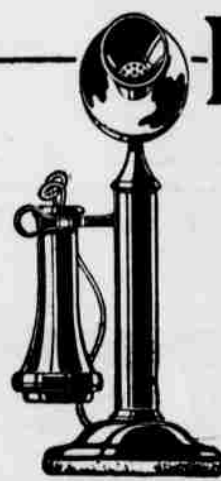

Here's the way the Maytag washes them---

Fluffily clean, with the warmth of the wool preserved, yet all dust and sand removed and every fibre clean as new.

For homes without electricity, the Maytag is available with in-built gasoline motor
