HINTS for the HOME

A summer scheme for the Guest Room? Something cool, dainty and not extravagant? Then choose simple draperies and spreads, making color and pattern do the work of costly fabrics and accessories.

It is not necessary to have both over and under curtains in summer. Sheer ruffled tie-backs of tinted voile, organdie or tarlatan let in every stray breeze and are very decorative.

A wall background of interesting design will give all the pattern needed. Charming new wall papers are available in modern effects that blend equally well with antique or modern furnishings. See that both paper and curtains are in harmony with the rug, and paint woodwork to blend with the wall. For sensible summer spreads, use sunfast mercerized broadcloth, taffeta, voile over saten—or dip your plain canvas-cord spread in a color harmonizing with the general scheme. These few rules will give you a fresh and charming guest room at a very insignificant cost.

A TIP from Your Teacher

Among "Northwestern" students of last summer were teachers who paid us many splendid compliments. Of many letters later received was one which read:

"As a graduate of the University of Washington and the Ellensburg State Normal School, I am glad to state that your instructors are among the best I have ever known."

Information about the forthcoming summer session will be gladly sent to you on request.
