Do People Feel Better Because You Passed By?

pointment at five-thirty when his telephone rang. A woman's voice at the other end of the wire asked him to call at the house that eve-

His voice betrayed his irritation, but he promised to call. Then he snapped the receiver on the hook and exploded.

There is a woman who has nothing to do all day but gad about. She might just as easily have called me this morning or early this afternoon. But, no, she has put it off and spoil ed my evening.

"Nobody but a doctor has any "Nobody but a doctor has any spect and sympathy? How many idea of how inconsiderate people have compassion?"

On two recent trips with two different men I had an interesting op-

One of them had made several million dollars in the past few years. Whenever he entered a dining car portant. Waiters dislike him, even though he tips liberally. I some-times felt embrarassed by his crit-because he has passed by.

The manner of the other man is the exact reverse. You would never guess that he is a power in world industry. He never gives orders, but makes suggestions or very coureous requests. He seems surprised that anybody should want to do him a favor. He can make a waiter or a station porter feel a new sense of self-respect merely by his smile.

A noted preacher once remarked that one of the finest of all the sayings of Jesus is this: "I have con passion on the multitude."

Said the preacher: "Many men can be virtuous. Many can be honest in a hard, self-righteous way But how many are really considerate? How many feel instinctive re

A lot of twisted standards have somehow grown up in the world. A lot of very righteous people seem to portunity to contrast their conduct think that a man is good if he does toward their fellow human beings, not smoke, does not take a drink, does not do this or that.

These are negative and unimportent. The real mark of a Christian or a hotel he wanted everybody to and a gentleman is whether he understand that he is rich and imto be treated

abandoned in many schools, is re-sponsible for much of the atrocious spelling which makes so many girls

ers remember words as pictures. And that is as it should be. Spelling is of importance only in connection with reading and writing, and reading and writing are a means of expression designed to appeal to the

SPELLING

One reason why our public schools are not as good as they could and should be is that we do not pay the Mrs. W. O. Dix and Mrs. P. M teacher the same respect—to say nothing of salary-that they do in Europe. To be a school teacher in Germany, for instance, is to achieve at once a degree of social standing equivalent to that of a physician or lawyer.

Texas set an example years ago of one way of increasing the teacher's self-respect. In 1860 a "teachery" was built in Blum school district in Guadalupe County-a home for the Now Texas has 1,330 of these teacher's homes, costing an average of \$2,200. One teacher, H. E. Dietel, of Schumannsville, taught one school and lived in one teachery for 40 years. He became the fore nost citizen of his community. The rural school without a home

for the teacher or teachers is a relic of the dark ages.

POULTRYMEN MEETING. The annual convention of Oregon poultrymen, to be held on the Oregon State college campus July 23 and 24 is expected to draw some 400 leading poultrymen from all parts of Oregon, according to A. G. Lunn, head of the poultry husbandry department, who is in charge of the meetings. The Oregon State Poultrymen's association will convene on the campus at the same time.

TEACHERS TO MARRY.

That is Miss Mary Gingrich, former Mor- if he has a half tank on hand, he row county teacher, will be married gets none June 25 in Portland. During the inable to earn more than a bare last year, both have been teaching wage as stenographers. Good spellin the North Bend schools.

In Retrospect

FIVE YEARS AGO

Mrs. W. O. Dix and Mrs. P. M. semmell are in Portland this week attending the grand chapter, Order of Eastern Star, as representatives of Ruth chapter No. 32 of Heppner. Treasurer L. W. Briggs is laid up at his home this week, suffering an attack of appendicitis. His physi-

cian has not yet decided whether an operation will be necessary. Mr. and Mrs. Harold Cohn of this city are the proud parents of a fine boy, born to them at the maternity home of Mrs. G. C. Alken on Satur day, June 6. The young man has been named Philip William for his paternal and maternal granddod-

A pretty wedding took place at the home of Mr. and Mrs. J. F. Barlcw, near Heppner, Sunday, May 24, when their son, Guy L. Barlow, was united in marriage to Miss Crystal N. Roberts.

TEN YEARS AGO. (Prom Gazette Times of June 10, 1920.) Howard M. James of Enterprise

as been chosen to succeed D. W. Boitnott as superintendent of the Heppner public schools.
So acute has become the gasoline situation that all over the country drastic steps are being taken to con serve present supplies. To that end all unnecessary use of the automo-biles is being advocated to be stopped. Beginning the first of the week in Heppner, it was not possi-

Ex-servicemen of Morrow county will meet in the council chambers in Heppner on Saturday evening to

complete organization of a local post of the American Legion, according to announcement of R E.

Crego, acting secretary. Earl Gilliam. Charles Vaugan and a wagon load of provision and plenty of fish bait to last them for several days while they are enjoying vacation on Potamus.

FIFTEEN YEARS AGO.

From Gazette Times of June 10, 1915.) The second annual picnic of the Morrow County Farmers union held last Tuesday at Ione was a complete success. Fully 1000 outside people attended and the day was enjoyably and profitably spent.

Local sportsmen gathered at the city council chambers last Friday evening, and with Dr. F. N. Chris tensen acting as temporary chairman, an organization which will look to the betterment of fish and game conditions in Morrow county was started. The name of the new organization is Morrow County Rod

and Gun club.
O. A. Devin, who has been suffering much of late with rheumatism, departed for McDuffee springs Tuesday and will remain there sufficient time to get relief.

