Nature's Balance. The Price for Pictures. Einstein Puzzle. The "Five and Ten" Law.

It is dangerous to interfere with nature's balance, one thing killing others, all kept in bounds.

Yakima County, Washington, offered a bounty to exterminate hawks and owls, and thousands were killed, to protect game birds and poultry.

Investigation by government experts, examining hawk and owl interiors, found that the birds lived on snakes, grasshoppers, field mice and ground squirrels, all dangerous to man—especially the ground squirrels that spread bubonic plague.

Yakima has withdrawn the bounty. Kill off coyotes and foxes and you encourage a plague of field mice and jack rabbits. Montana made that discovery. The wise plan is to destroy the objectionable creatures by scientific means. Get rid of small vermin and the bigger nuisances will disappear.

When we see news films we rarely realize the risks run by cameramen. Those risks are great and occasionally death proves it.

At Daytona, Florida, Mr. Bible, trying for a new automobile speed record, was instantly killed when his car was going 202 miles an hour.

The crowd stood well back, watching the race, but Charles Traub, grinding a new reel camera, knew it was his duty to show to the machine, traveling four miles a minute, coming head-on. He stood with his camera pointed slightly to one side of the straight course. When the driver lost control the car leaped and rolled.

It was too late for Traub to save himself. His dead body was laid out beside that of the driver. That is the price paid sometimes for news pictures.

Professor Einstein, fifty years old, retired with his wife from public view, to think about relativity and the fourth dimension, and wonder why people make such a fuss over him.

He is especially amazed at the great interest in his discoveries in the United States. And he well may be. Not ten men in the United States understand them.

What Will Rogers calls the "Five and Ten prohibition law," five years in jail, and \$10,000 fine, went into effect in Chicago, and the first man caught in the Jones net was Carl Mahnke, a policeman. The Chicago federal district attorney expects 250 indictments per month.

Impressive figures prove that the radio has come to stay with a vengeance. During 1928 retail sales of radio apparatus totalled \$70,877,517.

The extent to which radio has transformed human life and enlarged its possibilities is understood as little as the importance of printing was understood when Gutenberg began setting up his movable type.

Printing opened all the knowledge of the world to everybody that could read.

Radio offers the speeches, music and information of the world to everybody able to listen.

Professor Card of Philadelphia says women will soon wear dresses made of asbestos, fireproof, shiny as silk, more durable than any cloth, easily cleaned with a wet cloth, costing less than other materials.

All interesting, but women probably won't wear asbestos.

Imitation pearls are as handsome as real pearls. Synthetic rubies and sapphires are made exactly like the real. But woman insists on having the real.

One evening at supper time the Rabbit family were eating and talking. Mother Rabbit held the center of attention as she began:

"Father, I was over to see Mrs. Squirrel the other day and she has been having a terrible time with her youngest child, he acted a lie." "So?" exclaimed Br'er Rabbit in surprise. "Yes," went on Mrs. Rabbit. "She put some cup custard out to cool and somebody ate it. Of course she didn't want to accuse her little Jimmy, but she knew he must have had something to do with it. Even if he didn't take the custard, he knew who did. She felt that he had acted a lie."

All this time Billie Bunny was shuffling in his seat. "Of course I'm not a detective," said Mrs. Rabbit, "but I believe someone took your pipe from under the table the other day and you had a smoke. Now, whoever did that has a speck of dirt on the end of his nose." Billie took his napkin and rubbed

his nose. Mother Rabbit looked at him in surprise and said: "I thought I told you not to tell your father where his pipe was." "I felt so sorry for him that I just couldn't help putting the pipe where he could have a short smoke," whined Billie. Then he added: "But, Mother, how did you know Father had a smoke?" "Easy enough, my dear, the pipe was warm when I gave it to your father and I remembered you were the only one who knew where the pipe was." "OH!" sighed Billie.

TO THE PUBLIC. Those stop signs along the streets of Heppner entering the state highway, must be observed. Most people recognize them but others do not, seeming to take the signs as a joke and pay no attention to them. From now on, anyone passing them up will be given a tag and sent to the City Recorder to explain. The sign says STOP, not slow down, so take warning. By Order of City Officers.

