We can't understand why the Soviet Government has to persecute the peasants to stop them from attending church when the same objective could be reached by teaching them to play golf.

Today's Fairy Story

Once upon a time there was a movie actress who never endorsed any soap, cigarettes, shampoo, powder, toothpaste, hats or baking powder. She was a trained seal.

Our idea of nothing is a hot air balloon with the cover removed.

Hints to the Housewife

Although we know more about lumber than about cooking we think this is a good idea: When pouring paraffin on jelly, pour a small amount on, lay a short string across, then pour on more paraffin. The cord enables you to pull off the paraffin more easily. Besides this we have a lot of good ideas about the remodeling of the home. Do a room or two every year, until the house is completely rejuvenated.

Though you are not the man your Mother thinks you are, don't worry—your wife can identify you!

They Faced Death With Dauntless Courage--- Do Them Honor On Memorial Day it is only fitting that we lay aside our personal thoughts to devote our meditations to the brave soldiers of America who fought our battles and faced our foes. Not even the fear of death was enough to deter them from doing their utmost to preserve and protect our National Unity. Now in times of peace, we must not forget them, for they made peace and prosperity possible. Therefore on Memorial Day our hearts should be filled with gratitude and affection, and we should resolve to carry on our day by day activities in the same high spirit in which our soldiers assumed the burden in times of stress.
