Tells How to Darken Gray Hair With a Home-Made Mixture.

Joice Williams, the well-known American actress, recently made the following statement about gray hair and how to darken it, with a home-made mixture:

"Anyone can prepare a simple mixture at home that will gradually darken gray, streaked or faded hair, and make it soft and glossy. To a half-pint of water add 1 ounce of bay rum, a small box of Barbo compound, and ¼ ounce of glycerine.

These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It does not color the scalp, is not sticky or greasy and does not rub off."—Adv.
