Marquette ON DISPLAY SATURDAY JUNE 1ST

A NEW SIX AT A PRICE WITHIN THE REACH OF MILLIONS

On Saturday, Buick will present the new Marquette—designed by Buick engineers and built in Buick factories. Marketed as an additional member of the Buick family, it will in no way affect Buick itself. Buick will continue to express the policies that made it the leader of the fine car field for the past quarter-century. In the smart, comfortable bodies of the Marquette you will recognize the fine hand of Fisher design. In its balance and poise you will see experienced engineering. And in performance—that final standard by which all cars are judged—you will find the Marquette leading its price class by an impressive margin. Be on hand when this eventful new car is shown Saturday. See what a remarkable new automobile Buick has produced at a price within the reach of millions.
