

BOARDMAN

The community was profoundly shocked to hear of the sudden death of Raymond Shane on Wednesday. He was found dead in the field at the Crawford place shortly after noon, when the sheep were seen by neighbors to be scattered about. Mr. Shane had been ill for some time with heart trouble and death was caused from heart failure, according to the coroner who was called from Heppner. Funeral services were held Friday afternoon at the Montague school house 12 miles south of Arlington, with interment in the family burial plot of the Montagues. Pallbearers were Art and Roy Wheelhouse, Gordie Leghorn, Chas. Story, Frank Louy and Earl Weatherford, all friends from Arlington. Rev. W. O. Miller preached the funeral sermon. Mrs. Claude Coats, Mrs. Royal Rands and Guy Barlow sang with Mrs. Lee Mead accompanying.

The deceased was 35 years of age and was born in Colfax, Wash. His wife and three children, Clayton, Raymond Jr. and Wanda survive, as well as his mother, Mrs. Jenny Doney of Freewater, five brothers and one sister. The Shanes came to the project two years ago from Marysville, Calif., and have made many friends who extend the deepest sympathy to the bereaved family.

The pupils of the four upper grades in charge of Mrs. Titus and Mr. Brown, observed a Quiet Hour on Friday afternoon during the funeral services of the late Mr. Shane, as the Shane children are in these grades.

Mrs. Z. J. Gillespie came up Friday night from Elkton where she is teaching and visited with her husband and parents. A family dinner was enjoyed at the Coats home on Sunday.

Harry Murchie has been up here with J. C. Ballenger for a time. He is looking and feeling fine and gets about on his crutches with comparative ease. He had his leg removed at the hip some time ago and has spent months at the hospital in The Dalles.

Mr. and Mrs. George Bleakman and daughter of Heppner were guests at the Glen Hadley home Sunday.

Miss Iris Schaffer of Portland is a visitor on the project. She lived here years ago when a child.

Mrs. Ray Brown planned a pleasant surprise for her husband's birthday on Saturday night. The party was a complete surprise and was thoroughly enjoyed by all the guests. Present were the Fortlers, Packards, Spagles, Kennedy, Maccombers, Rands, Meads, Dillaboughs, Miss Katharine Brown and Oria Brown.

Wanda Shane fell from a horse Sunday evening and broke her arm. I. Skoubo took Wanda and her mother to Arlington to have it set.

Mrs. L. C. Cooney gave a lovely party Sunday afternoon for her daughter Maxine and for Lucile Tyler. About 20 children were present and participated in the games followed by a fine lunch. Attending were the Tyler, Strobel, King, Skoubo and Hereim children, Stanton Hadley, Edith Graves, Elizabeth Kristensen, Elizabeth Slinger, Lillian Hango and Bertie Richardson.

Mr. and Mrs. Walter Stutte and children of Portland were week-end visitors at the Faler home. Mr. Faler went back to Portland with them for a few days. Mrs. George Spring is expected up for a visit this week.

The Western Union crew is at Castle Rock at present. Deibert Johnson who is with the crew was home over Sunday. Howard Packard, another local boy, who was with them, has gone to Corvallis to school.

Strobel's crew has started baling. The Rands hay and the Ira Berger hay has been baled and a small amount at the Wasmer place.

Mr. and Mrs. R. H. Campbell were up for the week end and were at the Kings for pheasant hunting.

Sunday was a gorgeous Indian summer day so a group took advantage of the weather and picnicked on the island, partaking of a wonderful dinner and afterwards hunting Indian relics. Hi Hoffman and George Mitchell took three boatloads over. In the group were the Maccombers, Marschats, Dillaboughs, Browns, Kennedy and Norma Gibbons, Ruth and Francine King, Miss Shellenberger, Miss

McMahon, Oria Brown and the two boatmen. Mr. and Mrs. Chas. Taylor and Mrs. Jennie Doney returned to their home in Freewater, having come to attend the funeral services of the late Mr. Shane who was the son of Mrs. Doney and brother of Mrs. Taylor.

