Concerning the pact, President Hoover said in his Memorial Day address: "It is a declaration that springs from the aspirations and hearts of men and women throughout the world. It is a solemn covenant to which the great nations of the world have bound themselves.

"If this agreement is to fulfill its high purpose, we, and other nations, must accept its consequences; we must clothe faith and idealism with action. That action must march with the inexorable tread of common sense and realism to its accomplishments."
