WHEREVER THERE ARE FLIES USE FLY-TOX

"Something baby ate" — Yes. But tainted by Flies
FLIES crawled over the food. Waded in the milk. Their stenchy feet were filthy dirty. Baby took germs of burning fever in to her little body when she ate the food. She became restless. And then sick!
Flies cause forty thousand deaths in the United States each year. And far too many of them are children.
Use Fly-Tox. Protect little folks. Make your home clean, comfortable, sanitary.

FLY-TOX
Kills FLIES, MOSQUITOES, MOTHS, ROACHES, ANTS, FLEAS

Picking Out A Car
All the selecting of cars isn't done in automobile salesrooms. Along the sidewalks go men with furtive eyes and catlike movements, picking out cars to be taken without price.
They choose, drive away, and leave behind them nothing but an empty parking space.
Before they pick out your car, get a sound, reliable Fire and Theft Insurance Policy from us. It means peace of mind and indemnity against loss.
