Give these energetic seeds a chance in your garden

ENERGETIC seeds take no more digging, or raking, or caring for in a garden, than seeds that are not so full of the spirit to live. But think of the difference at harvest time! The energetic seeds withstand disease better — grow better and stronger — produce more vigorously and more abundantly.

The Ferry's Seeds that you can buy today at the "store around the corner" are surprisingly energetic. What is more, they are fresh. What is most important, they are purebred! These Ferry's Seeds came from plants that measured up to the Ferry standard in size, color, flavor, productivity — plants that have handed their inheritance on.

They are pedigreed seeds!—in the strict sense you mean when you say a race-horse is pedigreed. Their parents, grandparents, great grandparents — all were of fine true stock, without an inferior strain. Doesn't this mean something to your garden? Send for the Ferry's Seed Annual to plan what you want. Remember that Ferry makes thousands of tests a year to determine the truthness of every seed you now can spill into your hand from a bright Ferry packet. Garden facts in the Annual make it far more than a catalog. Address D. M. Ferry & Co., Dept. H, 500 Paul Ave., San Francisco, Calif.

Give your garden its best possible start with Ferry's purebred Seeds.
