BOARDMAN

The home talent play being put on by the Cemetery association will be given Saturday, February 9, the proceeds to go toward paying off a little indebtedness. "The Awful Aunt" is the title of a two-act com-edy and "Able Eats," a short comedy skit, together with some special music will make up an evening of clean entertainment. All that can should come and help the good cause. Admission 35c and 15c.

It is planned to give the play "Our Awful Aunt," Saturday, Feb ruary 9. This is the play to be giv en for the benefit of the Cemetery association and was to have been given Saturday, Feb. 2, but was postponed because of the severe

The P. T. A. is sponsoring a dance to be given Saturday night, Feb. 16. Mrs. Richard Dingmon is quite II. She has not been well for months and the doctor at Pendleton called her trouble neuritis. Mrs. A.

A. Agee has been assisting in car-ing for her. The small daughter who was born to Mr. and Mrs. Guy Barlow Jan-uary 27 at The Dalles, has been named Chioe Novella.

The Boardman basketball players were couageous enough to brave the elements and journey to Con-don Friday, where they met the Condon team and also met defeat. Although it was a snowy trip and the boys lost the game, they enjoy-ed the trip. The score was 13-16. They all stayed overnight. W. O. King, coach took his car and J. C. Ballenger took a load. Boys going were Alvin Mefford, Dallas Wilson, Vernon Root, Buster Rands, Walter

Denson and Carl Wicklander. Rachel Johnson and Ray Barlow both of whom are attending business schools in Portland, were ill with septic sore throats. At first diphtheria was feared but throat cultures showed it to be septic sore throat. Both are getting along

A great many Boardman people motored to Irrigon Saturday night and attended the dance for the ben-

efit of the Irrigon band.

Chas. Dillon suffered from a sore throat last week that incapacitated

him for a few days. Because of the inclement weather no church services were held Sun-

day night. Miss Mabel Chapman, who is staying at the Highway inn during Mrs. Shell's absence, was unable to go to her home in Hood River as usual Friday night because of the stages not running. On Friday evening she was a dinner guest at the Davis home and on Sunday she was a guest at the Chas. Goodwin home. Zoe Hadley and Beth Bleakman

were Boardman visitors Sunday. Mr. and Mrs. Tom Hendricks went to Salem Saturday where they attended the meeting of the Camp

Ground proprietors. Ice was jammed in the river Sunday, backing the water up for some distance. The jam extended from Castle Rock up as far as Rands. Boardman and Heppner will meet here Friday night at 7:30. Raymond Shane was sick for a few days last week and pneumonia

few days last week and pneumonia lew days last week and pheumonia was feared but he has recovered. A letter to H. H. Weston from Homer Cason of Portland stated that he was just up and about after

a siege of flu that lasted a month. Schoolmates were all pleased to welcome Richard Berger back to school Monday after months of absence. He is on crutches but he will be as strong as before when he is able to discard them. Richard suffered a broken hip bone last No-

A. T. Hereim is making a splendid recovery after several weeks of illness with flu.

A reminiscence of H H Wester will prove interesting to Boardman folks. It was just 17 years ago Sunday, February 3, that Mr. Weston took the train to The Dalles to act as witness for S. H. Boardman who made the final proof for his homestead here. The town of Boardman is located on part of the original homestead. When Mr. Weston left here that day it was warm and balmy, the grass was green and the early desert flowers were blooming. On reaching The Dalles he found four feet of snow. Mr. Boardman, who was then employed as civil engineer for the Tillamook railroad, returned to his work after making

Mrs. W. H. Mefford, who is taking a series of treatments from Dr. Rowe at Hermiston, makes the trip every other day. At first she stayed there for a week taking treatments

Pineapple Waldorf Salad Pare, quarter and core 3 apples and cut into tiny cubes. Add 1 cup drained crushed pineapple, 1-2 cup chopped walnuts and 1-2 cup chopped celery. Mix with thick mayon naise and serve on lettuce.

Baked Date Pudding 1 cup sugar, 3 eggs beaten light, 1 tablespoon flour, 1 teaspoon baking powder, 1 cup chopped nuts, 1 cup chopped dates, 1-2 cup cracker crumbs. Bake in moderate oven. Serve with whipped cream.

Prevents Rust on Tinware Before using new tinware, rub well with lard and stand it in a hot oven until thoroughly heated. This will prevent rust in future use.

"What are you children all dress ing up for this morning?" asked Mrs. Rabbit, when she peeked into the children's room .
"Why, Mother dear, this is Lin-

birthday. Have you forgot-I am surprised!" answered birthday. "Excuse me," said Mrs. Rabbit.

"You see, I have so many things to think about that I forget, while you children have only your school."

The bell in the Rabbitville school house was still ringing as the bun-nies scampered out of the house all dressed up in their Sunday-go-to-meeting clothes. On the way they

out the juice. Cook over a not fire, turning frequently, searing both sides. Place on a hot platter, salt and pepper to taste, spread top with butter and serve at once. Heppner Garage Phone 213

There are many reasons for the ease of steering the new Ford

THE new Ford is exceptionally easy to steer because of the well - proportioned weight of the car, the steelspoke wheels, the co-ordinated design of springs and shock absorbers, the size and design of the steering wheel, and the simple mechanical construction of the steering gear.

The Ford steering gear is of the worm and sector type used on high-priced cars and is three-quarter irreversible.

In simple, non-technical language, this means that the car responds easily and quickly to the steering wheel, yet there is no danger of the wheel being jerked from the hands of the driver by ruts or bumps in the road. A light touch guides the car, yet you always have that necessary feel-of-the-road so essential to good driving.

Strength of materials and careful workmanship give unusual stability to the Ford steering gear and housing.

The steering worm, for instance, is splined to the steering worm shaft and is stronger, of course, than if a single key were used to hold

the shaft and worm together. The steering worm sector is forged and machined in the same piece with its shaft.

The housing of the steering gear mechanism is made of three steel forgings, electrically welded together. This housing is then electrically welded to the steering column. Such a one-piece steel unit is naturally much sturdier than if several parts were used and bolted or riveted together.

Throughout, the new Ford steering mechanism is so simple in design and so carefully made that it requires practically no attention.

The only thing for you to do is to have the front steering spindles, spindle connecting rods, and drag link lubricated every 500 miles and the steering gear lubricated every 2000 miles.

For this work, you will find it best to consult the Ford dealer. He has been specially trained and equipped to help you get the greatest possible use from your car over the long-

est period of time at a minimum of trouble and expense.

The Fair Store Clearance Sale

Commencing Friday, Feb. 8, Will Last the Entire Month of February

The Fair Store changed its location, moved into the store room formerly occupied by the Phelps Grocery Co. The new location will offer more convenient space to display the goods. The Fair Store also succeeded in purchasing the entire stock of dry goods, shoes, clothing, from Mr. Prophet, value of about \$25,000 for about 33% on the dollar. We will offer to the people the advantage of our purchases with a sensational reduction of prices on our and W. P. Prophet's stock.
