Arlington Defeated.

The Heppner high school baseball team won their first league game from Arlington April 7, with a score 9 to 12. The game started out with everything in Arlington's favor, but after Arlington had succeeded in running up five points during the first three innings, the spell broke and Heppner soon came to the top. Many errors were made by both teams and as a result a few scores were obtained by both sides.

American and World History.

The American history class has completed the study of American history and is starting the study in international relations from 1815 to 1928. As the causes of the Great War go back that far, Mrs. Smith believes that books otherwise than the regular text can give a broader view on the subject.

The world history, two, class is also studying the causes of the Great War mainly those dating from 1870 to 1914. They have finished studying the unification of Italy.

Teams for Typing Contest.

Margaret Notson, Jack Casteel, Vivian Cason and Letha Hiatt are chosen to represent Heppner high school at the typewriting contest to be held at Pendleton at 10 o'clock, April 14. They will leave here early Saturday morning, motoring over in Edna Vaughn's car, and will return in the afternoon.

Operetta Costumes.

Domestic art girls under the supervision of Miss Murray have been busy taking measurements for operetta costumes, for both boys and girls. Some will be made at school while others will be cut out and the students' mothers will finish them.

In the fifth grade, April 9, the following were selected for the finals in the declamatory contest: non-humorous, James Driscoll; humorous, Ethel Hughes and Ernest Clark. The judges were Miss Bennehoff, Mrs. Dix and Miss Wilson.

Several of the former students of Heppner high school visited the school the last few days. Among them were Elinor Cohn, Velma Huston and Anna Wightman.

The shorthand pupils who are taught by Miss Pearson have just received their first copies of the Gregg Writer, a monthly magazine devoted to the study of shorthand, typing and stenographic work.

The bookkeeping class also under Miss Pearson, have started work on the Keeland set, which

Glorifies the Pig

Dr. Josef Franz Kapp, prominent medical man, who claims that a serum obtained from pigskin will restore grandma's complexion to rival that of her granddaughter.

BARNYARD PIG MAKES GRANDMA A FLAPPER

Lowliest Animal Rescues Fading Beauty and Gains Respect.

Written Specially for Gazette Times Through Autocaster News Service By Robert Fuller

New York, April 14.—Dr. Josef Franz Kapp spent a few days on these shores last week, with astounding results.

When the famous doctor embarked on the boat that was to take him back to Europe, he had left behind him the information that the lowly pig is the yielder of a serum to rejuvenate beauty that will turn grandmothers into flappers.

No longer were pigs something to be sniffed at—they were animals deserving the highest respect! For Dr. Kapp is the American director of the Wasserman Institute of Berlin, and one of the most notable physicians in the civilized world. And he has pronounced the edict that the pig, if not in itself a thing of beauty, is capable of producing seductive feminine charms.

Common barnyard pigs, according to Dr. Kapp, will give the middle-aged woman of the future a face as smooth and beautiful as that of her flapper granddaughter. Dr. Kapp let the pig—not the cat—out of the bag by explaining as follows:

First the skin tissues of the pig are removed, thoroughly cleansed and cut into small pieces. These are run through a L'Abadie mill and distilled water and a small quantity of phenol added. The resulting serum is injected into the war-vein of the rabbit. After fourteen days the rabbit is killed and its blood withdrawn.

It is placed in a container and the clear liquid which rises to the top is withdrawn. This liquid is the youth giving mixture Dr. Kapp recommends.

"Several women looked twenty years younger after receiving the treatments," he said.

The treatment takes six to eight weeks, he explained, and sometimes the results last several years, while in other cases the treatment must be repeated in a year if the patient desires to keep on looking better and younger.

The Wasserman Institute has christened the "youth serum" Novopithel. 'Novo' is Latin for new and 'epithelial' is Greek for skin. The experiments were first undertaken in 1911. The skin rejuvenator was first tried on human beings by Dr. Kapp and his associates in 1923.

"Of two hundred cases that I personally treated," said Dr. Kapp, "sixty to sixty-five showed tremen-

dous improvement and 10 or 15 per cent no improvement at all." Who could ever have guessed that the lowly pig would have come to the rescue of woman's fading beauty!

Wooling By Letters.

He—"I love U."
 She—"C here. F U don't stop, U J. I'll call mother."
 He—"Y"
 She—"G! It's E Z Z C U R 2 Q rious."
 He—"Will U B mine?"
 She (falling on his neck)—"O U kid!"

On a time a pale student from Ga. Was pinched for being a fa. Said the Judge with a smile: "Young man for a while Free of charge we are going to ba."

When his sister discovered young Thos. Arrayed in his parent's pajos. And cried in dismay: "Oh, what will father say?" He replied: "Not a word. These are mos."

Flo: "You may kiss me on the temple."
 Bo: "And get a bang in the mouth for my pains?"

"O, 'Varsity life it is gay," Says the fusser who fusses away. Then comes the exams. But alas! 'tis too late in the day.

Will exchange a few White Leg-horn hens for Rhode Island Reds. Mrs. Geo. Moore, city. 2lf.
