

IONE.

MRS. JENNIE E. McMURRAY, Correspondent.

IONE LOSES TO LEX.

Lexington came to Ione Friday and handed the local boys a 12-0 defeat. Ione showed the Lexington squad a hard game but owing to the fact that our boys were badly injured, Lexington went through for two touchdowns. Ione was scheduled for a game with Heppner but since our backfield is injured we probably will not play them. Norman Swanson suffered a broken collar bone in the third quarter. The lineup for Ione was McCabe, Lundell, Morgan and D. Mason ends; K. Smouse, R. Mason and L. Liesallen tackles; Esteb and Everson guards; Ritchie center; Kincaid quarter; Swanson right half; P. Smouse left half; Clark fullback.

On Thursday evening of last week Mr. and Mrs. E. G. Sperry entertained the members of the American Legion and the Legion Auxiliary in their farm home north of Ione. The house decorations and refreshments were in keeping with the Halloween season. The evening was spent in games and dancing. Those present besides the host and hostess were Mr. and Mrs. Cleo Drake, Mr. and Mrs. Walter Corley, Mr. and Mrs. Fred Mankin, Mr. and Mrs. John Ferris, Mr. and Mrs. Earl Blake, Mr. and Mrs. Lee Beckner, Mrs. Harriet Brown, Mrs. J. E. Grimes, Elmer Cochran, Orren Grabbill, Jack Whitesides, Charley Dane, Arthur Turner and Otto Rietmann. The closing days of October were filled with social activities among young people of the school. On Tuesday evening of last week the high school Social Civics club gave a masquerade party for the members of the club and the school faculty. All report a very enjoyable time. The losing side in the magazine contest entertained the winners of the seventh and eighth grades at the gymnasium Wednesday evening October 30. The Halloween spirit was carried out by costume and mask. Guests of honor were Miss Knight, Miss Williams, Mrs. E. A. Brown and Mrs. Harriet M. Brown. Light refreshments were served at 9.

In the gymnasium on Thursday afternoon Miss Maude Knight and Miss Hildegarde Williams were hostesses to the first, second, third and fourth grades, with the fifth grade invited as very special guests. Miss Freida McMillan, on the same afternoon gave a very pleasant little party for the sixth graders in her room.

The seventh and eighth grades of Ione are the proud purchasers of "Compton's Picture Encyclopedia," containing ten volumes.

Saturday, Nov. 2 Ione grade football team played Heppner grade team on the home field. The score was 20-6 in favor of Ione.

The high school girls are already practicing for the basketball team and the boys will begin practice this week.

Mrs. Bob Allstott from Rhea creek visited recently with her sister, Mrs. Ted Troge, on Second street.

Miss Norma Swanson was an outgoing passenger Monday for Portland and Salem. She expects to be away for two weeks.

Friends here have received word that Mrs. Charley Nord has been

quite ill since she and Mr. Nord moved to Portland. Mrs. Nord was forced to go to a hospital for a minor operation. At last reports she was slowly recovering.

Mr. and Mrs. Ed Jackson were visiting in Ione recently. They were accompanied by Mrs. Jackson's father and her uncle. They were traveling by truck and came to get their household goods. The Jacksons are living at St. Paul.

Mrs. Blain Blackwell had as over Sunday guests, her brother and sister-in-law, Mr. and Mrs. Brose Ford from Pendleton.

Mrs. J. S. Henderson and two sons, Lonnie and Howard, of Mossy Rock, Wash., arrived on Tuesday of last week for a two weeks' visit with Mrs. Henderson's sister, Mrs. A. A. McCabe, and other relatives.

Robert McCabe is in Forest Grove where he has employment.

Laxton McMurray is spending a couple of weeks at St. Martins Springs, Wash.

Garland Swanson is in Salem where he is enrolled as a student in the Eyerly Aviation school. For the first four or five months he will study only ground aviation.

Mrs. Bert Mason and her mother, Mrs. Adelia Godfrey, were week-end visitors in Walla Walla with Mrs. Mason's sister, Mrs. Delzell.

Leonard Larson arrived Saturday and Monday assumed his duties as section foreman of the O. W. R. & N. Mr. Larson comes from Bluffs, on the Deschutes branch. Peter Popeoff who has been temporary foreman for the last few months departed for his home in Portland.

P. J. Linn returned home on the Monday morning train. While away he attended the stock show, and visited his two sons in Portland, and visited also with the two sons who reside in Vernonia.

Mr. and Mrs. Elmer Lorence, from Silverton, and Mr. and Mrs. Ed Hurgett from Portland spent the time from Friday until Monday calling on their many friends in and near Ione. Mrs. Lorence will be remembered as Miss Anna Lindsay, and Mrs. Hurgett as Miss Mary Lindsay, the daughters of Mr. and Mrs. Alex Lindsay who lived for many years on the farm above town now occupied by Fred Buchanan.

The following dates have been decided on for the annual Christmas sales of food and fancy work by the various churches of our town. On Saturday, December 7, the Dorcas Society of the Congregational church will hold its sale. The Baptist Ladies Aid will have theirs on Saturday, December 14, and the sale by the Willing Workers of the Christian church will be Saturday, December 21.

Mrs. Alan Case departed on Thursday of last week for her home in Portland after a pleasant visit with her mother, Mrs. J. E. Grimes.

Little Josephine Case remained with her grandmother for an indefinite stay.

The Ione High school is giving a miscellaneous program and carnival November 22. A good time is promised all those who attend.

