INSULATING CEMENT BOARD

Say, talking of insulation against heat or cold, you should see the big ad in the Saturday Evening Post for this week. We can give you more information about insulation.

A sleeping porch? Ask us.

A haughty dame at a Washington function viewed the various celebrities with indifference until the head of the Agricultural Department was pointed out. "Is that really the Secretary of Agriculture?" "Yes." "Introduce me. I want to talk to him about a rubber plant I am trying to raise."

No problem is too big or too small to talk over with us. We may not know how to raise onions or such but we sure know building.

Now is a good time to give the chicken house a coat of white wash and get rid of the mites and lice. We have the lime.

Our office cynic has found that a stork stands on one leg because if he lifted it he would fall down.

To clean up and paint up isn't enough. Repairs and remodeling should also be done.

Ed Breslin is remodeling his residence on Main street. Harry and Charley Johnson are doing the work.

**Resolutions of Condolence.**

Whereas our beloved brother, Mildard F. Parker, has been called to that mysterious beyond:

In his departure we have lost a valued friend and member; we deeply deplore the loss to our fraternity.

Resolved, that this lodge tender its heartfelt sympathy to the family and relatives of our deceased brother in this sad hour.

Resolved that we drape our charter in mourning for thirty days; that these resolutions be entered upon the minutes of this lodge; that a copy be sent to the bereaved family and one to the Heppner Gazette Times.
