

Boardman School Starts Sept. 3; All in Readiness

School opens Tuesday, Sept. 3. Children are requested to bring lunches as the cafeteria will not open for a few days. Guy Barlow and Eldon Wilson will drive the busses this year. Mr. Marschat is anxious that all book assignments shall be made not later than Tuesday so the children will be enabled to start work with all dispatch. There are a few book changes this year. The language books in the 4th, 5th and 6th grades and the health books in the 5th and 6th grades are new. Children having books which they wish to sell are requested to bring them in Monday or Tuesday. Books in good condition sell at two-thirds of their original cost. Mr. Marschat will be at the school on Monday and anyone wishing to do so may purchase books at that time. Books are strictly cash.

One change in the faculty was made by the resignation of Mrs. Jean Blake. Mrs. Martha Titus has been elected to fill the position. Mrs. Titus is the daughter of Mr. and Mrs. D. W. Miller, new residents who purchased the Nizer place. She has taught for a number of years, teaching last year at North Powder. Mrs. Titus is a person of pleasing personality, plays the piano and has been very generous with her talents during the summer. Her normal work was at Monmouth. Miss Katharine Brown will teach the 5th and 6th grades. Miss Brown is a local girl, having received her grade and high school education here. She is a graduate of Ellensburg, normal. Miss Ellen Henry is returning for her third term as mentor of the 3rd and 4th. Mrs. Marschat will again pilot the primary youngsters through their A, B, C's, a fact which is pleasing to both parents and children. In the high school Miss Frances Spike will again reign over the cafeteria and home economics work. W. O. King, athletic coach and science instructor is returning for his third term. Miss Judith Pierson is the new instructor in the high school. Miss Pierson received her training at the University of Montana and did special work after graduation at the U. of California at Los Angeles. She taught one year in Montana and two in Idaho. Miss Pierson sings, plays the piano and has done glee club work and also has had experience in dramatics. Superintendent Marschat under whose guidance the Boardman school has flourished the past two years will continue his splendid work.

Compound Interest

—A Force That Can Build A Bigger Sum Than You Can Earn.

Money has a magic power. And when Compound Interest is considered, the magic is increased. Money invested will work twenty-four hours of the day and 365 days a year. Invested at 6 per cent, money will double itself in the course of eleven years.

Invest \$100 at the age of 20 and with the power of Compound Interest, the \$100 will be \$1600 at the time you are 64. Your \$100 has transformed itself into \$1600 in forty-four years.

Come in and have a chat with our officers. They will gladly show you how to put the magic of Compound Interest to work in our Savings Department—how you can have a substantial sum of cash at your command in one, two or five years' time.

There's a Big Difference

between getting all you can for what you give and giving all you can for what you get. The average American woman spends \$50.00 a year for what she puts ON her face, and the average man spends twice that amount for what he puts IN his face.

Likewise there's a big difference in auto tires. To carefully inspect our U. S. Royal Cord Tires is to appreciate the finer points of construction that account for dependable and exceptional performance.