Her gesture, motion and her smiles, Her wit, her voice my heart beguiles, Beguiles my heart; I know not why, And yet I love her till I die. —Anonymous.

The greatest determining factor of a beautiful mouth is your smile. A very wise and very kind man once said that "When the first baby smiled for the first time, it broke into a million pieces—and that was the beginning of fairies."

I can think of nothing more charming and nothing more logical, for the sweetness, the gentleness, the sheer beauty of a smile cannot help but be the basis of all lovely things.

To be very scientific about it, let me tell you that Science claims—with solid proofs to substantiate the statement—that even the expression of your eyes is determined by your mouth.

The eyes themselves, they say, are no more than reflectors—the "expression," as we call it, being caused by the muscles of eyelids and eye area which in turn depend upon the mouth muscles for their cue. In fact, so important are these unheeded muscles of your mouth that they set in motion muscles as far removed as the skull, above, and the collar bone below!

We, judging only from exteriors, know that the mouth is the key to

and Maurine Way, husband and wife, and West Extension National Farm Loan Association, a corporation, for the sum of \$45.50 with interest at the rate of 8% per annum from the 23rd day of December, 1926; the further sum of \$45.50 with interest at the rate of 8% per annum from the 23rd day of June, 1927; the further sum of \$45.50 with interest at the rate of 8% per annum from the 23rd day of June, 1928; the further sum of \$45.50 with interest at the rate of 8% per annum from the 5th day of October, 1928; and for any sum or sums paid by the plaintiff in payment of delinquent taxes subsequent to the filing of plaintiff's complaint and prior to entry of decree, together with interest on said sums at the rate of 8% per annum from the date of payment. The further sum of \$35.00; the further sum of \$150.00 attorney's fee in the above entitled suit and plaintiff's costs and disbursements incurred in said suit, and that the sum of \$70.00 stock in plaintiff's bank held in trust by said Bank for the defendant, West Extension National Farm Loan Association be cancelled and the proceeds thereof applied to the satisfaction of plaintiff's judgment. That the mortgage which plaintiff holds on the following described real property in Morrow County, State of Oregon, to-wit: That part of the Northwest quarter of the Northwest quarter of Section twenty-one in Township Four North of Range twenty-five, East of Willamette Meridian, lying Northerly of a line drawn parallel with and distant 100 feet Northerly, measured at right angles from the certain line of the main canal of the West Extension of the Umatilla Project as now constructed and containing a total of thirty-two and three-fourths acres, more or less, and of which amount a total of twenty-six acres, more or less is irrigable land, subject to the exceptions and reservations contained in the deed from the Northern Pacific Railway Company for said land and subject to the U. S. Reclamation law and rules and regulations thereunder, be foreclosed, and the mortgaged premises be sold at foreclosure sale and the proceeds applied to the payment of plaintiff's judgment including costs and attorney's fees and that all of the defendants be foreclosed of and from all right, title, claim or interest in the premises described in said mortgage, and herein described, except the statutory right of redemption, and for such other and further relief as to the Court may seem just and equitable. This summons is published by virtue of an order of the Hon. R. L. Bengt, Judge of the County Court of the State of Oregon for Morrow County, made and entered on the 10th day of April, 1929, which order provided that this summons be published in the Heppner Gazette Times, a newspaper of general circulation, published in Heppner, Morrow County, Oregon, for the period of four weeks, and the date of first publication of this summons is April 11, 1929. C. L. SWEET, Attorney for the Plaintiff, Address: Heppner, Oregon.

Now is the time to fix up your MODEL T FORD

RIGHT now, after winter lay-ups and winter driving, is the time to go over your Model T and find out just what it needs in the way of replacement parts and adjustments. For a very small cost, you may be able to protect and maintain your investment in the car and get thousands of miles of additional service.

To help you get the fullest use from your car, the Ford Motor Company is still devoting a considerable section of its plants to the manufacture of Model T parts and will continue to do so as long as they are needed by Ford owners.
