

E. H. BUHN SUCCEEDS WITH JEWELRY LINE

Another man who has made a worthwhile success in his line at Heppner and whose store today would well do credit to any of our larger centers is E. H. Buhn, local watchmaker and jeweler who owns and operates the store under his name.

Here is a store carrying exceptionally large lines of all manner of jewelry, silver, watches and kindred goods. Of gift goods he makes a particular specialty.

Mr. Buhn is himself an expert watchmaker of many years of experience and looks after the repair in person. He took over this business about two years ago, coming from Portland where he was formerly connected with one of the larger wholesale houses. He is also the official railroad watch inspector for this district and is considered one of the best watch authorities. With such a store and with such up-to-date stocks here our people have no occasion to patronize out of town or mail order houses.

In the comparative short space of time that Mr. Buhn has operated here he has built up a fine business and today counts among his friends and patrons all of the people of the county.

HEPPNER STEAM LAUNDRY BOOSTS

Still another industry at Heppner is the Heppner Steam Laundry which well serves the local trade with high grade laundry work.

The laundry is owned and personally supervised by A. J. Westoff, a laundry man of many years experience.

Mr. Westoff hails originally from Missouri where he was also formerly conducting laundries. Looking over the west for investment opportunities he decided Heppner was a most ideal location. He took over this laundry business 17 years ago. During his time he has of course added modern machinery and many improvements until today it is one of the best equipped smaller laundries in the state.

Through efficient work and prompt delivery service he has built up a fine trade and has made a success of the business. Patronize the home institution.

Here you live in the great outdoors, enjoy all that nature has to offer and at the same time are near to the busy marts of trade to afford immediate connection. Our fine highways, railway transportation facilities and auto stage services are here for your convenience. Come and enjoy life in Morrow county, Oregon, the last frontier.

Settle in a new and coming country. A country, however, that is no longer in the experimental stage but is today a tried and proved fact. The ground work has been laid, the initial development work done. It must ever forge ahead.

The land of sure crops, many throughout the year will assure the farmer ready cash income in Morrow county. Where wheat is king of them all.

FERGUSON CHEVROLET CO. HAS MODERN GARAGE

FERGUSON MOTOR CO. HAS GENERAL MOTORS AUTO LINE

Success with capital letters in the automobile world of Morrow county is seen in the big business transacted yearly by the Ferguson Chevrolet company of Heppner, distributors for the popular Chevrolet, Oakland and Pontiac cars. To their credit let it be said that during last year the firm's sales showed a lead over all others in the county.

The history of the firm is one of growth and progress. Starting originally on a smaller scale in another location their business growth soon made it necessary to erect larger, more modern and better equipped quarters with the result that the above noted modern structure was erected by them in 1926. Here are carried all manner of parts and accessories with attendant service so as to render every service to the owner. A well equipped repair department is a feature of the business. This is also the sole agency for the USL batteries with battery service, battery recharging, rebuilding, etc., a feature.

Interested in the firm are O. T. Ferguson, E. O. Ferguson, R. E. Ferguson and Al Bergstrom, all live wire local men whose history has been one of success and from whom bigger things are expected for the future. A branch is conducted at Pendleton where Oakland and Pontiac cars are featured as the leaders.

The new Chevrolet, a picture of which is seen above and in which, in spite of the expensive improvements such radical reductions in price have been made, includes specifications, making it indeed the world's finest low priced automobile.

BEFORE THE DAYS OF GOOD ROADS AND TRUCKS

Main Street of Heppner in the Early Days. The Horse and Mule Stage—Showing Wagons Loaded With Wool. Where it Formerly Required One or Two Whole Days to Bring in a Load of Wool Trucks Now Make Several Trips a Day From the Shearing Pens.

If you are willing to work and are a practical farmer you will find an opening in Morrow county. And it will surprise you how little capital you need to make a start. Come and farm on Morrow county's idle acres.
