**Hiatt & Dix Install Refrigeration System**

Installation of a mechanical refrigeration system in the Hiatt & Dix store has been completed. A 10-foot counter, faced and covered with triple plate glass, provides for the storage and display of products. Two compartments in the case allow the keeping of foods at two different temperatures.

A compressor, electrically operated, is located in the basement to run the cooling system. A 7x9 foot cooling room provides for the storage of larger quantities and also for the keeping of window displays in good condition over night.

**ELKS GOING TO CONDON.**

Heppner lodge No. 358, B. P. O. Elks will make its annual pilgrimage to Condon Saturday, when a large class of candidates will be initiated. A banquet and dance will be staged in the evening. It is expected that a large number of members will make the trip.

**CASE TO BE RETRIED.**

On a proper showing on behalf of the defendant, Marvin Brown, made by his attorney, the justice court in session Wednesday, granted the motion ordering the case to be retried. Brown was charged with driving an automobile while intoxicated.

**James C. Mead Funeral Here 2 o'clock Friday**

Funeral services for James Corbett Mead of Hermiston, 26, who died in the Heppner General hospital early Wednesday morning following an operation found necessary following rupture of stomach ulcers, will be conducted at the Heppner Church of Christ at 2 o'clock Friday afternoon with Milton W. Bower reading the service. The rites will be in charge of the Neighbors of Woodcraft of which Mr. Mead was a member. Interment will be in the Odd Fellows cemetery at Lexington.

The injury which resulted in his death occurred when he strained himself while putting a cow in a chancion in the barn located on their ranch at Hermiston, to which they moved last Thursday. He had lived all his life in Morrow county, having been born on the ranch of his father and mother, Mr. and Mrs. George R. W. Mead, near Lexington. Funeral arrangements are being handled by Phelps Funeral home.

A pinch of soda in the water is not recommended to keep green vegetables green, as it is injurious to the vitamins. If the vegetables are cooked quickly they will keep their fresh green color without the use of soda.

Frying fish in deep fat much the same as croquettes gives them a beautiful even color and a crisp crust which most persons enjoy.

**Only One Change Made In Lexington Faculty**

Only one change will be made in the personnel of the Lexington school faculty for the coming school year. Mr. Ingalls, who has been teaching at Condon this year, will succeed C. E. Tucker as principal. Mr. Tucker has resigned to accept the position of superintendent at Ione.

Others to serve on the faculty for next year are Miss Helen Falconer, music and history; Miss Alice Montgomery, Latin and English; A. G. Becholdt, commerce and mathematics; Mrs. Frank Turner, grade school principal; Mrs. LaVilla Howell, fifth and sixth grades; Miss Helen Wells, third and fourth grades; Miss Pearl Vail, first and second grades.

He announced that some money might be available before the end of the fiscal year, June 30, 1930, for

improvement work. He believed that it might be well used for the improvement of watering places. Wool growers suggested that improvements be made to Log springs and at Pearson's meadows. Mr. Irwin stated that he appreciated the efforts of the association in the round up of stray horses and towards the establishment of a driveway.

W. P. Mahoney, president of the Oregon Wool Growers association, gave a short talk on the wool marketing problem. F. Wehmeyer, forest ranger, stated that a serious season from the standpoint of fires was being faced, and urged the cooperation of all persons using the forests. He said that the forest service would gladly pay for the suppression of fires in and near (within one mile of forest boundaries.) It has previously been the erroneous belief of a number of camp tenders and herders, that any work done in combatting fires was a donation, but that is not the case for the service will pay the men for the time used for fire control in the area named.

James Murtha of Condon talked about the sheep shearing problem this year, and the assembly joined in an informal discussion of the matter. J. G. Barratt urged membership in the Oregon Wool Growers association pointing out the advantages of membership.

**WHY THE HUNDREDS OF THOUSANDS OF USERS have not spent a cent for service**

FLAWLESS mechanism—sealed in steel—makes the General Electric Refrigerating unit trouble-proof and service-free. Thousands of persons in hundreds of cities have seen it actually submerged in water—operating perfectly day after day. No other mechanical refrigerator could withstand such a gruelling test—a test which has dramatically shown why no owner out of hundreds of thousands—has ever paid a cent for service.

General Electric Refrigerator gives you a perfect mechanism, permanently oiled, properly placed and hermetically sealed. Dust, dirt and moisture cannot get inside the steel-walled unit. Nothing—not even complete submersion in water—can halt faithful operation. This refrigerator serves you quietly, efficiently and unflinchingly.

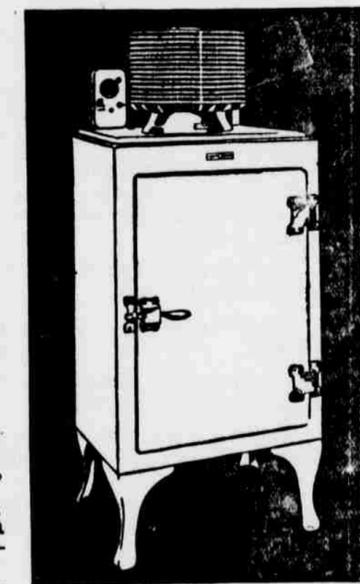

The cabinet, striking in modern beauty, is all steel, porcelain-lined and easily movable. It may be placed anywhere. Food-storage space is far greater. A free-vision base permits easy sweeping and true kitchen cleanliness. On top efficiency makes a small motor adequate—assuring unusually low operating cost. Leadership has been earned by an outstanding record of service-free performance in hundreds of thousands of homes. Let a refrigeration specialist show you the model that best meets your particular needs. Prices are low—terms reasonable.
