A COLUMN OF FUN AND FACTS (Edited by Dean T. Goodman from his private sanctum down at the Heppner Garage.)

HOWDY FOLKS—Now that school is out, the youngster's vacation begins, but ma's ends.

Alas, Too True
The man who writes the bank advertising is never the same man who makes the loans.

"The man who gives in when he is wrong," said the orator, "is a wise man, but the man who gives in when he is right is—"
"Married," said a weak voice in the audience.

The new GOODYEAR PATH-FINDER tires are surely beauties—and the prices are the lowest in tire history.

What folks need most is less service and more of what they're payin' for.

The police should investigate the sign of a certain photographer. "We take anything, any time, anywhere."
AND YOU SHOULD INVESTIGATE THE GOODYEAR TIRES THAT WE HAVE ON SPECIAL THIS WEEK. THE INVESTIGATION WILL BE A PROFITABLE ONE FOR YOU.

WEEKLY BRIDGE LESSON.
How to finesse a queen: Hold one in your lap.

DIPPY DIALOGUE.
Fair Customer: "I want a pair of bloomers to wear around my gymnasium."
Harry D.: "Yes, Ma'am, and what size is your gymnasium?"

After a man outgrows Santa Claus, he still thinks there is some kind of a used car that doesn't rattle.

Once more we say—"Wash 'em and grease 'em if you want the old bus to look nice and run satisfactorily. Our equipment and service in these lines is absolutely the best in Morrow county."

OH! OH!
She was a rather nice girl but dumb, so dumb that she was fired from the fifteen cent store because she couldn't remember prices—but she was having a grand time with the village swains:
"Where do we go tonight, big boy?"
"To a husking bee."
"Isn't that lovely! How do you husk a bee?"

We use 70,000,000 spark plugs annually—a chain 2,500 miles long. Autos burn 120,000,000 lamps every year—enough to light New York City. Thirteen thousand miles of asbestos brake lining are used each year.

We understand the Lions Club debate teams have taken for their next question, "Resolved, that under prohibition there are fewer halfshot men at sunrise."

And still, with the help of GOOD-YEAR TIRES the world rolls smoothly on its way.
