

Local Happenings

Philip Mahoney, son of Mr. and Mrs. W. P. Mahoney of this city, who is now a resident of Seattle, passed the bar examination of the state of Washington in January. Mr. Mahoney is a graduate of the University of Washington, having finished his course in law there last summer, and while spending his vacation season, he passed the bar examination in this state in July last. He is not practicing his profession at this time, however, expecting to get himself established in that line later on. For a young man of 22 years, Philip has progressed well as a student in law.

Karl L. Beach, hardware and machinery dealer of Lexington, was a business visitor in this city on Wednesday. He had been riding about his part of the wheat belt since the snow disappeared, and reports that very little of the moisture was lost by running off the hillsides and down the draws. Whether or not there had been any damage by the extreme cold, it could not yet be fully determined, but Mr. Beach is of the opinion that this has been slight.

Mr. and Mrs. N. A. Clark are spending the week in Heppner, bringing their little daughter to town for medical attention. During the cold spell influenza visited the family of Mr. Clark and he was laid up for a few weeks with the trouble, and the little girl is suffering from the after effects of her sickness, being threatened with mastoid affection. It is hoped that the trouble may be cleared up without an operation.

J. A. Williams, Henry V. Smouse and Bert Johnson were farmers of the Ione country who spent a short time in this city on Wednesday. They report the snow all gone now and the moisture was well absorbed by the ground to the great benefit of the oncoming wheat. In many places the new crop is springing up and there seems to be no indication of loss from freezing.

Otto Rietmann, accompanied by his attorney, F. H. Robinson, was looking after the business of closing the estate of Paul Rietmann at the office of County Judge Bengel on Monday. Both Mr. Rietmann and Mr. Robinson were rejoicing over the breaking up of the recent cold snap and were hoping that winter was over.

Mr. and Mrs. O. C. Stephens of McKinney creek were Heppner visitors on Monday. Mr. Stephens reports the backbone of winter broken out his way for the present at least, and the hills are putting on an appearance of green. His stock came through well as he had an abundance of feed.

F. E. Mason spent a few hours in town on Saturday from the Mason home on Rhea creek. Last season Frank was in the midst of lambing during the winter weather and big snow, but he will not begin this work with his small band of ewes until later this season.

Harry French, extensively engaged in stockraising in the south end of the county, was in the city on Saturday for a few hours, looking after matters of business. His part of the county enjoyed some real winter weather during the month of January.

Jason Biddle was looking after business here on Tuesday from his home on Rhea creek. The snow had all disappeared out that way, and the best part of it was that the moisture, at least 80 per cent of it, soaked into the ground.

Paul Gemmill has been confined to his bed since Sunday because of the condition of his back, which was injured while serving in the World war. Since receiving the injury, his back has troubled him at irregular intervals.

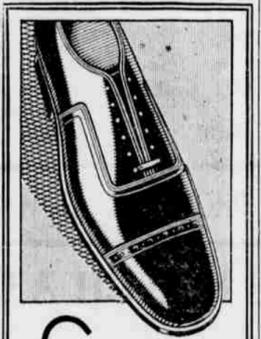

C. H. Bartholomew of Butter creek came to Heppner on business Wednesday.

Edward Rietmann had business calling him to Heppner on Wednesday from his farm home north of Ione. For several weeks he and his family were shut in by the big snow and during this time their principal company was the radio—their only communication with the outside world. Mr. Rietmann rejoices over the fact that the moisture from the melting snow was taken up by the wheat fields, and reports that his grain is showing up well and growing.

Dr. Clarke, of the Clarke Optical Co., 321 1/2 Washington St., Cor. 6th, Portland, Ore., EYE SIGHT SPECIALISTS, will be in Heppner all day and evening, Sunday and Monday, Feb. 9th and 10th, at Hotel Heppner. SEE HIM ABOUT YOUR EYES. Examination free.—Adv.

W. G. Palmateer of Morgan, who was in Heppner Tuesday conferring with Judge R. L. Bengel at the court house, reported the water from melting snow had soaked in fine on his wheat ranch and that the wheat was coming along nicely. Ellis Hiatt returned to Heppner from Echo Wednesday after a visit of more than a month with relatives. He will be helping his brother Jay until February 15, when he will begin herding for R. A. Thompson.

