

HEPPNER HOSPITAL NOTES.

Born, to Mr. and Mrs. W. H. I. Padberg, June 29, a son. Eliza Zink, son of A. M. Zink of Ione, was the victim of an accident on July 1st, when he shot himself in the thigh with a highpowered airgun. The x-ray located the BB shot which was removed by an operation.

Born, on June 26th, to Mr. and Mrs. Harlan F. Jones of near Lexington, a 10-pound son.

Dr. and Mrs. A. D. McMurdo and son Ted, and Mrs. Walter Moore and children returned home Tuesday from Tacoma, where they went the early part of last week. Dr. McMurdo visited the Sound city to attend the meeting of the Pacific Northwest Medical association held there three days, and which he pronounced as one of the finest medical meetings it has been his privilege to attend for many years. Business conditions in the cities of Tacoma and Seattle are very good and lots of work is going on. Going over, the party went via Snoqualmie pass and Dr. McMurdo would not recommend this trip to tourists at this time, owing to the construction work on the west side, and just now oiling is going on between Yakima and Ellensburg, and the necessary detours caused by this work are very rough all tending to take much of the pleasure out of the trip. While at Tacoma Dr. McMurdo completed the purchase of the new Airman Franklin he has been driving for some weeks.

Born, on July 5th, at their home in this city, to Mr. and Mrs. Robert L. Griggs, a daughter.

MORROW GENERAL HOSPITAL.

Jimmy Valentine, son of Mr. and Mrs. C. W. Valentine, who was quite seriously injured on Saturday when kicked in the face by a horse, was sufficiently improved to be removed to his home near Lexington Tuesday. An x-ray examination of his injuries revealed a fracture near the base of the skull which fortunately was not fatal. He was unconscious for 15 minutes following the injury. Deloris Crowell, daughter of Mr. and Mrs. A. C. Crowell, underwent a minor operation Saturday for an infected finger.

K. Hutchcroft received a cut arm and bruises in an auto accident on Monday when his car overturned near Morgan. The car was badly wrecked, but fortunately his injuries were not serious.

Mr. and Mrs. Ed Bergstrom are being congratulated upon the arrival of an 8-pound boy Monday. Both mother and baby are doing nicely. Supream Marcel who was injured in a sawmill accident recently, has returned to his home.

Mrs. Ralph Scott was ill last week with ptomaine poisoning but is now fully recovered.

MORE CALIFORNIA TOURISTS.

A survey recently completed by the Oregon State Motor association shows that the tourist stream from California is actually increasing in spite of the late season and the recent financial crash in the southern state.

The survey shows that the Pacific highway, the Dalles-California highway, and the Roosevelt highway all show a gain of north-bound California traffic.

The Dalles-California highway shows the greatest increase of California traffic, a gain of 72 1/2% for the first two weeks in June, 1928, over the same period last year. The Roosevelt highway showed a gain of 25% over last year, while the entire state showed an increase of 8.8% of California traffic over a similar period in 1927.

G. R. Hyslop, head of the farm crops department at O. A. C., spent

Tuesday and Wednesday here, and in company with County Agent C. W. Smith, inspected many fields of the county, certifying seed wheat. The gentlemen got pretty well over the county during the visit of Mr. Hyslop and they report much good grain inspected.

Mr. and Mrs. M. L. Case departed by auto on Friday, expecting to go to Seattle where they will remain for a time, awaiting the passing of the heated term here, as well as enjoying an outing. The trip was taken at this time on account of Mrs. Case, whose health has not been good in recent weeks.

Work of putting on the second coating of oil on the O-W highway between the junction and Ione, is now under way by the highway department, and it is but a matter of a week or so until the job will be completed. In the meantime it may be necessary to detour a little to keep off the fresh oil.

Judge and Mrs. R. L. Benge and their son Terrel arrived home from Portland on Tuesday evening. Mrs. Benge had been with her son in Portland for a few weeks while he was receiving treatment at the hospital there for an injured hip. The young man returns much improved.

