

ST. PATRICK'S CHURCH.

Rev. Thomas J. Brady, pastor. Next Sunday will be the first Sunday of Lent, and there will be a High Mass in Heppner at 8:30 with sermon by the pastor. Immediately after this service the pastor will say a second mass in the Sands at 10:30 and preach. The pastor will be glad to meet the ladies of the Sands after the mass there. Confessions will be heard before each service in Heppner and in the Sands. On Wednesdays, Fridays and Sundays, throughout the season of Lent, there will be rosary, litany, sermon, prayers and Benediction of the Blessed Sacrament. The pastor will officiate at all of these services. On Friday evening besides the rosary there will take place the Way of the Cross, led by the pastor and benediction.

Lent is a holy and special season of devotion, mortification, and prayer for all Catholics; a time during which frivolous enjoyment is eliminated. Every Catholic parish throughout the entire world looks upon Lent as a real season of prayer, and serious thought.

Besides the usual evening devotions announced for Lent, there will also be special masses said each Wednesday and Friday at 7:30 preceded by confessions. Daily Holy Communion is urged with emphasis upon all Catholics.

Children who are in the first communion class will have special instruction each Monday and Tuesday afternoon in the parish house after the usual closing hour of school. First Holy Communion for these will occur in the warmer days of May and June.

CHURCH OF CHRIST.

A sermon in song. The choir will have charge of the evening service giving a sermon in song. They will use largely old songs so that everyone may have a part. The text will be John 3:16 and the songs selected under the various heads as, God, Loved, World, Gave, Son, Believers, Not Perish, Everlasting Life or Heaven. There will be mixed quartets, duets and solos and well as songs for all to sing. This promises to be a very unique and inspirational service.

Sunday school at 9:45. Communion service following with Mr. Crawford and Mr. Turner in charge. Christian Endeavor at 6:30, all young people urged to be present.

Wheat Farm Wanted in Exchange.

Agency for Essex, Chevrolet, Hudson and Overland cars. Will trade to full value. Price \$20,000.

268 acre farm, 100 acres in cultivation, 100 acres good saw timber, balance open pasture. Fair build-

TO THE PUBLIC:

As the principles of conducting most all lines of business, and especially the merchandising business, have materially changed during the past few years, and in order to keep pace with the trend of the times, we are compelled to revise the policy of our business, and place it on a basis which we believe will be beneficial to both our patrons and ourselves.

The old-time custom of extending indefinite credit from the source of supply to the consumer is being rapidly done away with, all the way from the manufacturer to the consumer.

We are not going on a cash basis and will extend credit to all whom we deem worthy, on a basis of sixty days' time with a discount of five per cent for cash upon delivery of goods, which is equal to thirty per cent per annum; or we will allow two and one-half per cent discount at the end of thirty days, which is also equal to thirty per cent per annum; or sixty days net. If the account remains unpaid at the end of sixty days, an interest charge of eight per cent per annum will be added to the account every thirty days thereafter. There will be no interest charge on any item unless it shall have run for sixty days.

As stated above, the policy that we will adopt will be beneficial both to our patrons and ourselves; this is shown by the discounts which we will allow, whereby our customer's money is earning for him a thirty per cent per annum interest rate, and the money we receive enables us to replace our stock by buying for cash and taking the discount allowed us.

A customer who is in the market for one hundred dollars' worth of merchandise, and does not have the ready money, can go to his banker and borrow the money at eight per cent per annum and buy his merchandise which would be sold him on sixty days' time and take a five per cent discount, on the money which he borrows at eight per cent per annum he will be making a net saving of twenty-two per cent per annum, while the banker who supplied the money would realize only eight per cent for his money. You may not upon your first interpretation of what we have said, realize that it is possible that such savings might be made, yet they can be. We have given you facts whereby you may determine for yourselves the great savings that might be made by buying your merchandise for cash.

From now on our business will be conducted on the policy as above indicated. We are in business to make only a fair margin of profit, and we are in position to offer you standard merchandise at a price that should command your favor, and by fair dealing, courteous treatment and our best services we solicit a fair share of your patronage and with our best wishes for a prosperous future for us all.

We are most truly yours for success.

GILLIAM & BISBEE

Becomes Actress

Photo shows Miss Paula Pierce, pretty Canadian girl, as a Bathing Beauty. She was discovered by a scout for Florenz Ziegfeld, the world's foremost expert on pukehitude, while she bent over flapjacks in Child's New York restaurant. Miss Pierce will be seen shortly in the cast of one of Ziegfeld's productions.

Students to Learn Flying at University

University of Oregon, Eugene—A course in ground instruction in flying including lessons in the theory of flight is being organized here and a proposal has been made to the University of Oregon that credit be allowed students taking the work. O. S. Stanberry, graduate of the University of Kansas, is organizing the class. The proposal has not yet come before the faculty, but it is hoped that it will be passed on soon.

