

Hints for the Home

by Nancy Hart

"There's nothing she can't do with a can of paint and a paint brush," said one young woman enthusiastically about another. "And she has a perfect passion for doing it, too. She'd rather paint things than eat or dance."

What this young woman liked to paint, we learned, was not miniatures, or portraits or even decorations on china, but such things as wicker furniture, window sills, porch floors and even the family automobile when it needed it. With her talent for painting she was able at very small expense to transform a rather ordinary sort of sun parlor with some odds and ends of wicker furniture into one of the most delightful rooms of the sort.

One thing that this young woman insists on, however, is that she should always have her paints mixed by the professional paint dealer. If she is going to do a very small job she will use a small can of ready-mixed paints, but otherwise she goes to a paint dealer who can be trusted and gets him to mix the desired quantity of paint for her. She insists that she owes much of her success to this precaution.

She has also been able to furnish several rooms in her house at rather small expense, by using unpainted furniture which she has painted to suit herself. Now, many persons seem to be of the opinion that unpainted furniture is so expensive that it is not worth the trouble of painting it for themselves. Better buy the ready-painted sort. However, it really is possible, through some searching, to find attractive pieces of the unpainted sort at small cost.

Don't imagine for a minute that painting is easy. One reason why this young woman likes the work is because it really is difficult and therefore well worth her best effort.

Oatmeal Bread

One and one-half cups rolled oats, one cake compressed yeast, one and one-half teaspoons salt, two cups warm water, two tablespoons sugar. Place oats in warm water. Dissolve yeast cake in one-third cup of lukewarm water; add two tablespoons of lard and salt. Add one and one-half cups of flour to the oats, then add the yeast and salt. Beat well and let raise until light. Add sugar, enough flour to make soft mould, and knead lightly. Let rise about one hour. Make in one large or two small loaves. Let rise again in pans about one hour, to double the size.

Bake from thirty-five to forty-five minutes in moderate oven. If started at eight the bread will be done by noon.

Hoss Gives Hints On of Use License Stickers

Suggestions relative to the use of automobile windshield stickers, which are being issued during the first six months of 1930 to indicate that payment of motor vehicle license fees has been made for that period, were made Monday by Hal E. Hoss, secretary of state, who has charge of motor vehicle registration in Oregon.

"Of prime importance, I would urge that stickers should be affixed at once to windshields," says Mr. Hoss, "and not carried about in pockets or billfolds, as is frequently done when gummed permit slips are received. Many times traffic officers have halted non-resident cars to inquire about registration in Oregon and have found that the driver of the automobile had properly registered but had tucked the sticker away hastily in a pocket of his car or coat. The 1930 motorist will be relieved of much embarrassment and will save some work for the motor vehicle division if he will place the sticker, which is in reality a receipt, upon his windshield at once."

All other stickers should be removed from automobiles before the official one is put in place, according to the statutes, none but official state stickers are allowable, but many motorists carry advertising or propaganda slogans or leave permits from other states on their cars months after they are non-effective. A suggestion has been made that car owners cover the backs of the stickers with shellac after they are pasted on the glass. This does away with damage from moisture inside the car and should keep the sticker in good shape throughout the half-year period.

Close watch is to be kept by all traffic officers for muddy metal number plates, and motorists are warned that their license plates should be clear of grime at all times in order that the numerals may be easily distinguished. The plan for use of the 1929 metal plates for the six-month period in conjunction with the special windshield stickers was formulated by the 1929 legislature to adapt the procedure to the change in the yearly registration period.

"I refused you a loan on Sunday and now you are asking again for one?"

"Yes, I wanted to show you that there was no ill-feeling between us."

Teacher: Why do you insist on spelling bank with a capital "B"?
Johnny: Well, pa said a bank was no good unless it has a big capital.

Beautiful two-tone and velvet rugs made from your old rug material. Call rug man, Heppner Hotel. A new and modern way to make rugs.

Is your hot water HOT? If not call Gibb the plumber, Peoples Hardware Co., phone 702, residence phone 1412. No job too big or too small. Prompt attention to all calls.

Today

- Chevrolet announces

THE GREATEST CHEVROLET IN CHEVROLET HISTORY

Today, Chevrolet presents the Greatest Chevrolet in Chevrolet History—a smoother, faster, better Six—with beautiful new bodies by Fisher.

Basically, it is the same sturdy, substantial Six which won such tremendous popularity in 1929. But it is a greater car in every way—for there are scores of vital

improvements which contribute to comfort, performance, endurance and safety!

An improved six-cylinder valve-in-head motor, with its capacity increased to 50 horsepower; four Delco-Lovejoy hydraulic shock absorbers; fully-enclosed internal-expanding weather-proof brakes; a new dash gasoline

gauge; heavier and stronger rear axle; new Fisher non-glare windshield; larger tires—

—these are typical of the many improvements which make this car the Greatest Chevrolet in Chevrolet History.

But most impressive of all—this smoother, faster, better Six has been made available—

-- at greatly reduced prices!

During 1929, more than a million three hundred thousand persons bought six-cylinder Chevrolets. This enormous volume has made possible many savings in the Chevrolet factories—and, in keeping with its long-established policy, Chevro-

let is sharing these savings with the public. No written description can do justice to the extra value and quality provided in this new car. Visit your Chevrolet dealer—see this car—ride in it—and judge for yourself its sensational value.

The holidays are over

Gone their parties, their decorations and the long evenings of play for young and old.

Consider how unobtrusively, yet how greatly electricity has contributed to the color, the comfort and the safety of your holidays.

Christmas decorations safely illuminated plenty of light for entertaining or for reading those new books.

Certainly your electric bill may be a trifle larger—but consider how small the additional expense compared to the brightness and joy it brought.

Without this inexpensive service holidays would indeed be drab.
