#### 600 AT LEXINGTON HONOR PIONEERS

he did not consider himselw a pion eer of this particular part of the eer of this particular part of the representative again I shall constate, he had lived in Oregon when sider it a great honor and I will be a much younger man than he is glad to serve the district to the best now, and got part of his education of my ability and for the pay speci-Oregon schools. He could tell of conditions, however, that bordered on those of the pioneer, as his work as former superintendent of schools of this county was done under cir-

ture than exist at the present time.

A special program of music, recitations, pantomime, etc., had been prepared under the direction of Mrs Karl Miller, and special work had been done in preparing a min-strel stunt that was delivered in good shape for the evening's enter-tainment. The auditorium of the high school building was filled to overflowing for the two hours of splendid entertainment, and then following this was the old-time dance at Leach hall, participated in by all that felt the urge to trip the light fantastic toe. It is remarked that some of the old timers showed that they had not forgotten what they had learned in younger days, and were able to perform the quadrilles and other dances of the early days in a manner quite satisfactory to themselves. Much fun was creat-ed at this old-time party and all noroughly enjoyed themselves. We are sure that no one fortun-

ate enough to be present at Lexing-ton Friday regretted the time spent. Everyone expressed keen apprecia-tion of their splendid entertainment and it was a day always to be re-membered. We give herewith the list of those registered, who were residents of Morrow county prior to

#### JOINT REPRESENTATIVE.

Among the offices to be filled at the coming election on November 6 is that of joint representative in the Oregon legislature for Umatilla and Morrow counties.

Joseph N. Scott of Pendleton, who was elected to this position two years ago, is a candidate for reelec-tion. Joe Scott is well known in the district as a native of Umatilla county, an extensive farmer and heavy taxpayer on wheat lands lo-cated in both Umatilla and Morrow counties, also owning residence property in Pendleton. During the 1927 session Mr. Scott introduced but two bills, both by request. One of these passed both houses unanimously and was signed by the governor. This law provides that in counties where there are no local road districts, signatures to peti-tions and remonstrances for road improvements shall be restricted to freeholders residing in the local road districts as they last existed Mr. Scott says: "There were over one thousand separate bills and resolutions introduced and disposed of in the 1927 session of the Oregon legislature, the record of which fills segmentature, the record of which fills several good-sized books and is a matter of public record. A complete and detailed review of the same is impossible in the limits of a newspaper article. I will say in a general way that I took my office regrouply and devoted the time during the same of seriously and devoted the time dur ing the forty-seven days of the ses sion to hard and serious study of the mass of legislation offered and especially the matters referred to the committees of which I was a the committees of which I was a member. I was a member of four committees as follows: Agriculture, Assessment and Taxation, Health

and Public Morals, and Mining.
"I worked among my fellow members with the best of feeling prevail-ing at all times nad was treated by both the speaker of the house and

the governor with every courtesy and consideration. "If the voters of Umatilla and Morrow counties elect me as their now, and got part of his education and limited and preparation for teaching in the to \$3.00 per day or not to exceed \$120 for any one session with mile-age in addition. I served for this compensation in the 1927 session although the legislature appropriated to its members \$5 per day additioncumstances more of a pioneer na-different forty-seven days it ture than exist at the present time, was in session. Four members did not accept the extra amount."

A large crowd from this commun-ity attended the dance on Saturday evening which was given by Mr. and Mrs. Henry Rauch.

Now is Time to Clean Your Field of Gophers

In the furtherance of the county agent's extension program in Mor-row county, Rooy Fugate, junior biologist of the biological survey, spent two days in the county company with Charles W. Smith, demonstrating methods of poison-ing gophers. The months of Octoand November are by far the most favorable months for poison ing pocket gophers as they are leading a solitary life at this time of year and one bait placed in a run way will usually be enough to do the work, says Mr. Smith. Each year in Morrow county the stand of alfalfa in many of the fields is cut down by gophers, a large amount of time is lost in stopping up the holes along the irrigation ditches in the spring, and a large amount of the limited supply of water available is

The poisoning of gophers is a very simple matter and takes only a short time to cover several acres of ground. The most effective method is to dust strychnine sulphate which can be secured at the county agent's office without cost, on some cubes of freshly cut carrots and place in the run way. The run way is found with a probe and the bait dropped in, the hole is then cover-ed with a clod or grass and enough dirt placed on the top to shut out light. If this was not done the gopher will plug the hole and the bait will not be found.

If you have gophers and never had a demonstration on your farm, you may get one at any time after November 15 by making inquiry to

Mr. Smith. Gophers can be poisoned in the spring but at that time there are usually two or more gophers occupying one run way and one may eat all the bait as it acts very slowand at that time also, one will have to kill the increase. Then, too the gophers will destroy many al-falfa plants during the winter by cutting them off a few inches be