Miss Gretchen Chappell of Carmel, Calif., has returned to Heppner from Monterey, where she was employed in the Monterey hospital, to be again associated with her cousin at the Heppner hospital.

Wilson's
A Man's Store for Men

Antone Holub of Ione, who was in Heppner on business Monday, reported that some snow was still on the ground around Ione and the water from melting snow soaking well into the ground.

Mr. and Mrs. James D. Cash, who accompanied by daughter Phyllis Deane, went to Walla Walla, Wash., Thursday to visit their parents, returned to their home in Heppner Saturday.

I. A. Dempsey is here from his home at Rickreall, where he has been spending the winter. He expects to be on Morrow county road work as soon as operations are resumed.

M. E. Cotter, Ione resident, was looking after matters of business in this city on Wednesday, being an interested visitor for a short time at the regular session of the county court.

Henry Howard has been confined to his home because of an attack of bronchial pneumonia and heart trouble. His physician reported his condition slightly improved Tuesday.

The office and display room of Ferguson Motor company has been improved by the addition of a glass-front cabinet to contain the smaller articles of their merchandise stock.

Miss Eva Osborn, who has been confined to the Herren Convalescent home with an attack of mumps is rapidly recovering from the ailment.

Rex Brumbach, tractor salesman with headquarters at La Grande, was in Heppner Wednesday and today, conferring with his company's local agents, Gilliam & Bibe.

W. E. Cummings and family are living in the W. E. Straight house near the laundry, and plan to go to work on the Frank Wilkinson ranch within a few days.

Ernest Cannon, Hardman wheat-grower, was in Heppner Monday, calling at the office of the Morrow county agricultural agent to obtain a supply of magpie poison.

Celebrating return of warm weather. See Star Theater ad.

FAME OF SARGON NOW NATION-WIDE

Big New York Firm, With Branches in Leading Cities, Selling at Rate of Over Million Bottles a Year. California Also Using at Rate of Million Bottles a Year.

When Sargon was first given to the world, well known authorities predicted it would become one of the great outstanding health-giving remedies of the age, but the men of science who labored for years to perfect it, little dreamed it would become a household word in so short a time.

According to the statements of people everywhere who have actually put it to the test, it is restoring literally hundreds of thousands of weak, rundown, half-sick discouraged men and women by some of the latest and most advanced methods known to Medical Science.

The demand for Sargon is probably without parallel in the history of the drug trade. In the State of California alone, it will require over one million bottles to supply the people of California during the first twelve months after it was placed on sale.

One big New York firm, with wholesale houses in leading cities, has sold and distributed 998,184 bottles in the past eight months, or at the rate of one million and a quarter bottles per year.

Kansas City wholesale and retail firms have sold and distributed over 300,000 bottles within twelve months, or an average of almost one bottle

for every family in the State of Kansas.

Texas dealers required nine car-loads the first four months. In the Northwest, the Twin Cities of Minneapolis and St. Paul have been selling at the rate of over \$100,000 per year, to say nothing of the immense wholesale distribution. Sales in other sections have been correspondingly large.

Back of Sargon's triumph in the drug stores is Sargon's triumph in the homes. When a suffering man or woman finds a medicine that helps them, they invariably tell their friends about it, and in this way the fame of Sargon is spreading from coast to coast, sweeping the country like a great tidal wave.

No matter where you go—North, East, South or West—Sargon is bringing health to thousands, and many foreign countries are now clamoring for it.

Patterson & Son, Druggists, Agents.—Adv.

Dr. J. P. Stewart, Eye-Sight Specialist of Pendleton (Successor to Dr. Samuel Tyler) will be at Heppner Hotel on Monday, February 10. He would be glad to consult with any of Dr. Tyler's patients, and has all the prescriptions on file of glasses fitted by Dr. Tyler.

Smile With Ferguson

DID IT EVER STRIKE YOU

that it might not be the right thing for Evangelists to try to impress upon their audiences how hot it is in the lower regions? Some Missionaries tried that on the Eskimos, God's frozen people, and most of them wanted to go there, because they wouldn't have to comb their hair with an ice pick.

Did it ever strike you that tire selection is a matter requiring critical judgment and expert knowledge. We have selected

U. S. Royal Cord Tires exclusively after a careful study of their ability to answer every essential tire demand. We recommend them unconditionally for superior and economical service.

Try our complete auto repair service. If we can't fix it—junk it.
