Official Paper for Morrow County. Foreign Advertising Representative AMERICAN PRESS ASSOCIATION

\$5,000,000 WISELY USED.

JOHN D. ROCKEFELLER, JR. is restoring the old town of Williamsburg, Va. He has donated five million dollars for this purpose. The wisdom and graciousness of this donation should be shouted from the roof-tops! Thing of it! One man giving five millions of dollars for the common cause of beauty. Rockefeller is saving beauty from decay and is perpetuating historical monuments. He is doing something fine and noble for the Soul of America.

The old Colonial houses of Williamsburg, Va., with their wide chimneys and fan-windowed doors, were rapidly going to ruin. Ugliness was born of the war munitions era.

Now the city, which was once the seat of American government, is to be reproduced just as it was a hundred years ago. The buildings of historic William and Mary College are to be restored. The old Capital building will be rebuilt. Even the pavements and street lamps will be made to look as they did in the old days.

When the renovations are completed in the town, it will be the mecca of all interested in American history. It will be possible to see the actual places where immortal words were said and where immortal documents were signed. The gratitude of all Americans is due Mr. Rockefeller for his inspiring and public-spirited gift.

"SUPPOSE IT WERE YOURS."

SUPPOSE you had a piece of property upon which you were dependent for your living, and it was necessary to have other people around to whom you paid salaries and wages to help you run the place. What would you say if some of those people persisted in doing things which kept you on the jump all the time to keep the place from burning up? Suppose you heard one of them say, when asked why he was not more careful about where he tossed his cigarette butt, "Why should I care, it isn't my mill." Frankly now, what would you say?

After all, isn't that practically what we reply when we are persistently careless not only with fire but with other things, too? There are hundreds of ways in which we can prevent fires. We can be careful with matches and with cigarette butts. The largest single cause of fires in this country is cigarettes. In 1926 fire losses of \$30,000,000 were caused by this one thing alone.

Before you throw away that match or cigarette be sure it is out. Before you throw away your lunch papers look for the rubbish can. Do unto others as you would like others to do unto you. This is one of the best rules of life ever presented to man. In your habits, is it too much to ask you to SUPPOSE IT WERE YOURS?—From Safeguarding America Against Fire.

FREE TRADE WORKS BOTH WAYS.

THE belief that the farmer would be able to purchase manufactured goods at a low price if the tariff bars were let down is largely mythical. A large proportion of his im-

portant equipment is duty free, and has been. There are unquestionably other articles that cost him a little more because of duty imposed on them for the protection of competing American manufacturers. If free trade were to be established the farmer could buy these at a lower price. This is obvious.

What may not be so obvious is that at the same time the quantity of his own produce that could be sold to American consumers would be greatly cut, and the price decreased to equalize competition from foreign producers, who have the advantage of cheap labor. Free trade works both ways.

In other words, the farmer would be losing dollars to save a few cents. The tariff has grown steadily in importance. It is more necessary now than it has ever been because of varying world conditions, and the widening discrepancy between the standard of living and wages paid here and elsewhere. Its greatest benefits come to the farmer and the industrial worker. It is to their interest that it be maintained.

Cheerful John Moody An Inter-Language Wanted A Man of 104 Why Men Farm

John Moody studies and thinks, and predicts five more years at least, of rising values and prosperity. "The old breeders of financial friendly men were placed for special security in the inner prison, and that they might not escape in any possible manner their feet were fastened between two boards grooved enough to hold their ankles.

PAUL IN A ROMAN PRISON

Acts 16:16-40. Rev. Samuel D. Price, D. D., Associate General Secretary of the World's Sunday School Association. Trouble followed success at Philippi. As Paul went daily to his place for teaching, a girl, indwelt with an evil spirit, was met. The demon within cried out against Paul as he passed by. A general study of the Bible, both in the Old and New Testament, indicates that the evil spirits are always especially aggressive when they find their sway in the lives of men as assailed as believers are added to the Kingdom.

But this girl thereby ceased to be of use to the syndicate that owned her, for they made gain through the devilment of the evil spirit that had possessed her. In some way her outcries had been used in a species of divination akin to modern fortune telling. These men, who cared nothing for humanity but only for personal monetary interests, laid forcible hands on Paul and Barnabas, dragged them before the magistrates, who were influenced, probably with a bribe, to agree with the complainants, who demanded that these strangers be imprisoned because they had stopped their questionable income.

panic that brought on the crises of 1893, 1903 and 1907 have disappeared. We are living in a new kind of America with a new kind of prosperity. "America's world of today is not the world of twenty years ago," says Moody.

If you were feeling gloomy, cheer up. If many are prosperous, NOT all. Barney Deboka, having vainly hunted a job, stood at a restaurant window, watching a woman turning butter cakes. He fell in a faint and doctors are treating him for starvation.

Great is the power of civilization, training a man so well that he stands watching food until he drops of hunger rather than steal. Man is a teachable animal. Delegations of college men from different parts of the United States will record their voices on talking machines that scientists may study "American dialects."

