

BOARDMAN

MRS. A. T. HEREIM, Correspondent.

Premium lists for the club work were received this week by club members. The members are urged to remember that the record books count 15 percent on the final score. Every club leader finds that the keeping of the records seems to be the most difficult part of the work or at least the most easily neglected. In the livestock section it is noted that handling in the show ring counts ten percent. The members will no doubt be able to do this more satisfactorily than they did last year when it was new to many of them and they had difficulty in showing their animals. The leaders have been coaching the boys and girls on this all through the summer.

The champion sheep club member will receive the scholarship to the 1931 O. S. C. club summer school. Reserve champion club member will receive a ewe lamb given by W. O. King of Boardman. Mr. King has been leader of the sheep club the past two years and has shown much interest in the work.

The champion calf club member is given a choice of the scholarship or a pure bred Jersey heifer calf given by Mrs. Bertha Cool of Ione. Reserve champion member will receive either calf or scholarship. Member having third best calf will receive a Jersey calf given by Leo Cooney. Mr. Cooney is leader of the calf club here and has taken keen interest in the work which is new to him. Mrs. Cool has been active in club work for some time.

A livestock judging contest will be held on Saturday morning, Sept. 13, the winning team to represent the county in the contest at Portland at the Pacific International Livestock exposition. Several of the Boardman boys have been working hard on the judging and are hoping to be the fortunate ones to attend the Pacific International.

A new departure this year in the county is the health contest and posture parade with appropriate prizes. The sewing, cooking and home making divisions are also offered scholarships. In the past Ir-rigon has usually won the prizes in this division.

Keep the date in mind as Fair time approaches rapidly. Boardman ranchers are urged to enter the display for the best general farm exhibit. There are many prizes offered for this. Many farmers have excellent gardens this year and will be able to make a fine display.

Dorothy and Donnelly Channing, the twins, were eight years old on Friday, so a splendid party was planned by Emma Agee and Mrs. Channing. After much discourse, pother and colloquy over the matter of the electric light franchise, it was put to the vote of the people to sell or not to sell and by a majority of 18 to 6 it was decided to sell the plant, presumably to Paul Hatch who has been dickering with the city council for several months. He plans to enlarge the plant that power may be carried to the ranches on the project. This would indeed be a boon to the farmers. Thus far the plant has been a burden of expense to the taxpayers. O. S. C. STUDENTS MAKING OWN WAY

Report Shows Nearly All Men and Half of Women Earn Part or All Expense.

Eighty-nine per cent of the men students and 44 per cent of the co-eds at Oregon State college are making their own way through school in whole or in part, according to figures compiled by the registrar. Forty two per cent of the men, 14 per cent of the women, or 33 per cent of the entire student body are entirely "on their own" and not dependent on others for their education, the report shows. The man student entirely dependent is a rare individual at O. S. C. as only one in 10 is not making at least part of his own way. Eighteen per cent are less than half self-supporting, while 29 per cent make more than half but not all their expenses. Fifty-six per cent of the girls get all their money from home, 14 per cent make some of their way and 16 per cent make more than half but not all.

Though all the self-supporting students work in the summer, many also make much of their expenses during the school year as shown by the report of Mrs. Lulu Howard.
