

**BOARDMAN**

Paul M. Smith who has been here on business has leased his ranch to Z. J. Gillespie. Mr. and Mrs. Wm. Strobel and family have moved from the Smith place to Al Macomber house in town for a time.

The P. T. A. Valentine dance given Friday night was a most delightful occasion. A large crowd was present and enjoyed the old fashioned dances as well as the modern. The home orchestra played. This is composed of Victor Hango, Leslie Packard, Nate Macomber, Miss Henry, and Eldon Wilson. Serpentine and paper caps were added features of the evening.

A pleasant "no host" dinner was that enjoyed Sunday at the Chas. Wicklander home where the Meads, Rands, Dillaboughs and Geo. Wicklanders all spent the day there, each bringing a portion of what made a delicious dinner.

Alfred Skobo visited Hermiston Sunday.

Mrs. F. A. Fortier was hostess last Wednesday to the Home Economics club, a social club auxiliary to the Grange. After a delicious luncheon the afternoon was spent in visiting. A short business meeting was held. Invited guests were Mesdames Porter, Blayden and Gorham.

The tale of frozen water pipes is the gist of woe of all Boardman citizens for some time. One of the most thrilling of these tales was that told by Jess Mathis who lives in the small house purchased from Mrs. F. A. Fortier. He left the water running a bit to keep it from freezing. This was quite effective, but the sink drain froze up and when the Mathis family awakened they found the kitchen a fine skating pond.

Lois Messenger entertained at a Valentine party Saturday night. All the guests had a merry time and after a number of games partook of the bounteous lunch served by Mrs. Messenger.

Mr. and Mrs. Bert Richardson and family were guests Sunday at the W. H. Mefford home. Mr. and Mrs. Root and son and Mr. and Mrs. Ed Earlow were also guests. Mr. Richardson, who was so seriously ill for months is much improved and able to be up and about daily, but is unable to do any work.

Mrs. W. H. Mefford continues to go to Hermiston every other day continuing her course of treatments with the chiropractor.

**HARDMAN.**

Mr. and Mrs. Sam McDaniel have returned from Lone Rock where they have made their home for several months.

A number of parents enjoyed the valentine box at school with the children.

R. H. Steers and son Gus went to Lone Rock on Saturday where they will work in lambing.

The weather has been some warmer in this vicinity during the past week.

John Kelly has made several trips out here this last week looking after business interests.

J. B. Adams and son Harlan and Victor Johnson who are working on Rhea creek, spent Friday evening here.

Kinnard McDaniel and Mr. and Mrs. Sam McDaniel, Jr., spent the week end with relatives and friends. They made the trip from Lone Rock in a sleigh.

The girls of the Division 2 sewing club were charmingly entertained with a valentine party at the school house by the boys of the woodwork club. The evening was spent very happily with games. After the refreshments were served each girl was presented with a gift of the boys' own making, beautiful enameled chairs and tables.

Mrs. Maude Howell and daughter Gladys returned to Heppner on Saturday.

Lotus Robison was in Heppner on Friday.

Mr. and Mrs. Gerald Booher and Mary Saling visited with home folks on Friday.

Edwood Hastings returned to his home last week after being in Heppner for several days having some dental work done.

A new furnace is being installed in the Union high school building by the Peoples Hardware company, from whom it was purchased.

**Vaccine is Protection  
Against Tick Fever**

Persons residing in the Northwest often ask if the tick found in their locality is the same as the spotted fever tick, and if so why they do not have spotted fever. The dermator venustus is probably found throughout the state of Oregon. The infected tick however, is limited to certain valleys in eastern Oregon. In order to cause Rocky Mountain Spotted Fever it must carry the germs of this disease. The tick takes two years to complete its life cycle. The adult ticks, male and female, are found from March until early July. Ticks are normally parasites of wild animals. They have become parasites of domestic animals and of man because man has gone into localities where they are present.

Ten years ago there was practically no way of protecting man from the bite of the infected tick. The United States Public Health Service at its laboratory in Hamilton, Montana, has developed a vaccine which gives protection against Rocky Mountain Spotted Fever.

This vaccine will be available to every physician in the state of Oregon after February 15th. The request should be made to "The Officer in Charge, U. S. Public Health Service, Hamilton, Montana."

The request should state the number of persons for whom the vaccine is desired and will be filled in order of receipt. Each lot of vaccine sent out will be accompanied by full directions for administration and by cards to be filled out

with the necessary data for each person vaccinated. The cards should be returned to the station furnishing the vaccine.

The vaccine should be kept in a cool place but not allowed to freeze. It is given hypodermically.

The vaccine is of no value in treatment and should be given ten days before exposure. It will protect for one season and persons living in infected districts should be revaccinated annually. Each year's vaccination increases the immunity. Since this vaccine is provided free, it is expected that no charge shall be made for material. The vaccine is distributed by the United States Public Health Service to physicians only.