Frank Turner returned to his farm home northwest of Heppner Fuesday, having completed a suc essful shearing season. During the season the Turner and Wilcox plant sheared 45,000 head of sheep.

all bids or offers must be made in writing and sent to or left at the office of Earl T. Jones, administrator, Bank of Commerce, Wasco, Oregon.
Dated this 6th day of June, 1930.
EARL T. JONES,
Geo. G. Updegraff,
Attorney for said Administrator. 13-16.

TOMORRO

RADBURN

Something new in town building has been accomplished in New Jersey, twenty miles out from New York City. The town of Radburn has been planned and built with an eye first to safety in the streets. It has been laid out so that all streets in the residential district are "deadend" thoroughfares. No through traffic rushes past homes, endangering the lives of children. Schools playgrounds, parks and recreation centers have been so located that no child has to cross a street carrying motor traffic to get to any of them. And there are plenty of open spaces in the midst of which dwellings have been built which house today about 600 people, where there was nothing but a farm a year ago.

Radburn calls itself "Tomorrow's Town." It is certain that new methods of town planning must develop to meet the new tools of civilization.

MIRACLES

Nothing but gas and water are needed to make artificial silk, by a new process discovered by Professor Harold Hibbert of McGill University, Montreal. That is amazing even to such of us as have got used to the idea of transmission of electric currents through space. Gascarbon dioxide, produced from coa--is invisible and, to our unaided senses, without weight. Water is a fluid which takes solid form only as ice, in our ordinary experience. But by combining the two to make permanent, tangible solid which will take the place of rayon fibers produced from cotton or wood pulp. Dr. Hibbert has performed a mira-cle which seems none the less miraculous when he explains how it is

This is another step in the progress of science toward the goal of producing in the factory, by swift, cheap methods, everything we need to eat, wear and use. The method in general, is to take the short cut where Nature takes the long road about.

DOLLAR

Eighty-six years old, owner of a fleet of 50 great passenger and freight ships and one of the world's largest lumber enterprises, Captain Robert Dollar still runs the details of his own great business. He started to work at 11, in his native Scotland, at wages of 60 cents a week He has made every cent of his great fortune by hard work and still gets to his office in San Francisco at 20 minutes to nine every morning. When he feels like it he calls up Mrs. Dollar, tells her to pack the bags for a trip, and the happy old couple start out on one of his own ships for a voyage to China or around the world. On every such trip Captain Dollar finds new opportunities for American trade and new business for the Dollar ships.

TEACHERS

There is a great revival of interest in the old-fashioned "spelling bee." Helen Jenson, a 13-year-old girl of Council Bluffs, has just won a prize of \$1,000 and the title of National Spelling Champion in a contest at Washington. Newspaper men, congressmen, women's clubs and other bodies have been con-

ducting spelling bees in many cities. This is interesting and more or less important. Correct spelling is an accomplishment which reveals a great deal of the character of the individual. Good spellers are persons who concentrate on details who have a keen eye and a pictorial memory. Few persons who learn chiefly by ear are good spellers. The "phonetic" method of teaching chil-

dren to read, a fad which is being

After the First

Twenty-five Thousand

Miles

THE VALUE of sound design, good materials and careful craftsmanship is especially apparent in the new Ford after the first twenty-five thousand miles. Long, continuous service emphasizes its mechanical reliability and economy of

As you drive the Ford through many months and years you will develop an increasing pride in its appearance and a growing respect for the substantial worth that has been built into it. From every standpoint-in everything that goes to make a good automobile—you will know that you have made a far-seeing, satisfactory purchase.

Wherever you go, you hear enthusiastic praise of the car and this significant, oft-repeated phrase-"I'm glad I bought a Ford."

A FORD owner in New York tells of a 13,000-mile trip across the United States and back in sixty days and says "the car was extremely economical to operate, comfortable and speedy." A grateful father tells how the Triplex shatter-proof glass windshield saved his wife and children from serious injury.

operation and up-keep.

To test tires, a large company drove a new Ford day and night, for an average of 500 miles every twenty-four hours. It was still giving satisfactory service after 105,000 miles.

A Ford car that had fallen into Fernan Lake was submerged for twelve days before being raised. After a new battery and carburetor bowl were installed, it was driven back to Spokane under its own power.

Many police departments have written of the special advantages of the Ford in crowded traffic because of its alert speed, acceleration, and ease of control. An increasing number of fleet owners are also purchasing the Ford because their cost figures have given conclusive proof of its economy of operation and up-keep.

In addition to important triumphs in Germany, France and Italy, the Ford won six out of seven leading places in a contest in Finland, first and second in the Rafaela races in Argentina, first and second in the

run from Copenhagen-to-Paris-to-Copenhagen, three gold medals in England, first ranking in the durability test over the tortuous Amancaes road in Peru, and first place in the 1930 reliability run conducted by the Royal Automobile Club of Sweden.

This contest was an exceptionally severe test of endurance and sturdy construction because it was held in the dead of winter and covered 600 miles of steady running over snow-covered country roads and mountainous hills.
