Seymour Wilson of Huntington Beach, Calif., who has been spending some weeks at Ione, looking after his ranch interests in this county, was a visitor in Heppner Tuesday. The Wilson ranch below Ione on Willow creek has been operated for a number of years by Ellis Minor, who has for the past two years been milking a large number of cows in conjunction with his other interests, and has succeeded quite well. Mr. Minor is now moving to Hermiston, where he has leased one of the Stanfield ranches, and contemplates going into the dairy-business more extensively than heretofore. He is moving there with his family this week. The Wilson ranch at Ione has been leased by Harlan McCurdy, who will operate it in the future. He is engaged in the sheep business with his father-in-law, Lew Davidson, and the Wilson place will prove ideal as a point to carry on lambing in the early spring. It produces a lot of hay and has plenty of range. Mr. Wilson will soon return to his home at Huntington Beach.

Collman of Portland was in this city last week looking after the practice of Dr. Conder while he and Mrs. Conder were at Eugene making arrangements for the entrance of the boys at the university this fall. ## For Income-Producing Property

When income-producing property is damaged or destroyed by fire, there is two-fold injury. There is the actual property-damage, and there is the impairment of income.

There is now an auxiliary form of fire insurance for such properties, called Use-and-Occupancy Insurance—supplementing the usual Fire Insurance.

This indemnifies the property-holder for loss of prospective profits, and for the payment of fixed charges, while the property is non-productive.

Let us explain it to you in detail.