**ST. PATRICK'S CHURCH.**

Rev. Thomas J. Brady, Pastor.

The holy season of Lent has entered its second week of warning and appeal to the souls of all Christians for it is the acceptable time, the time of salvation. Lent lasts forty days, excluding Sundays, in honor of the fast of forty days and nights of Christ in the desert. Lent should lead the Christian soul to do penance for his sins, which must be something terrible since their atonement required the death of the Son of God. Jesus Christ in the words of the Prophet says to all: "All ye who pass by, stop and see if there is any sorrow like unto My sorrow."

In St. Patrick's church next Sunday, February 24th, there will be mass at 8:30, with confessions and Holy Communion. A second mass will be said in Iona at the home of Mr. and Mrs. J. P. O'Meara at 10:30. The pastor will also preach upon "Scandal." In the evening at 7:30 in Heppner will take place rosary, prayer, litany, devotions in honor of St. Vianney, during five minutes.

closing with Benediction of the Blessed Sacrament. On Wednesdays, Fridays and Saturdays, throughout Lent, there will be mass in the church at 7:45 a. m., with confessions and Holy Communion. On Wednesdays, Fridays and Sundays throughout Lent there will be evening devotions lasting three quarters of an hour with special prayers to bring down God's blessings upon home, city, and Nation, and success in the year's business upon the people, regardless of creed. All are invited to assist at any and all of these services. The pastor will again this year on Good Friday, March 29th, respectfully ask all business houses to close between noon and three o'clock, in honor of the last three hours of Christ's life upon earth.

If one will live with Christ forever after death, one's life must have Christ for imitation and ideal, there is no salvation outside of Christ and His sacred teachings.

**FIRE AT LEXINGTON.**

The Sanford Green house in Lexington, occupied by Mrs. Helen Christensen, caught on fire Friday morning about 10:30. The fire started behind a cupboard near the floor and was not discovered until the kitchen and pantry were filled with smoke. The alarm was sounded and a large number of men responded, the fire being extinguished with buckets and a garden hose without the use of the fire department equipment. The house was not insured, and the damage will probably not exceed \$250.00.

"Have you read 'Finis'?"  
"No, what is it?"  
"Oh, it's the last word in books."

There are two kinds of disappointing men—Those who take "no"

for an answer, and those whom women marry.

The meanest man in the world is the warden who put a tack in the electric chair.

"Your dealer has hired me to collect this bill from you."  
"You are to be congratulated on obtaining a permanent position."

**Its Pulse-Stirring Performance matches Its New and Original Style**

There's no argument anywhere. Everybody agrees. All unite in praising the appearance of the New All-American . . . Its colors and contours and distinguished style . . . And there are many who go even further. The many who have driven this great new car. They enthuse over its pulse-stirring performance. Over its glorious power, acceleration and speed . . . unmatched in any other car offered at such moderate price!

Prices \$1145 to \$1375, f. o. b. factory, plus delivery charges. Low for Hydraulic Shock absorbers and spring covers included in list prices. Bumpers and rear fender guards extra. Check Oakland delivered prices—they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

**FERGUSON MOTOR CO.**

**A NEW ALL-AMERICAN SIX**  
BY OAKLAND

The new Thor Agitator washer, lowest priced quality washer in the world.

To iron, remove the wringer from the wringer shaft.

Place the Thor Rotary Iron in the wringer position.

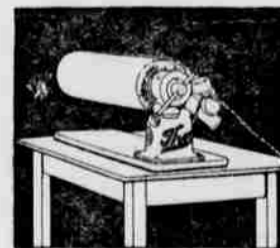

Then you sit in a comfortable chair while you feed the clothes through.

A complete home laundry—washer and iron together—for no more than the average washer alone! Or purchase the iron separately to operate on kitchen table, or on your present late Thor or Maytag washer. Prices now bring a rotary iron within the

reach of every home. No longer need you bear down with a flat iron on your acres of flatwork. All you have to do is feed the clothes through. Pay \$1.00 now, then moderate monthly payments, and save 8 hours a week forever!

**Acclaimed by local homekeepers.**

The new Thor Rotary Iron, has been acclaimed by local women and editors of leading women's publications as another revolutionary step toward reducing house work to a minimum. Thor is approved by Good House-keeping Institute etc. Your light company sold hundreds last fall.

**Lowest priced Rotary Table Iron.**

This shows the Thor Rotary Iron model adopted for use on the kitchen table. The motor is in the base. \$82 cash, or \$1 down, and \$5 a month for 17 months

**To present Thor and Maytag owners . .**

The Thor Rotary Iron is so made that it can be used with your late model washers just as well as with the new Thor Agitator washer. Now you can complete your home laundry, reduce ironing hours to minutes. All with less work and strain. A Thor Rotary Iron is equal to 10 flat irons.