Four university students, three of them from Portland, have already enrolled for aviation instruction with the Langmack school here, where the course will be given. They are Betty Cook, Richard Graef, Richard Manning, Portland; and Bud Eddins, The Dalles. Four others all residents of Eugene, also plan to take the work. They are Frank Nettleship, Florence Collins, T. O. Paine and S. J. McFarland.

University of Oregon, Eugene—Leonard Delano, Portland, sophomore in the school of journalism at the University of Oregon, has been awarded the first prize of \$10 by the Bush Terminal Company of New York, for a critical review of the company's anniversary booklet. "Mr. Delano's review on our booklet was very cleverly done and we have all enjoyed reading it very much," Irma L. Wallace, head of the research department of the company wrote to Eric W. Allen, dean of the school of journalism here. Mr. Bush is writing to Delano personally, the letter stated.

LAMBING EWE LOSS MAY BE PREVENTED

(Continued from Page 1)

laxative treatments or abortion may result."

Substantiating this information by the livestock sanitary board is the experience of C. A. Minor, who lost twelve sheep one day and eight another day from this cause. He has found exercise to be the main factor in preventing the paralysis, though he has found no means of curing affected ewes. He believes there is little need of the paralysis occurring if proper preventive measures are taken.

In both instances where Mr. Minor lost ewes they had been moved from the range to the feed lot and allowed to rest and feed for a number of days. The first instance occurred when he moved a band to the Cool place at Cecil to feed for several days. He then moved the band to Rhea creek and while on

ings, good fence, plenty good water.

Either of these to trade to full value or will give good terms on smaller farms. Want something that can be leased for a number of years on crop rent as these men do not want to farm themselves. 49-50 THOS. LARGE, Scio, Ore.

Physical Education At University Noted

University of Oregon, Eugene—The wide variety of work done by girls in the school of physical education was demonstrated before hundreds of students and townspeople at the annual "open house" of the department held Thursday afternoon under the direction of Miss Emma Waterman, director of this work.

Lacrosse, basketball, Danish and individual gymnastics, beginning and advanced dancing, advanced swimming and even ping pong and tennis were shown to the visitors during the open house. Guides conducted groups from one part of the Woman's building to another, where sports were being played continuously.

Visitors were able to note the progress made in various sports by observing beginning teams as compared to work by advanced students in the same sports. Equipment of the women's gymnasium was also shown during the tours.

"Electricity--the most useful community service"

Says Hon. Charles A. Eaton, Member of Congress from New Jersey:

"The electrical industry in America as developed by private ownership and operation, constitutes the greatest, cheapest, most vital and universally useful social service of a material kind ever rendered a civilized community."

Everybody benefits from electricity. It helps the manufacturer turn out better goods more quickly, at prices at which more people can enjoy them. In the home it releases women from the drudgery of washing, ironing and cleaning. It preserves food, cooks meals, and gives the woman more time for her family and for recreation.

And electrical service is the cheapest social service known. For it has been reduced in average cost during a period in which the general cost of living has gone up 68%.

The remarkable social and economic benefits produced by electrical service were developed under the stimulus of individual initiative in management and operation. As a result, the electrical industry is a human benefaction. It belongs to the American people. The people have encouraged it by increased use. The people have helped finance it through investment of personal savings. Every one has earned more, and saved more, because electricity has made America more efficient in home and business.

Under public regulation, individual initiative has built an electrical service which expands ahead of growing needs, and which costs less in proportion as the needs increase. The continuance of the American principle of individual initiative will safeguard the future growth of this cheapest, most universal social service.

SHERMAN ELECTRIC CO.

the road not one new case developed. After the band had been in the feed lot on Rhea creek for some five or six days the paralysis again began to appear. He was quite certain lack of exercise was the cause, though he had thought that as the feed lot was quite large the ewes might get sufficient exercise within it without taking them out. As soon as he saw the paralysis reappearing he cut the feed rations a third to a fourth and began exercising the

ewes. Since that time no new cases have developed. Mr. Minor also believes laxative feed to be a good thing while the ewes are kept in the feed lot. The best feed of this kind he has found to be barreled syrup or molasses. This he heats with about fifty per cent water, making it quite thin so that it pours easily, and sprinkles on the hay. For the purpose of sprinkling he has found an ordinary coal scuttle to be just the thing.

fixed for the purpose by having a piece of tin soldered over the spout and perforated. This feed he believes costs nothing extra, as by its use the sheep clean up all the hay, whereas without it practically enough hay is wasted to equal the

cost of the syrup; besides the value of the feed as a laxative is received. He recommends that ewes being kept in the feed yard at lambing time be driven out at least three-quarters of a mile and back every day for exercise.