W. T. Botkin and Mr. Jandrzewski of Hermiston were with L. C. Cooney around on the project last week in the interests of the proposed state turkey growers association. This organization is to be part of the Federal Farm Board work. The need of such an organization is apparent since the large packing interests wrecked the one previously functioning. Mr. Cooney is the Boardman representative of the association. A fee of one dollar is charged for joining, to be paid Mr. Cooney. Boardman farmers have had more or less grief with associations but nevertheless the principle is sound and the time is coming when they will be a matter of self-preservation to the farmer. Many found fault with the other association but must admit that it was an important factor in keeping prices up to the levels they were during its existence.

A carload of lumber was unloaded here Saturday for several of the local farmers. Mr. Saunders and Reid Kristensen are both planning to erect new barns.

Mr. and Mrs. W. H. Mefford were visitors at the Root home last week coming up from their home at Corvallis Tuesday and returning Friday morning.

WITH FARMERS ABOUT THE STATE

Enterprise—A total of 25 carloads of stock were shipped out of Walla Walla county last month by the marketing association, reports N. C. Donaldson, county agent. These included 12 cars of sheep, 7 cars of hogs, 2 cars of cattle, and four mixed cars.

Dallas—Another use for the popular Austrian Winter Field peas may be found in Polk county, reports County Agent J. R. Beck. Trial plots of this crop are being sown in comparison with vetch as an orchard cover crop by N. L. Guy and Wes Elliott, in an attempt to find a crop that will make a larger growth than the vetch before time to plow it under.

Klamath Falls—Klamath County potato growers are finding that slightly better disease control is obtained with the corrosive sublimate seed treatment than with the hot formaldehyde treatment. More than 300 pounds of corrosive sublimate were purchased last year through the county agent's office and the local potato growers association.

Toledo—Austrian Winter Field peas are proving valuable as a legume hay crop in the coast district. Cooperative plantings started two years ago by the county agent have proved so successful that many Lincoln county farmers are now growing it. In some cases it makes a good stand on land that has refused to grow vetch and red clover.

Much Deafness Can Be Cured If Taken Early

(From Morrow County Public Health Association.)

The prevalence of deafness in the United States is appalling. Most cases start in childhood, and the sad thing about the situation is that with proper care 80 per cent of the cases of deafness might have been avoided.

Little can be done for the child who is deaf as the result of syphilis or meningitis. Sometimes a severe mastoid operation leaves deafness, for which nothing can be done. But

much can be done for the child who has become deaf as a result of the contagious diseases, from repeated colds in the head, from frequent earache, or from blowing his nose improperly, from stoppage of the eustachian tube (the tube going into the ear from the throat), or because of diseased tonsils and adenoids.

But from whatever cause, the child who does not hear well must first be given scientific care. EIGHTY PER CENT OF THE CASES CAN BE CURED, BUT ONLY IF TAKEN EARLY.

In the inspection of the schools of Morrow county a very great many cases have been found where a har-

dened wax is the cause of dullness of the child's hearing. This wax is too deeply seated to be noticed by casual washing and should be removed very carefully by a physician not to injure the mechanism of the ear permanently.

Would it not be worth while having wax removed properly at this time rather than risk the probability of semi-deafness for life? Your child's advancement in school may depend on that very thing.

Notification of defects found by the inspection of the county nurse, Edith J. Stallard, and the county physician, Dr. A. B. Gray, will be sent as soon as possible. If parents feel they cannot care for these

defects please communicate with Miss Stallard. Her best work will be done only with your cooperation.

It is reported that hunters in the mountains this week ran onto a cub bear in a trap. The animal had apparently been fastened in the trap for a number of days and was dead when discovered.

"What's the sixth sense?" "That must be the one that's used for looking into the fourth dimension."

Mother: "I don't like to shout at you, Harold." Little Harold: "And I can't say that I like it either, mummy."

From October 16th to 20th

Allen-A Men and Boys Underwear 20% Off

Newest, first quality styles offered during "New Customer" Sale

Twice yearly we stage this event to win many new customers to Allen-A Underwear for Men and Boys—and to reward old friends, too. Until Monday night, October 20th, our complete new stock of Allen-A Underwear (every garment guaranteed first quality) is reduced 20%. Shop early.
