#### THE CROP OUTLOOK.

THERE is no doubt but that the I general crop condition of Morrow county has been greatly improved by the cool weather of the past two weeks and more, and then by the showers of rain this week. Reports reaching this office have been to the effect that no matter what happened, rain or no rain, there would be many fields where the yield was bound to be light, while many others were showing up well and would turn out better than an average production. However, the rains and cool weather improved the outlook very materially, and it is thought now by those who have taken the time to look over the situation, that the harvest will be good, and the general yield the county over will exceed many of the so-called good crops, but of course will fall short of last year's production.

According to estimates of Chas

Smith, county agent, the acreage of grain in the county this year is about 85 per cent of that of last season. If the yield should be anybad when the price is taken into consideration and the farmers of this part of the state will have had

improved. Cool weather and frequent showers has had much to do with bettwo weeks or more ago. It is won- facing.

June 14. For within the past year our flag has been carried by brave, adventurous flyers to far corners of the earth. And our flag flies now will be forgotten. But now it is over a domain that is blessed with peace and good will—good will even toward former enemies. The rifts between nations have healed. The flag flies over a happy, contented, RESPONSIBILITY.

our international relations are amicable and grateful for the prosper-ity our country enjoys. Now we are embarked on a great undertaking; negotiations are going on thru Secretary Kellogg that may result in the ultimate outlawry of all war.

As we look up at Our Flag flying over homes and official buildings on Flag Day, as we participate in local celebrations of the event, we should bear in mind that Our Flag has become a symbol of international good will and a harbinger of the message of eventual peace the world over. All honor to Our Flag.

### THE MONTH OF ROSES.

UNE is the month of roses. Roses that gladden the heart, delight the senses. Roses that are the fairest flower of God's creation!

What can be more beautiful than lovely, full-grown rose, exhaling

the very odor of beneficence?

Let us make June truly the month of roses, in more senses than one June ushers in the summer, the glad time of play and healthful occupation, the season of sport and flowers and sun-beauty. By taking full advantage of the opportunities for beautiful living offered by the summer, w can make our lives as joy-giving, as perfect, as a rose! We must not droop and lose color, but remain in full bloom through-

out the summer—alive and glowing, like the flowers in our garden. From time immemorial poets compared their loves to the rose. It has always been the symbol

of whatever is healthy, lovely and of good report.

Let your mind dwell on the per-fection of the rose, and strive for that perfection in your own life.

#### WHY FARMERS NEED THE TARIFF.

more important of the two. Of the My success is a distinct tribute total farm output of the country, so the influence of the up-state state of the sup-state press. A number of my editor

#### FARMER IS INTERESTED.

BECAUSE the ignorant and the spiteful people of Portland voted down a plan to merge the two power companies of that city and thus duce the cost of electric energy, Portland may lose a \$6,000,000 in dustrial plant that wants to locate there, and which would employ 250 The plant may now go to Tacoma because of a cheaper elec-tric current. Tacoma has a municipal plant—the most advantageous-ly located for cheap current of any plant in the world cither privately or publicly owned. In addition, it pays no taxes, The P. E. P. company alone pays out in taxes to Portland and the state of Oregon as much money in taxes as the revenue of the Tacoma plant. of the much needed laws in this state is one that will place all such property on the tax rolls the same as other property. Nobody should be more interested in this kind of legislation than the farmer. If the municipally owned property of Ore-gen were on the tax rolls, it would raise state valuations enormously and thereby lower the amount of taxes levied on farm property. All this property, including property that municipalities and counties have taken over for delinquent taxes, should be immediately placed on the tax rolls, not only that it might bear its just burden of the cost of government, but that it might not e forever a burden on other proprty and other industry with which is now in unfair competition. If to this were added the valuation of churches and lodges in the state, say nothing of the several dollars

### A BAD ROAD,

worth of intangibles, the tax rate

in Oregon would be materially low-

The theory of holding the indivthis policy had been followed in the old days the liquor business might have been held sufficiently in check

## HOSS THANKS PRESS.

Oregon City, Oregon, May 31, 1928.

(To the Editor): Please permit me to express to you, and through you to the republican voters of Morrow county, my deep appreciation for the support accorded me in the recent primary election. My vote in your county was gratifying to me, and I know full well that I should not have found so many friends had it not been for the endorsement of your newspaper. It is an absolute impossibility for a candidate to contact each and every voter personally, and aside from that means only one other so effective And that is newspaper publicity. I had my campaign so planned that where I had newspaper support I depended upon it almost exclusively, although I did make as much of a personal campaign over the state as I could. In Portland, where I THERE are two aspects of the protective tariff that are of particular interest to American farmers. One is its effect in adding to the cost of importing foreign pro-ducts that compete directly with their crops. The other is its influ-second in number of votes for this find their own way." borders; only 15 per cent is export-ed. friends have been so kind as to say that their faith in me and their The domestic market of the United States is the greatest market in the world. The average expenditure of the American family for food and clothing, under which classifications are included practically all farm products, is greater than in any other country. It is larger because the policy of protection to American industry has led to the payment of better wages, and the maintenance of a higher standard maintenance of a higher standard their friends for support. Fortundisturbed by the worst drought in ately for me, a great number of my friends were in the newspaper business and their support was more tile lands turn to deserts, farm

# Dr. Frank Crane Says:

### THE NEW CALENDAR

A TTENTION has been called several times in this column to the efforts being made to have adopted a new calendar having 13 months of 28 days each.

It has been suggested that America have the courage to adopt this standard without waiting for Europe. If it shall be so, if the South American and North American countries unite in their effort to change the calendar it will be another indication that American civilization has definitely broken the bonds still further that heretofore have tied them to the older peoples of Europe.

We have got used to the old system, whatever it is. We acknowledge its drawbacks, but we know what they are. We do not know what difficulties an untried plan would involve.

Most of us are familiar with the proposal. It is to have 13 months of 28 days, exactly 4 weeks in each month, making every week day occur on a fixed monthly date and having every holiday occur on the same week day, making calendars unnecessary, having the date of the week indicate the day of the month, adding an extra day to the year and inserting an extra month, the 13th, as a month called Sol between June and July, and adding an extra day every Leap Year to June.

This seems to be a subject that could well be considered by the League of Nations, but it is now proposed that America lead the way without waiting for world consent.

Mr. Cotsworth says that if conservative Europe could discard the computations of hundreds of years and adopt the metric system of weights and measures it is not too much to expect that advanced and efficient America could discard an antique calendar wholly unadapted to this modern age.

influential than any other group houses are falling into ruins, the could have been. I was nominated last green leaf has disappeared. without doubt as the result of the am not a "newspaper" candidate and there was no collusion between and there was no collusion between the put me over. Neither earth, spilling the oceans, would this continent with a tidal did my former connection as an officer in the editorial association wave a mile high. A change in

did majority accorded me, am deeply appreciative of the confidence shown in me by the electorate of Oregon, and thank you most sincerely for the fine support you gave As secretary of state it will be my objective to give the people of this state a clean, conscientious administration of their affairs, free from politics and showing every courtesy possible.

Very truly yours, HAL E. HOSS, Republican nominee for Secretary of State.
