LETTER PROTESTS BUILDING HIGHWAY

Medford-Crescent City Construction Would Take \$1,000,000.

OBJECTIONS STATED

S. E. Notson Tells of Achievements of State Chamber of Commerce in Land Settlement Work.

A letter, protesting the building of a proposed road between Medford and Crescent City, Calif., directed to the Morrow county court by the Josephine county court, was read at the meeting of the Lion's club Monday noon, and referred to the good roads committee, which will report back on the matter at the next meeting.

The letter is as follows: "We are writing you to inform you of a project in southern Oregon, which if successfully put over will cost the road fund approximately one million dollars, or more. If it goes through it will retard development of many roads that have been on the state program for a number of years, including roads in your county, therefore, we are asking you to carefully consider the following:

"We enclose you herewith a statement of a few of the facts in regard to the road (most of the new construction will be in this county), which we hope you will consider carefully. This matter is to come up before the Highway commission, Bureau of Public Roads, Forest Service on January 18th, and we hope that you or some of your Board of Supervisors will be present at that time, and protest against this road being put on the program ahead of your project, or any other project that is now on the State Highway commission program, and I hope to have the pleasure of meeting you in Portland at that time.

"Promoters of this road are making claims that it will shorten the distance to Crescent City between 20 and 40 miles, but as a matter of fact does not shorten it any, if anything adds one half mile to the distance, and in order to make this road they have to climb a spur up Grayback mountain, making a raise of more than 2000 feet over the present grade.

"As a freight road it would be impractical, on account of alignment, long grades and curves.

"We will be at the Imperial hotel from 10th to 16th of January, and hope to meet you then, and talk the matter over.

"P. S.—This proposed road practically parallels the present Pacific and Redwood finished highways.

"Josephine County Court, By Judge E. G. Gillette. J. L. Stanbrough, Commissioner.

L. R. Conklin, Commissioner. S. E. Notson, Morrow county counselor of the Oregon State chamber of commerce, told of the achievement of the chamber in land settlement during the past year. A total of 781 families have arrived in the state in the last year and settled, purchasing 51,972 acres of land at an investment of \$2,905,644.75.

This result was obtained at an expense of about \$37,500, a large part of which went for the maintenance of an office in Los Angeles. The income to the state by assessment of the property these families bought, if assessed at half the valuation, would bring in about \$75,000. The residents of the state are also enriched by the amounts that they spend for their living. Notson also told of the advertising work that the chamber would do during the coming year and told of the sale of poster stamps, which are being sold to advertise the state. A representative will be in Heppner soon to make them available to local business men.

The club completed the adoption of its constitution and by-laws. Rev. Stanley Moore asked the cooperation of the Lions in the Boy Scout work. Al Rankin provided by donation reindeer roast as the central portion of the meal that was served at the meeting.