The main thing is that all of them are understood from New York to San Francisco. In Europe, traveling 3,000 miles from Oslo to the southeast, you would hear Norwegian, Swedish, Danish, German, Czech-Slovakian, Hungarian, Rumanian, Bulgarian, Turkish, Greek, and, in Egypt, Arabic, twelve different languages in a 3,000 mile trip, and not hear one-half the languages that Europe speaks.

Europe feels the need of an "inter-language." The sensible thing would be to make that language English, that all waiters and clerks need, and nearly all educated Europeans know.

National pride prevents that. So why not use Latin, once the universal learned language, making it possible for Erasmus to speak to Henry the Eighth; for all learned men in Europe to talk to each other through their books? Nothing could be more hideous than a made-to-order language.

Russia names a dictator, with absolute power over crops, their production and distribution. Our farmers will watch that experiment for the benefit of producer and consumer, but will not want any crop dictator here.

The thing that reconciles a farmer to his lot is the fact that he is his own boss. Tell him that others must decide what he shall plant, what price he shall ask, and he will join the crowd to the cities.

Men do not farm merely for profit. They farm because land ownership and management, plus independence, give them intense pleasure. If profit were the only inducement, there would be no farmers.

An old gentleman, aged 104, arrived from Lithuania to see this country. He said he didn't believe in "spending all your life in one place," so he only lived 104 years in Lithuania. He danced a jig for reporters, said he had given up tobacco eight years ago, but "never found that liquor ever hurt anybody."

He will change his mind if he tries certain brands on sale in this country. Many a rural community has been moaned lack of farm home conveniences, such as a pressure water supply, but now some of these are solving their own problems by a community effort. The farmers of Knappa community in Clatsop county, for instance, have recently completed a cooperative water system after incorporation as a community organization.

Dr. Frank Crane Says:

IMPULSES

Miss Jackson, after eleven years' experience at San Quentin State Prison, declares that women criminals are the victims of uncontrolled impulse rather than of a physiological leaning toward crime.

"There is no criminal type among women prisoners," she says. "Crime among women generally follows an uncontrolled impulse in which women leave the usual path of life and make a detour into crime without thought of the results that follow."

It appears from this that self control in all emergencies is the virtue most needed. The writer was once a prison official and frequently visited the State Prisons of Illinois. He was surprised to find that the class of convicts that gave the least trouble was the murderers. The reason is that murders are usually committed on a sudden impulse and a man need not be a hardened criminal to be guilty of this crime.

Of course there are some people who are simply lacking in moral sense. Their whole tone of morals is low and all they need to commit a crime is the opportunity. But all of us are potential criminals when it comes to impulse, a sudden surging of passion or some overwhelming desire.

Parents should learn from this that the most necessary lesson to teach children is self control. Children do not need so much to be taught obedience as to be taught how to obey their own better selves.

Any one who finds his passion too strong for him and who loses his sense of restraint when under the influence of them is in danger of committing any crime. Self discipline may be very hard; to people of strong emotions it is sure to be hard. But it is none the less essential.

Most lawsuits would be avoided if people would control them selves and could learn to be good sports and take their losses without yielding to a desire for vengeance.

NOTICE OF FINAL ACCOUNT. Notice is hereby given that the undersigned, Administrator of the Estate of Andrew Rood, Jr., deceased, has filed his final account with the County Clerk of the State of Oregon for Morrow County, and that said Court has set as the time and place for settlement of said account Saturday, September 29, 1928, at 10 o'clock A. M. in the Court room of said Court in Heppner, Oregon.

NOTICE FOR PUBLICATION. DEPARTMENT OF THE INTERIOR, U. S. Land Office at The Dalles, Oregon, August 2, 1928. NOTICE is hereby given that R. D. Volle, one of the heirs and for the heirs of Frederick W. Volle, of Heppner, Oregon, who on May 26, 1924, made home-stead entry, act June 6, 1912, No. 024638, for NW 1/4, SE 1/4, S 1/2, Section 12, Township 5 S., Range 27 E., Willamette Meridian, has filed notice of intention to make five year Proof to establish claim to the land above described, before Gay M. Anderson, United States Commissioner, at Heppner, Oregon, on September 24, 1928.

NOTICE IS HEREBY GIVEN that the undersigned, Administrator of the Estate of Clara E. Cox, Clerk of School District No. 1, Morrow County, Oregon, up until 10 o'clock A. M. Tuesday, August 28th, 1928, for the furnishing of fuel to said District as follows: 1. For 100 tons (one hundred tons) of Utah Lump Coal, delivered on the school grounds. 2. For 8 cords of fine saw wood, four feet in length to be delivered on the school grounds.

Farm Water Supply Is Made Community Effort

Many a rural community has been moaned lack of farm home conveniences, such as a pressure water supply, but now some of these are solving their own problems by a community effort. The farmers of Knappa community in Clatsop county, for instance, have recently completed a cooperative water system after incorporation as a community organization. This system installed partly thru the assistance in organization and planning afforded by County Agent E. W. McMinnis and is constructed with capacity to furnish domestic supply for 20 families. As opportunity presents itself it is the policy of Oregon county agents to turn aside from the routine duties of rodent and pest control, marketing and production problems, to aid with such things as water supply systems and sewage disposal systems for making farm life more pleasant.
