A COMMON CAUSE.

THE Pendleton East Oregonian of Tuesday, carrying an editorial under this same caption, "A Com-mon Cause," elucidates clearly the spirit with which fostering of the Heppner-Spray road, the John Day north and south highway, and in fact all justifiable good roads pro-jects should be attacked. All are American type of busnless roganizabenefit to favorably situated cities completely understood business men or districts to be sure, but with the

the country as a whole. The Heppner Lions club, in taking his eight years as Secretary of Com-he lead in sponsoring the Heppner-merce he gained the confidence of the lead in sponsoring the Heppner-Spray road, is thoroughly justified in seeking support over the entire territory affected by the projected route. For while Heppner is in line to receive much benefit from the completion of the road, the benefits chamber of commerce is, what it to be accrued on the whole far out-weigh what might be considered the petty mercenary interests of one

Vision is required to be a good roads enthusiast. If only the immediate effects were to be considered, terest in America. It ought to work any sound thinking person might hand in hand with the Federal Govwell hesitate in sanctioning the im-mense sums proposed to be spent in building good roads. Like Lincoln, when he worked arduously for the completion of a transcontinental railroad, one must be able to see far into the future to glimpse the enormous dividends that are really

reaped from such an investment.

As the East Oregonian points out, interior Grant county is an unopen ed book to the world at large. has enormous potential wealth, realization on which will be rapid once the country is opened up, as it will be by the building of good roads. When it really comes into its own, its trading centers will no doubt be reared within its borders. Until that day comes Heppner and Pendleton are each favorably situated to receive special benefit from completion of roads now projected. This, however, is not the only considera-tion for which these projects should receive support. The people should build with the vision of empire which will be shared more equally by the state at large.

A COMMON CAUSE.

SUPPORT for the Heppner-Spray road has been expressed by the East Oregonian on various occasions and it may be timely to say again that the project is of import-ance to Umatilla county people as well as to Morrow county folk. Aid could properly be given on ground of neighborliness yet the case is bigger than that. The need is for highway construction that will enable people to get to the interior country without going 100 or 200 miles out of their way or over bad froeds. Completion of the Heppner-spray road will incidentally mean

By the same token completion of the Pendleton-John Day highway

nection with northern Grant county via Nye. With the two projects completed there will be a loop that will be of service to all concerned.

It will be possible for people to drive south into Grant county from Pendleton or Pilot Rock and home via Spray and Heppner. Morrow county people will of course have the same two way access to the interior. Our Grant county friends will find it easier to reach their trading and banking centers while ocal people and tourists will have chance to know something about the country to the south. Owing to the lack of proper roads that country is a closed book to most people of today, but it is time to change such conditions. There is no conflict between the Pendleton-John Day highway and the Heppner-Spray road because they are both needed in a common cause. The conflict is with those who would have all available funds used on work elsewhere while our pro jects remain neglected.

something sorely needed. Every member of every Chambe of Commerce which is affiliated with the Chamber of Commerce of the United States has a potential voice now in the administration of national affairs. The business man who does not avail himself of this opportunity by joining his local Chamber of Commerce has no just ground for complaint if the relations be-tween the Government at Washington and the business interests of the nation do not suit him. And the local Chamber of Commerce which is not affiliated with the national organization is doing its community and its business men an injustice by builders, looking to the development withholding their opportunity to of a new empire, the benefits from make themselves heard in the councils of the nation.

One pound self-raising flour, six ounces of butter, six ounces of su-gar, four ounces of currants, four ounces of raisins, two ounces of mixed peel, two ounces of ground lmonds, two eggs, a little milk.

Sift the flour, rub in the fat, mixing it until the flour looks like breadcrumbs. Add the sugar, the fruit and almonds. Beat the eggs and beat them in. Then add enough milk to make a batter that will just drop from the spoon. Turn it into a well greased tin and bake at once in a moderate oven for about one and a quarter hours.

Here is a Christmas pudding: One and a half pounds of bread crumbs, six ounces of flour, one and a half pounds of suet, half a tea-spoon of salt, one pound and a half of raisins, one and a half pounds of currants, one pound of sugar, four ounces of ground almonds, half a pound of candied peel, one nutmeg grated, half a teaspoon each of cinnamon and allspice, the grated rind of a lemon, nine eggs, one pint of

milk, a wine glass of grape fruit. Mix all the dry ingredients thoroughly, then beat in the well whisked eggs and grape juice. Cover with a cloth and leave for four hours. Then beat in the milk, and when well beaten fill the mould, cover with greased paper and a cloth, and boil five hours.
