## Don't Ask It

Why does the Banker object so seriously to carrying Overdrafts? The answer is easy. An Overdraft is merely an unsecured Loan.

The Banker has a responsibility to his depositors. He cannot permit their money to be risked that way. Do not ask this Bank to honor your checks if you haven't sufficient funds. You are simply asking us to let you have some of our depositors' money without security. We can't do that, for it is not in line with our sound business policy.