Mrs. Jason Biddle returned from Portland on Thursday of last week. Mrs. Biddle had been in a Portland hospital for a minor operation. She returned much improved in health.

Mrs. R. E. Harbison returned last week from a pleasant visit with relatives in Hillsboro and Eugene.

Through the courtesy of R. E. Harbison we are able to give figures showing the total precipitation at his observatory for the months of September and October in each of the years '23 to '29 inclusive. The figures are as follows:

Total precipitation, September and October 1923, 1.16 in.; '24, .70 in.; '25, .81 in.; '26, 1.43 in.; '27, 2.79 in.; '28, 1.03 in.; '29, .44 in.

Mr. and Mrs. Omar Rietmann were business visitors in The Dalles Saturday.

Mr. and Mrs. Harold Ahalt and little daughter from Rhea Siding spent Saturday and Sunday with Mr. Ahalt's mother, Mrs. Hannah Ahalt.

Mrs. Earle A. Brown went to Portland Monday. She will return Friday.

Turkey picking is the order of the day at the Eubanks ranch below town.

Mrs. Mary Barlow of Eugene is here for an extended visit with her daughter, Mrs. Lee Howell, and other relatives.

Sunday guests in the Ed Dick home on First street were Mr. and Mrs. A. H. Hazen from Lewiston. The party were on their way home from a trip to the Willamette valley.

Water for Domestic Use Given Study by Science

(From State Board of Health.)

Important advances have been made in our knowledge of the treatment of water for domestic purposes. Water-borne diseases have been greatly lessened through modern methods of sanitation and sterilization. A new method has recently been developed for the sterilization of water which may prove to be an advance beyond those now in use. The sterilization is dependent upon very finely divided catalytic ally-active metals, preferably silver. It is claimed, that water filtered through such material is sterilized by electrolytic action, and that once the process is in operation no further attention is required. There is no impairment of odor or flavor. Equipment for the sterilization of small quantities of water for household use has made steady progress.

Bacterial filters may be effective for a time, then become a source of danger. Purification of water by ozone has often been attempted, and an ozonizer for deodorizing air has recently been developed that operates on current from an ordinary house circuit. In Germany, a household water sterilizer has just appeared that subjects a film of water, flowing between two concentric quartz tubes, to the action of the ultraviolet light of a mercury arc lamp that surrounds the tubes. At a reasonable rate of flow the lamp remains cool and the water is said to be completely sterilized. More attention is constantly being given to methods for treating water on a large scale to reduce its tendency to corrode iron pipes. One of the most promising of these consists in making sure that the water as it enters the mains has the very slight degree of alkalinity that it acquires by contact with limestone in the absence of excess carbon dioxide. Improved methods have been developed for the treatment of water that contains ingredients that render it difficult to filter. Precise adjustment of the water to a particular faintly acid reaction—"pH control"—at the moment it passes to the filters, has been an important improvement in filtration practice. Automatic instruments to record rate of filtration or losses of head, and such equipment as totalizing meters, flo-

detectors, and automatic pH indicators, are being more generally used. Some waters that are high in magnesium salts are now being purified by the use of an excess of lime, followed by recarbonation with carbon dioxide gas. This promises to be a great improvement over methods that have previously been in use, in that it removes some of the minerals responsible for the hardness of the water without introducing anything else in its place.

PURCHASES FINE MARE.

Mr. and Mrs. Guy Huston and son Milo of Eight Mile enjoyed a trip to Portland during the past week, spending a couple of days in the city attending the big livestock show. As Milo is interested in raising high grade draft horses at his Eight Mile farm, he purchased a purebred Belgian mare. The animal is a coal black and registered under the name of Black Beauty. A year ago Mr. Huston bought a purebred Belgian stallion, and these animals will be the foundation for the high grade stock of draft animals he expects to raise. The mare was bought at private sale from an importer at Portland, and both the stallion and mare are reported to be very fine specimens of the Belgian draft horse.

Bert Mason, leading merchant of Ione, was transacting business in Heppner on Tuesday.

Your Income

—MAKE IT GO FURTHER THIS WAY—

No matter how large or small your income it can be spent in such a way as to make it buy more than it does now.

The simple secret of getting more out of an income is found in the word "budget." A budget shows you how to avoid many petty expenses and gives you money for the purchase of worth while things.

Come in and talk to one of our Officials about the pleasing results which a budget can achieve for moderate incomes. Then plan to open and use one of our Savings Accounts. \$1.00 is all you need, and we will pay you liberal compound interest every six months.

Read what Will Rogers writes about LEVI STRAUSS OVERALLS. Bad Year for City Slickers, Says Rogers. NEW YORK, Nov. 29.—Say, our champion New York university team looked like Man of War till that bunch of Oregon apple knockers got a hold of 'em this afternoon. It was no place for a raccoon coat either, up against an old bunch of wheat shockers whose college emblem is a pair of Levi overalls. These old salmon sippers from the mouth of the Columbia had the city slickers stream from goal to goal. With Yale, Harvard, Princeton, Columbia and Al Smith going down all in succession, it just looks like it's the old country boys' year. Yours, WILL ROGERS.

Here's a Secret One of the world's greatest philosophers once said: "The secret of success in life is to be ready when your opportunity comes." And that's true in financial as well as other affairs of life. Don't drift along from day to day and then find yourself short of funds that might secure some good investment. Begin NOW to get ready. Start a Bank account. Then when opportunity knocks, you'll be ready. We never gave better advice. Use our Bank. First National Bank HEPPNER, OREGON
