

## Local Happenings

Mr. and Mrs. Hugh Githens departed for their home at Berkeley, Calif., on Monday after having spent a week in Heppner, guests at the home of Mr. and Mrs. Spencer Crawford, and during which period they enjoyed visiting with a number of former Heppner and Morrow county friends. The family of Mr. Crawford and Mr. and Mrs. Githens motored over to Walla Walla on Sunday, reporting a very enjoyable trip.

Edward Rietmann, who was in Heppner on Friday from his farm north of Ione, states that he has completed his fall seeding and is looking for the grain to come along nicely. It has been a very long dry spell, and many farmers were puzzled about putting in their grain, however, Mr. Rietmann doubts that there will be any re-seeding of consequence required even on the part of those who got their grain in early.

Payment of last half of taxes was being looked after at a rapid rate in the office of Sheriff Bauman the first three days of this week. Wednesday was the last day of grace before the adding of penalty and interest, hence the rush. Sheriff Bauman reports that taxes have been coming in well and the delinquent list should be much smaller than heretofore.

Mr. and Mrs. Vawter Crawford motored to Stanfield Sunday afternoon where they visited until Monday afternoon at the home of Mr. and Mrs. John M. Spencer. That part of Umatilla county is harvesting a fine potato crop this fall and the price is good, assuring the potato raisers of a nice profit this season.

Mr. and Mrs. Frank S. Parker and daughter Kathryn visited over the week end at Joseph with their daughter and son-in-law, Mr. and Mrs. Dorris Mitchell. They were accompanied as far as La Grande by Mr. Parker's mother, who enjoyed a visit with another son residing there.

Erik Bergstrom, pioneer wheat-raiser of the Gooseberry section, was looking after business at Heppner on Friday. A very good rain fell out that way recently which helped in bringing up the wheat, but Mr. Bergstrom reports much more is needed.

Dan Stalter, president of Heppner Mining company, returned to this city Sunday from the mines in the Greenhorn country. Dan brought out some samples of very fine ore, some of which contains gold, silver and copper. He stated that a new one foot vein of this rich ore had been opened just previous to his leaving the mine, and work in the tunnel progressed 40 feet this summer.

Mrs. Jeff Jones, accompanied by her nephew, Crockett Sprouts, will leave tomorrow for San Leandro, Calif. Mrs. Jones plans on visiting in the south for some time, and Crockett may decide to locate there providing he finds suitable employment. He recently gave up his position with the Standard Oil company at Heppner.

Mr. and Mrs. Stanley Reavis made a hurried trip to Sunnyside, Wash., the end of the week, where they were called by the serious illness of Mr. Reavis' mother. They returned home Sunday, and Mr. Reavis reported his mother to be progressing through still very ill.

Earl Hallock, cashier of Farmers & Stockgrowers National bank, went to Portland on Saturday. Returning on Sunday he was accompanied by his mother, Mrs. Delia Hallock who contemplates making her home with her son at Heppner for the winter.

W. D. Akers, son of Fred Akers of Eight Mile, and a rising young farmer of that district, was looking after business in this city on Wednesday. This office acknowledges a pleasant call from the young man.

Mr. and Mrs. Chas. Thomson returned home Sunday from Eugene where they took in Dad's Day activities on the University of Oregon campus while visiting their son, Ellis Thomson, a sophomore at the university.

The first shipment of Hood River apples reached Heppner Saturday from the orchards of Mr. and Mrs. M. L. Case. The fruit from these orchards is of very excellent quality.

Mr. and Mrs. Emery Gentry and baby daughter of Weston, were visitors here over the week end, guests at the home of Mr. Gentry's parents, Mr. and Mrs. Jas. Gentry.

Mr. and Mrs. French Burroughs of Jordan Siding were visitors in this city on Monday. Mrs. Burroughs has a great flock of turkeys as usual and the birds are in excellent condition for the coming Thanksgiving and Christmas markets.

Miss Hester Thorpe, teacher for three years in the grades of Heppner school and now teaching at The Dalles, was a week-end visitor at Heppner, visiting with her friend, Miss Beth Bleakman.

Mr. and Mrs. Gene Ferguson and children returned to the city Sunday evening after spending some ten days at Medford and vicinity on business.

D. A. Wilson and W. V. Crawford motored to Portland Tuesday on business, returning Wednesday.

### Lime Sold Farmers for Alkaline Soil; Not Need

Selling limestone for \$20 a ton for use on land that doesn't need it, when even though it did the price from the state plus freight would be but \$14.70 a ton, would seem to be about the ultimate in salesmanship. That is exactly what has been happening in some sections of Oregon, reports from county agents to Dr. W. L. Powers, head of the soils department at Oregon State college, show.

Latest activities in this respect have been in selling lime to farmers for use on "sick" or alkaline spots in eastern Oregon, at \$20 a ton. Dr. Powers advised county agents in the territory that extended experiments show that alkaline soils are relatively high in calcium and that lime used on them will have little or no effect. Even if lime were needed it can be bought at the state plant at \$4.50 a ton and shipped to the extreme border for \$10.45 additional.

The lime salesmen are reported to have warned farmers against using sulfur in correcting alkaline spots, whereas the results on the oldest alkaline experimental field in the northwest at Vale show that sulfur is the best single treatment yet known, says Dr. Powers. Less sulfur is needed when it is used with organic manures.

"Sulfur on alkaline land reacts to form sulfuric acid which neutral-

izes the alkali, brings it into solution and mellowes the soil so that it will launder out where deep drainage and copious irrigation are provided," explained Dr. Powers. "Under present conditions this method is not recommended as a wholesale reclamation scheme on hard greasewood land, but it is entirely practical for elimination of alkali spots of moderate area from occupied farms."

### "IS HELL OUT OF DATE?"

The above line is the best subject of the sermon to be preached to-night at the Church of Christ by Evangelist Lester I. Jones. Interest in the meeting is growing nightly and every message is distinctly worth while. You can not afford to miss them.

The subject for Friday is, "Immortality," and for Sunday morning, "Rightly Dividing the Word." Sunday evening the theme will be, "Life's Supreme Question Answered." The public is cordially invited and will be warmly welcomed at all services.

Sunday school at 9:45 and Christian Endeavor at 6:45. Sunday school, communion service and preaching on the next two Sunday afternoons at Pine City. MILTON W. BOWER, Minister.

Senator R. J. Carsner of Spray is among out of town people noted in the city this week. Mr. Carsner might be called the daddy of the Heppner-Spray road as he was the first to conceive it and has been working ceaselessly for it since.

### WANTS
