The Habit of Saying "Thank You"

Sheep and goats increase farm profits

Pasturing 110,000 sheep and 10,000 goats on formerly non-productive land is netting a group of western farmers substantial increases in yearly incomes. So productive has the enterprise proved that formation of a sales organization and erection of a warehouse have been warranted. In locations where better forage conditions obtain, greater returns may be expected.

The Sheep Show; National Wool Show; and exhibits of Goats, and Mohair fleeces at the 19th Annual Pacific International Livestock Exposition, Portland, Oregon, Oct. 26-Nov. 2, will present a complete picture of the Sheep and Goat industries, and also afford examples of success in the development of pure bred stock. Other features of the Exposition will include exhibits of pure bred Beef and Dairy Cattle, Horses, Hogs, Foxes, Poultry and Rabbits; Dairy, Manufacturers' and Land Products Shows; Industrial Exposition; Northwest Hay and Grain Show; and world-renowned Horse Show.

The addition of sheep and goats to the farms of this community, wherever practical, will bring increasing returns and greater prosperity to the entire district. For this reason, we here at the First National Bank would like to see every farmer visit the Exposition with a view to adding sheep and goats to present operations.
