W. C. T. U. NOTES

Prize fighting is not to be commended, and yet the interest of a great many people, especially the young, is centered in a prize fight when it occurs.

"I feel that if I ever took so much as one drink of liquor that that would mean just one punch I couldn't get away from sometime, and that if I ever smoked so much as one cigarette, that would mean just one little inch of lung power that I'd need sometime and wouldn't have."

The following is taken from an editorial in The Pittsburgh (Pa.) Post of May 9, 1903, a little over

twenty-seven years ago, and is not the argument of some enthusiastic dry of later days:

"At the recent meeting of the Anti-Alcohol Congress in Berlin, it was stated by Dr. Delbruck of Bremen (Germany), the president of the congress, that beer-drinking as a means of combatting alcoholism has been clearly shown to be a failure.

"It leads often to the use of distilled liquors, but in itself produces all the evils of whiskey. Of 149 patients who were treated in a North German private asylum for drunkards, 41 had been alcoholized," said Dr. Delbruck, "by drinking spirits, 30 by wine drinking, and 78 or more than half—by the excessive consumption of beer."

"The belief that delirium tremens was unknown among beer drinkers was a mistake. It was impossible to convey by statistics the extent of misery caused by what he described as 'beer alcoholism.' Prof. Cramer, of Gottingen, held that the alcohol habit is curable if taken in time and treated at a suitable drunkards' asylum."

"BUILDING PROGRESSES. Superstructure of the new two-story building to house the Case mortuary on the corner of Gale and Center streets has been completed and side walls and roof are being constructed. The work is being pushed rapidly. The wooden structure will be finished with brick veneer.

The paint crew has been busy. The county sheds received a new dress and the S. E. Notson residence is being finished this week.

A lady was entertaining the small son of her married friend. "Are you quite sure you can cut your own meat, Willy?" she asked after watching him a moment.

"Oh, yessum," he answered. "We often have it this tough at home."

Howdy folks! My name is Hand-man. I stay down at the Tum-A-Lum office and wait for you to call. I do all kinds of work and in a prompt and efficient manner. Call 912 for me.

Work on the new Shell Oil company plant at Ione is moving right along. They are using Tum-A-Lumber, of course.
