BOARDS

Boards are fine things. They are constructed in Nature's laboratory and fill many and varied uses of man. They will withstand a great deal of rough treatment. But the finest board is absolutely unable to withstand weathering and decay if left exposed to Oregon weather for any length of time. Paint is much cheaper than lumber and is the best preservative we have against weathering. Paint now or repair later is true of all unpainted buildings. Chicago Paint is the best paint.

Do you need a carpenter to build a cabinet or do work of any kind in your home?

Call 912 and we'll send you a man who knows how to do it. Wm. Driscoll janitor of the school, is busy excavating under the gym for a room 48x52. It will be cut up for showers, dressing rooms, etc., to be used in connection with the physical training. Dave Wilson says that one of his socks on your foot is worth two in the eye.

FABLE

Once there was a man that mortgaged his automobile to make a first payment on a home. Mandy: "Ah wants a ticket to New York." Ticket Agent: "Do you wish to go by Buffalo?" Mandy: "Lawsy no, sah! Ah wants to go by train." Have you seen the paint job on the Joe Eskelson, Mrs. Reaney, Lawrence Palmer and Gene Gentry ranches at Lexington? If you are interested in painting it would be worth your while to look these jobs over. Dr. McCrady is the only man we know of that can tell a woman to shut her mouth—and get away with it.

Don't Ask It

Why does the Banker object so seriously to carrying Overdrafts? The answer is easy. An Overdraft is merely an unsecured Loan.

The Banker has a responsibility to his depositors. He cannot permit their money to be risked that way. Do not ask this Bank to honor your checks if you haven't sufficient funds. You are simply asking us to let you have some of our depositors' money without security. We can't do that, for it is not in line with our sound business policy.
