Hints for the Home
by Nancy Hart

Each year as the home service bureaus of newspapers and magazines expand, we are furnished with better and better information about how to prepare commonplace foods in appetizing ways.

And added to this service we may have the educational booklets of manufacturers who maintain staffs of chefs to invent new ways of using staple foods prepared by them.

Do we make full use of these helps, I wonder? Do we send quickly for the food bulletins offered by home publications—or do we put it off until another day? Do we clip coupons from the leading magazines and add the free recipe books to our own meager store?

Let us not neglect these opportunities to enlarge our cooking program. For the price of a stamp or two we may fill the kitchen files with home-making helps and recipes

OILY and stays OILY!
A STANDARD OIL PRODUCT

that will be of invaluable help in menu planning and preparing meals. And how the family will rejoice! Variety is just as spicy as it ever was, you know.

Chicken Mousse

This is a splendid recipe to use as the main dish for Sunday night tea—when guests are expected:

Dissolve 1/2 package of lemon-flavored gelatin in a cup of boiling chicken broth. When cold, beat with rotary egg beater until consistency of whipped cream. Mix with a cup of diced chicken, a cup diced celery, 1 chopped pimiento, a tablespoon vinegar, 1/2 teaspoon salt, a shake of cayenne. Fold in a half cup whipped cream. Mold and chill until firm. Garnish with lettuce and olives.

Strawberry Sun Preserves

Wash berries before hulling and drain thoroughly. Use equal parts of berries and sugar (beet or cane). Heat slowly to boiling point and boil two minutes. Remove, put in pans or crocks and set in sun until as thick as desired.

Sealing Jellies and Jams

Paraffining is the easiest and best method of protecting jellies and jams. Apply a thin coating of melted wax as soon as jelly is poured; next day add a heavier coat, rolling the glass so the hot wax runs around the edge and makes a perfect seal.

Don't Slip!

When floors are waxed after housecleaning, it's a good time to remember that invisible rug anchors make rugs stay put and prevent many an accident. The anchor

is in reality nothing more than a narrow strip of composition material, cut a trifle shorter than the width of the rug, and attached to either end by a piece of strong webbing stitched to the rug.

Makes Tender Crusts

If the family doesn't like hard crusts—try setting a pan of water in the oven when baking rolls and bread. The steam from the water will keep the crusts deliciously tender and smooth.

When Furniture is Bruised

Wet the bruised spot with water, double brown paper six times, soak it and lay on the spot. Apply hot irons until moisture evaporates.

Prevents Milk from Souring

If you add a tiny pinch of salt to the milk when fresh it will keep much longer.

Speedy on Concrete — Powerful in Mud and Gumbo

You Need this NEW Six-Speed Special Truck

International Harvester has recently announced a brand new kind of truck to meet exactly such a variety of conditions as you often meet in this community. It is a handsome 1-ton truck for general hauling at 35 miles per hour, in town or out.

On top of that it has the special SIX-SPEED feature. That's for mud and gumbo, treacherous side roads, over hills, through holes, soft fields, and bad weather. The man who puts his capacity loads on the Six-Speed Special, and hits hard going, simply slips into the new low range and converts his speed into far more power than was ever available before in a truck of this size.

The New International Six-Speed Special has everything else to match—sturdiness, economy, driver comfort, and looks. Its 4-cylinder engine is famous for low fuel consumption and fast pick-up. Frame and springs are built for heavy duty. Easy steering and riding. Roomy, comfortable, fully-enclosed cab.

Bodies supplied for every type of commercial load. For farm duty there is a new combination body that is proving very popular for grain and stock hauling. Note in this illustration how practical and simple it is.

For the Farm
