

Local Happenings

Mr. and Mrs. M. L. Case, accompanied by N. D. Bailey, went to Portland the first of the week on business connected with the prospective mortuary Mr. Case is building. They arrived home in the early morning hours of Wednesday, their delay being caused by an accident on the highway just above Cascade Locks. At this point a coupe going west collided with one of the big busses traveling east. The coupe was occupied by E. E. Mathews and N. E. Florey of Fossil and Mr. Case assisted with bringing the injured men to Hood River. Mr. Mathews died just after arriving, and Mr. Florey was so badly injured that it was problematical as to results. Mr. Case was acquainted with Mr. Mathews and he informed relatives at Fossil of what had happened.

Rev. and Mrs. B. Stanley Moore and Mr. and Mrs. W. O. Dix motored to Walla Walla yesterday, returning today, accompanied by Miss Virginia Dix, who has been attending school there. Mrs. B. Belle Thompson was here over the week end from her home in Portland, being a guest at the home of her son, Ralph Thompson and wife of Willow creek. Mrs. Thompson spent the winter at Los Angeles, having but recently returned to her home in Portland.

Movement Under Way to Preserve and Enhance Natural Beauty of Oregon Highways.

Eugene, Ore.—A constructive survey of the highways of Oregon has been launched by the State Federation of Garden Clubs, with Mrs. W. L. Lawton, chairman of the national council for the Protection of Roadside Beauty, at the head, with the cooperation of Mrs. Jessie M. Honeyman, of the state garden club. Mrs. Lawton, accompanied by Mr. Lawton, will make an intensive study of the Oregon highways during the next seven weeks, covering the ground by automobile, taking pictures and making notes on all phases of the roadside problem, such as the preservation of natural beauty, the protection of forest strips, the control of roadside stands and signs.

"The highways of Oregon are unusually beautiful," Mrs. Lawton declared upon her arrival here. "And it should be the sacred duty of every citizen of the state to keep them so." Mrs. Lawton has traveled widely over the country and is thoroughly familiar with highway conditions in almost every section.

The contact with local groups which will be made on the trip is one of the most important aspects, those in charge believe. Both Mr. and Mrs. Lawton are scheduled to speak at a large number of places, illustrating their talks with slides showing the development of roadside improvement all over the country.

The survey was given enthusiastic endorsement at the recent convention of the state federation of garden clubs in Eugene, at which Mrs. Lawton outlined the plan. Mr. and Mrs. Lawton were welcomed to Oregon at a luncheon in the Multnomah hotel in Portland, where they were greeted by Mayor George Baker, a number of highway commissioners, and representatives of the women's federated clubs, the Garden Club of Portland, and others.

A COLUMN OF FUN AND FACTS

(Edited by Dean T. Goodman from his private sanctum down at the Heppner Garage.)

HOWDY FOLKS: Boys who graduate from school this year will seek a position, then they will look for an opening, and finally they will just grab a job.

TO WHOM IT MAY CONCERN. Many inquiries have come in as to where the editor of this column gets his literary ability. So as to settle that question for all time, the editor wishes to state that he comes from a literary family. His wife writes checks, his sister writes shorthand, and his brother writes insurance.

And now we want to write you a little message about tires. **GOODYEAR** without a doubt builds the best tire money can buy today. Proof? Sure. For the past fifteen years more people have ridden on **GOODYEAR** tires than on any other kind. Today **MILLIONS** more ride on them than on any other kind. Q. E. D.

HAPPY THOUGHT FOR BRIDEGROOMS: Just six months more and the wedding ring will be paid for.

Paul Gemmell proposed to Dave Wilson that they give a joint party. "We'll go fifty-fifty," he said. "You see about the drinks and I'll send out the invitations."

Maybe we are advancing but we can't remember having had any trouble starting a horse on a cold morning.

And still they come. More people are using our greasing and washing equipment than ever before—and leaving satisfied to soon return again.

What is so rare as a day in June? Well, possibly the 29th of February.

We are receiving lots of nice letters about "Free Air"—and some not so nice. Send 'em along. We like 'em. Some day we are going to publish part of them and it will surely be interesting reading.

EPISCOPAL CHURCH.

Rev. B. Stanley Moore, missionary-in-charge. Holy communion at 8 o'clock. Church school at 9:45. Morning prayer and sermon, "Spiritual Power."

This Sunday is known as Whitsunday by the church. The day is called by another name also, "Pentecost." It has been observed by Christians from a very early day. Its celebration is mentioned by Origen in the third century. The day is the birthday of the church. For just as Christmas had been the birthday of His natural body, so on Pentecost His mystical body, the Holy Spirit was breathed into the church. Pentecost is the Greek word for fiftieth. It is the name given to this feast because it falls on the fiftieth day after Easter.

The name Whitsunday is peculiar to the English-speaking church. The original word Pentecost is retained in all Latin countries. About the year 1200 the English spelling was Hwitesundel, and later Witesonday. The reference may be either to the wearing of white robes by candidates for baptism on the feast, or else to the gift of "wisdom," an old Saxon word for wisdom (as in wit-an, wise man), by the outpouring of the "spirit of wisdom," in fulfillment of Christ's promise.
