Ray McRoberts is back in school after being out for two weeks on account of illness.

### PERSONALS.

The gymnasium lockers purchased by the high school student body have arrived and are awaiting installation. Until they are put in, they will be stored in the girls' basement.

Girls' basketball practice will probably begin next week. According to Mrs. Smith, who will coach this year's team, a large turnout is anticipated.

Plans for the dedication of the new gymnasium are to be very simple in form, states Mr. Burgess. The date has not been set for the dedication exercises.

Miss Kate Francis Ede arrived on Saturday morning from Victoria, B. C., to take the position of supervisor of music in Heppner public schools. She is a graduate of the University of Oregon and St. Ann's Academy in Victoria. This is a convent school, under the supervision of the sisters of St. Ann.

Mr. Johnson has ordered eight new basketball suits for the first string team. The pants are to be purple with gold stripes down the sides and around the trouser legs. The jersey sweaters are purple with Heppner written across the front in gold. The suits represent the high school colors.

Heppner news items pertaining to school functions are being sent to the East Oregonian, and will appear in the Morrow county column. These articles will be written by members of the Heppnerian staff.

Miss Ede appointed Earl Thomson as secretary of the boys' chorus for the remainder of the first semester. Earl's duty is to see that all music books are placed in their proper order in the music library. He must also see that prior to the class the music is distributed and gathered at the close of the period.

All of the teachers with the exception of Miss Pearson returned from spending Thanksgiving at their various homes and were on hand to start work Monday morning. Miss Pearson arrived about noon.

Vernon Brown has been absent from school during the past week. Marvin Gammell returned to school last Monday after being absent last week.

The Civics class has been studying the various compromises of the constitutional convention. The work of this class has been all research dating from the Magna Charta up to the present work being done on the constitution. Due to the amount of work of Mr. Burgess, the class has not met very often lately.

### New Playground.

A new playground is to be established on the south side of the gymnasium for the grade students as soon as the contractor's buildings are removed. This is to relieve the present congested conditions on the old playground and lessen the numerous accidents which are happening while the children are playing.

### Industrial Club.

The Parent-Teacher association has selected a group of energetic grade students to carry on the work of an industrial club. These members have promised a real effort in making their products and will probably be awarded prizes given by the state and county fairs. The best products of the clubs will be sent to both fairs. Leaders for the various groups will be volunteered from the association.

### Interclass Debates.

Interclass debates will again be one of the principal events of the school year. Mr. Von Lubken will be head debate coach of the contesting teams. These contests between the classes will probably take place before the Christmas holidays, although a schedule has not been decided upon. The high school debate squad, to meet other school representatives, will be chosen from the class debaters.

### Basketball Hall.

The floor of the basketball hall has been sanded and relay teams of high school students under the management of Mr. Burgess and Mr. Johnson, are rapidly getting the floor marked out for the basketball court. Tuesday a group of boys were detailed by Mr. Johnson to get the backboards and baskets from the Swindig hall and install them in the gymnasium.

The court itself is regulation size, but the floor itself on which it is placed, is the largest in eastern Oregon. The measurements have been marked out with chalk and in the near future will be coated with two applications of prepared floor paint, provided by the contractor.

A large turnout is expected for basketball practice and everyone interested in the game is eagerly awaiting the opening of the season.

### HUMOR.

Can you imagine: James Hager saying, "Here is my report card, pa, I brought it home because I wanted you to see it first?"

Professor Von Lubken asleep at roll-call?  
Jeptha Garriguea flunking a course?  
Paul Hialer speaking before the audience?

Ellis T.: "If I had a rubber band, do you know what I'd do?"  
Eva H.: "Shoot paper-wads, I suppose."  
Ellis: "No, I'd hire it out for the dances."

Onex P.: "Gee, I had a funny dream last night."  
Louise L.: "What was it?"  
Onex P.: "I dreamed that I was somewhere in the future, watching our high school teachers going up to heaven by way of a very long ladder. A command was given from the Lord for each to take a piece of chalk and write down one sin which they had done on earth, on each step—"

Louise: "Yes; go on."  
Onex: "And behold, when I took the second look, I saw Mr. Johnson coming down after some more chalk."

The cigarette that knows how to "be itself"

There is no "pose" about Camel. It's just a good honest cigarette—the best ever—and it doesn't try to be anything else.

If all cigarettes were as good as Camel you wouldn't hear anything about special treatments to make cigarettes good for the throat. Nothing takes the place of choice tobaccos.
