Ford dealers' selling prices
on
USED CARS
are low

Why not get a used car for the second car your family has been needing? Most of the cars we have accepted for trade-in on new Fords have a generous number of miles left in them—miles of unused transportation at a price you can easily afford.

You'll find our used-car prices low because there is no "price-padding" to make up for high trade-in allowances. The price of the Model A Ford is so low, and the value so high, that excessive trade-in concessions are impossible. That, and our reputation for fair-dealing which we value so highly, protect you when you buy a used car from us.

When we offer a Model T Ford for resale it has been thoroughly reconditioned. New parts wherever needed; everything properly tightened and adjusted—and with it goes a guarantee. We have a number of these reconditioned Fords now. Also several cars of other makes, priced according to the unused transportation they offer. Let us prove our prices. Stop in today and look over these bargains:

3 Model T Coupes, Priced from \$100 to \$225
1 Dodge Tourng \$150
3 Model T Tudor Sedans \$100 to \$275
