Miller read the funeral service and a male quartet composed of Mrs. Johnson, Mrs. Barlow, Mrs. Calkins and Mrs. Ayers sang, with Mrs. Lee Mead at the piano. Amid a profusion of beautiful autumn flowers his body was laid to rest in the Boardman cemetery.

Are Your Cows Earning \$14 or \$100 Profit?

Yearly records from more than 100,000 individual cows on official test proved that the average producer of 100 pounds of butterfat a year returns only \$14.00 gross profit over the cost of feed, or less than 4c per day. Those producing 300 pounds netted \$96; 400, \$138; and 500 pounds, \$178 or nearly 50c per day.

At the Pacific International Livestock Exposition held in Portland, Oregon, (this year November 3-10) is presented an opportunity for every farmer to see and study dairy animals that produce 10,000, 20,000 and 30,000 pounds of milk per annum; also to obtain information how these results are achieved. Here also are exhibits of the finest pure bred Beef Cattle, Horses, Sheep, Hogs, Goats and Foxes for which premiums totaling \$100,000.00 are awarded.

The inspiration of this great farm classic, together with the knowledge and information provided are not surpassed elsewhere. The First National Bank feels that all farmers in this section who attend will benefit materially.