Several very warm days at Heppner this week, the thermometer getting up around the 100 mark. Today it is cloudy, and the heat has been somewhat dispelled by the cool west wind—always a welcome visitor here this season of the year.

Harold and Henry Cohn motored to Portland on Sunday to spend a few days in the city looking after business affairs. They were accompanied by Rev. Brady, pastor of the local Catholic church.

THINKING OUT LOUD

By SAMALMAN
Three bands at the convention were playing different airs all at once, and many who accidentally tuned in to the convention on their radio thought they were having a program of modern jazz music!

The little fights that sprang up here and there at the big Democratic conclave made one think that those who didn't get on the band wagon would be put in the patrol wagon!

Add similes: As easy as calling a national political convention to order.

"Inspiration is nine tenths perspiration," says an old adage. We didn't know "inspiration" would play such a large part in the convention.

Many speakers wondered whether those long drawn out demonstrations were outbursts of enthusiasm or just part of a secret plot to keep them from continuing too soon!

Both Hoover and Smith have one great essential for the presidency. Each of them likes to go fishing.

With all the June brides that are going home to mother, the railroads are having more business than they can handle!

During the month of June the farmers of the country got a lot of promises, and some real substantial rain!

Charles M. Schwab says business has no reason to fear either of the parties. It seems to us the important thing is whether either of the parties has any reason to fear business!

HARDMAN.

Mr. and Mrs. Ed McDaniel of Lake View, Idaho, were visitors at the home of B. H. Bleakman last week.

Mr. and Mrs. Carey Hastings recently purchased a home from B. F. Devore and took possession this week.

O. E. Johnson and wife came to Heppner to live, while he is working on the road.

Miss Zetta Bleakman was a visitor at the mountain home of R. H. Steers this week.

A number of relatives gathered at the home of B. H. Bleakman on Saturday and a wonderful dinner was served in honor of Mr. and Mrs. Ed McDaniel who were visitors here from Lake View, Idaho. There were thirty-three relatives present, and a very good time was enjoyed by all. The guests left shortly after dinner for their home.

Bert Bleakman and family, Wess Stevens and family, Rho Bleakman and Elmer Musgrave returned on Tuesday from a trip to Logan Valley. They visited at Blue Mountain Springs and a number of other places. They reported a good time and lots of good fish to eat.

Francis Leathers spent a few days with her mother at Ione this week.

Mr. and Mrs. E. H. McDaniel were in town on Saturday taking orders for early squash and cucumbers.

Jim Miller has returned from the Elmer Musgrave place where he was chore boy during Elmer's absence.

Mr. and Mrs. Claire Ashbaugh moved to the road camp where he is working.

Ray Simpson and family, brother of Mrs. E. J. Merrill, are visiting here from Indiana. They expect to return the last of the week.

L. E. Knighten has purchased a new combine from Gilliam & Bisbee. He expects to take care of grain crops around Heppner.

Alfred Kistler spent several days at Ukiah. He reports a very nice time.

Neal Knighten started combining for B. H. Bleakman on Tuesday.

Kinnard McDaniel was a visitor here Sunday from Lone Rock.

Elsa M. Leathers visited at the home of Mrs. Carl Leathers this week.

Wayne Baird has a new Star car.

Forty Years of Work in Seven
Forty years of unremitting toil, of tireless research, careful management and bold enterprise had gone into the building of the electric light and power industry up to the end of 1921.
Before 1928 is ended, the total amount of electrical energy generated will be more than double that produced in 1921.
By the end of 1928, the electric light and power companies of this country will be serving nine million additional homes—almost as many as the total of those which enjoyed electrical service in 1921—and industry's consumption of power will have been increased by twenty-four billion kilowatt hours.
This remarkable record of achievement has been made possible through the application of the principle that first brought electricity from the skies, built the first motor and invented the incandescent lamp—the principle of individual enterprise.

In spite of an unparalleled program of expansion, and although all costs—labor, fuel, materials—have increased, electrical service is still the smallest item in the family budget, averaging less than one per cent of the family expenditure.
