**Birthdays.  
Rockefeller's Service.  
Wives and Prohibition.  
New Size Money.**

Which birthdays in human life are most important?

The first starts life going. The twenty-first begins work and responsibility.

The fiftieth means that old age has started.

The seventieth that active life is over.

Eighty means old age, although it should not. And ninety is reached by few.

John D. Rockefeller has celebrated his ninetieth birthday. Those that appreciate a life and a great fortune well spent will wish for him many more years, taking him far beyond 100.

Mr. Rockefeller, employing able scientists to fight disease, with unlimited resources at their disposal, has rendered service to the human race for centuries to come.

He has given hundreds of millions to education and scientific research.

No man in history has given as liberally or more intelligently.

Mrs. Sabin, wife of a well-known banker, will investigate prohibition among wives of working men throughout the nation.

This "survey" will ask the wives their opinion of prohibition.

Those whose husbands afford to drink whiskey and can't afford it now will say they favor prohibition.

If their husbands still drink whiskey, paying bootleggers' prices, they will be against prohibition.

Wives whose husbands used to drink beer or light wine and drink whiskey now, because they can't get beer or wine, will be against prohibition.

Left to a popular vote, prohibition would win in the nation at large, and lose in the big cities.

This week you will get the new small money, bills much smaller than the old size.

The Government will save many millions in paper and ink.

Some citizens will feel that a small dollar isn't quite so good as a big dollar.

When the calendar was corrected and the date pushed several days ahead, there was rioting by those who thought their lives had been made shorter by the same number of days. We have progressed beyond that stage.

**Hints for the Home**  
by Nancy Hart

Have you allowed your ice-box to help you in every possible way on hot days—given it a chance to serve delicious ice-box meals instead of the regulation hot foods?

These treats can be arranged so easily—and what a joy it is—a scant half hour before mealtime to step leisurely indoors, open the refrigerator and pull out a magic menu all ready to put on the table.

Early in the day plan your meal and prepare it, choosing only recipes and combinations that will work harmoniously in such a scheme—one hot dish may be included; otherwise, let each course be something tantalizingly cold—and how you'll enjoy it!

**Lima Beans a la King**  
To 2 cups cooked fresh limas add 2 heaping tablespoons chopped pimiento, 3 sliced hard-boiled eggs, a bit of minced parsley and a cup of white sauce. Add last two tablespoons grated cheese and blend well and serve hot instead of meat.

**Italian Vegetable Salad**  
Sliced radishes, tomato and cucumber, cold cooked cauliflower, cold cooked asparagus, a slice or two of Spanish onion and hearts of lettuce and marinate well with French dressing made in proportions of 3 tablespoons olive oil to 1 tablespoon vinegar and serve very cold.

**A Fragrant Fruit Drink**  
To each glass of ginger ale add 2 tablespoons of juice from a can of apricots. Pour over cracked ice and garnish with fresh mint.

**Frying Ham and Bacon**  
Never cook ham or bacon over a hot fire. Place meat in a cold pan over moderate heat and cook slowly.

**Handling Refuse**  
Save all paper bags to line the trash can which receives scraps of food, peelings and dry waste mat-

Playing his season as a regular and not yet old enough to vote, Melvin Ott of the Giants leads both leagues in home runs and also leads the majors in runs batted in, according to the official averages issued July 11. Fans all over the country are breathlessly watching his effort to get the home run crown from Ruth, Gehrig, Hornsby, Bottomley, Wilson, Hafey and the other veteran sluggers.

**Stamina and Gripping power are essential**

The Trucks of today are taking the place of the freight cars of yesterday. They must go anywhere, haul heavy loads and do it all without delay.

The Firestone Heavy Duty Pneumatic leads them all in gripping power. Gum-Dipping gives it the extra stamina needed in exacting service in extreme climates.

Use these tires and our service and reduce your hauling costs.
