Star Theater Program Changes Announced

Owing to the short notice of cancellation of the play dates of the Macy Players, who were booked at the Star theater for a week beginning Sunday, April 6, Manager Sigbee has just received the titles to the pictures which will be played during next week's program.

Tuesday, Wednesday and Thursday there will be Janet Gaynor and Charles Farrell in "Street Angel," a silent picture, but a big special of a little over a year ago, and made for silent showing. It's a real picture, though not a talkie. Remember it is not a talking picture with the talk left out and titles put in. It is a fine example of original moving picture technique. Attention, Wool Growers

Just a moment, please. It seems advisable to again make our position clear in some respects. Three weeks ago we announced, "In buying we will give the best market outlet and price that our position as a medium can bring to you."

Since there is no present "contracting" market for either wool or lambs, a certain demand arose for pre-shearing advances on wool. Beyond this, growers are not a unit in their preference for such accommodation as between dealer or cooperative organizations. To broaden your opportunity in this respect, we have arranged to make advances from either dealer or co-operative sources to you as your best judgment may dictate.

In accepting advances through us, no direct obligation involves you to deliver wool through our warehouse although we will be very glad to serve you in this way also.

The time is possibly approaching when outside money will be needed and appreciated. Our efforts to supply this is just a matter of policy to aid and serve you best when you need it most.

Thank you, Heppner Trading Co. J. A. Funk, Manager.
