YES Dodge Brothers Standard Six is the fastest car, with the fastest pick-up, under a thousand dollars. HOWEVER That is only HALF the story. The IMPORTANT point is that this exceptional speed is made practical by Dodge ruggedness of chassis and body construction. OTHERS Might succeed in building a car at this price with equal SPEED, but to do so successfully they would also have to build a car with equal STURDINESS. AND That is where Dodge Brothers, with years of experience in building a dependable low-cost product, are years ahead of the field. YOU Can buy the Standard Six knowing that it is not only the fastest car in its class but the sturdiest—and the one is every bit as important as the other. \$875 COUPE F.O.B.