HIATT & DIX

Phone Main 1072 We Deliver

Powered by a Brute of an Engine All-American in Design

What a power plant! What a clean, uncluttered example of advanced engineering design! That's what you think when you lift the hood of the All-American Six. That's why this brilliant car is amazing everyone who takes the wheel... A brute of an engine, indeed. With a 79-pound crankshaft... crankcase and cylinder block of "bridge-truss" design... generously large connecting rods and other vital parts. With many other notable advancements... G-M-R cylinder head... fuel pump... full pressure oiling of moving parts... Small wonder it's famous for conquering America's stiffest mountain grades. Small wonder it has never found the road too rough or the pace too trying... Yet for all its wealth of power, it's silent and satin-smooth. And for speed and snap and handling ease... just drive it yourself and see!

PRICES: 2-door Sedan, \$1045; Landau Coupe, \$1045; Sport Roadster, \$1075; 4-door Sedan, \$1145; Cabriolet, \$1155; Landau Sedan, \$1265.

New Series Pontiac Six, \$745 to \$875. All prices at factory. Delivered prices include minimum handling charges. Easy to pay on the liberal General Motors Time Payment Plan.

Special Sport Equipment Available on all body types... special front fenders with tire wells... two special tire locks and locking rings... collapsible trunk rack... \$100 extra on open cars... \$110 on closed cars... six disc wheels with same equipment, \$75 on open cars... \$85 on closed models.

The AUTOMATIC Electrola

PLAYS AN HOUR'S CONCERT WITHOUT CHANGING A RECORD.

will be demonstrated at

GORDON'S

from 11 a. m. to 2 p. m.

Tuesday, Feb. 28

A Revolution in Music Reproduction!

The Automatic Electrola No. 10-70 is a triumph of Art and Science. To possess it is to realize your most extravagant dreams of musical luxury. Not only does it bring to your fireside, your mood and your chosen hour the whole world of music, but it brings that music with such incredible realism, controlled power and supreme luxury that nothing remains to be desired.

A touch of your hand regulates the volume from a whisper to the orchestra's mightiest thunder... or any stage between. You arrange a program of your favorite selections... put it in the instrument... and forget everything but the music. No record-changing need disturb you... you hear your symphony, your dance program, your chosen entertainment of any nature, through from beginning to end. The automatic mechanism plays the records, changes them and puts them away in the hidden compartment provided for them!

You can arrange your own programs... or use the specially pressed programs of complete symphonies and other important works which are available for use with this instrument.

The Automatic Electrola No. 10-70 is enclosed in a cabinet worth of it—which is to say that nothing of beauty, utility or convenience has been omitted. It is, in performance and appearance, worthy of the finest home in the land.

List price, \$1100.

TO HEAR IT IS TO LOVE IT!

THURSDAY AND FRIDAY, FEB. 23 AND 24:

JANET GAYNOR and ALEC B. FRANCIS in "THE RETURN OF PETER GRIM"

Also Children of the Stars in YOUNG HOLLYWOOD. After you have seen this program you can say you have seen a truly great photoplay. Fully described last week.

SATURDAY, FEBRUARY 25:

MARY BRIAN, AL COOKE, KIT GUARD and FRANKIE DARRO in H. C. Witwer's Comedy Screen

"HER FATHER SAID NO!"

A large assortment of Powerful, High-Voltage Laughs! Chuckles, Roars and Giggles. Get a year's supply in an hour's entertainment. Also FELIX in SAN APPEAL, Curiosity reel, GROWING MONEY, and KINOGRAMS NEWS.

SUNDAY AND MONDAY, FEB. 26 AND 27:

MARY PICKFORD in "MY BEST GIRL"

From the story by KATHLEEN NORRIS.

This is a romance of youth, with riotous comedy to rescue you always from the verge of tears. T. gay, thrilling tale of love and laughter.

The kind of picture that only Mary Pickford could make, combining the tenderness of a moving love story with the rollicking joyousness that made her "America's Sweetheart." Also Mack Swain and Daphne Pollard in THE GIRL FROM EVERYWHERE, a two reel Mack Sennett Comedy. This comedy is nearly a feature in itself, almost entirely done in color. IT'S A WOW! CHILDREN 25c—ADULTS 50c.

TUESDAY AND WEDNESDAY, FEB. 28-29:

CONSTANCE TALMADGE in

"DUCHESS OF BUFFALO"

Something new in love, romance and adventure. When Connie got through vamping them, half the Russian nobility took up the grand old refrain:

Sables and vodka, Sardines and tea, An American Blonde made a boob out of me!

Also Cartoon Comedy THE PRINCE OF WHALES, and Kinograms News. You people with season tickets, don't forget your Lyeum number Wednesday. Come and see Connie on Tuesday.

THURSDAY AND FRIDAY, MARCH 1 AND 2:

Tom Mix in "THE CAN'ON OF LIGHT"

With DOROTHY DAWN and TONY, the Wonder Horse.

The smashing romance of a Square Guy in a round of adventure. From the battle scarred fields of France to a Ghost City of the West. Not a dull moment in this tornado of adventure.

Also OUR GANG in SEEING THE WORLD. Four famous cities of Europe, London, Paris, Venice and Rome form the itinerary of "Our Gang" in two reels of laughs and geography, filmed in the real cities of the story.

COMING NEXT WEEK:
